And we have patient and enthusiastic staff offering help on our PSA-Sysadmin learning prep.

Certinia PSA System Administrator 2023 Sample Questions (Q34-Q39):

NEW QUESTION # 34

You recently activated a Project Management Workspace and are notified that some users are seeing the following error on the navigation component:

Error: "You do not have access to the Apex class named 'wksp_navigation'." Which permission do you need to add for the user?

- A. Add the Apex Class "wksp navigation" to the User's Permission Set or Profile
- **B. Create a Permission Control for the user for "Workspaces" for their Region, Practice, or Group**
- C. Add the "PSA Workspace Navigation Apex Class" Permission Set to the User

Answer: B

NEW QUESTION # 35

In your company, you are responsible for reviewing/maintaining Workspaces. You need to adjust the Default FinancialForce Navigation in the Service Delivery Workspace. You know you need to use the "Navigation Configuration Builder" screen, but you do not see this option available in the "App Launcher".

Which of the following is a possible reason?

- **A. You do not have the "FF Configuration Builder" Permission Set assigned**
- B. You need to have "System Administrator" Permission Control record assigned
- C. You need to have the "Configuration Builder Menu" setting set to "TRUE" on the Salesforce User setup screen

Answer: A

Explanation:

If you cannot see the "Navigation Configuration Builder" in the App Launcher, possible reasons include:

- * Missing Permission Set:
- * You must have the "FF Configuration Builder" permission set assigned to your user profile.
- * Without this, the Navigation Configuration Builder will not be accessible.

- * How to Assign the Permission Set:
 - * Navigate to Setup > Users > Permission Sets.
 - * Locate the Configuration Builder and assign it to your user profile.
 - * Other Possible Causes:
 - * If permissions are correct but it's still missing, check user roles and profile to ensure proper access.
 - * Ensure that the Configuration Builder feature is enabled in PSA settings.

NEW QUESTION # 36

To update Resource Roles in PSA, you will need to update the picklists of which two of the following objects? (Choose two.)

- A. Work Calendars
- B. Assignment
- C. Contact

Answer: B,C

Explanation:

To update Resource Roles in PSA, you need to modify the picklists of two objects:

- * Contact Object- This contains the primary Resource Role field, which determines a resource's default role.
- * Assignment Object- This ensures that resource role updates apply to assignments where resources are staffed.
- * Option B (Work Calendars) is incorrect because Work Calendars define availability, not Resource Roles.

Thus, the correct answers are A and C.

NEW QUESTION # 37

A Project Manager wants to generate a report on the Project's Margin, Revenue, and Costs for a specific period, and to be able to reuse it.

How do you set up this requirement in the Org?

- A. Create a report on the "Project Actuals" object > add the Billings. Margin and Total Costs > Group by Project > filter by Time Period
- B. Create a report on the "Backlog Detail" object > add the Billings. Margin, and Total Costs > Group by Project > filter by Time Period
- C. Create a report on the "Project" object > add the Billings. Margin, and Total Costs > Group by Project Name > filter by Current Time Period

Answer: A

NEW QUESTION # 38

A Project Manager wants to generate a report on the Project's Margin, Revenue, and Costs for a specific period, and to be able to reuse it.

How do you set up this requirement in the Org?

- A. Create a report on the "Project Actuals" object > add the Billings. Margin and Total Costs > Group by Project > filter by Time Period
- B. Create a report on the "Backlog Detail" object > add the Billings. Margin, and Total Costs > Group by Project > filter by Time Period
- C. Create a report on the "Project" object > add the Billings. Margin, and Total Costs > Group by Project Name > filter by Current Time Period

Answer: A

Explanation:

To generate a report on a Project's Margin, Revenue, and Costs for a specific period, the best approach is:

- * Use the "Project Actuals" object, as it contains real-time financial data for projects.

- * Include the fields: Billings, Margin, and Total Costs.
- * Group by Project to summarize data per project.
- * Filter by Time Period to ensure reports show data for a specific timeframe.
- * Option A (Using the "Project" object) is incorrect because it lacks direct financial calculations.
- * Option C (Using "Backlog Detail") is incorrect because backlog relates to future revenue rather than actuals.

Thus, the correct answer is B.
