- A. Predecessor is activity 9001, successor is activity 9002
- B. Predecessor is activity 5001, successor is activity 8001
- C. Predecessor is activity 4001, successor is activity 8001
- D. Predecessor is activity 5001, successor is activity 8002

Answer: B

Explanation:

Definition of a Summary Activity (Hammock): A summary activity, also referred to as a hammock activity, spans multiple detailed tasks and is governed by the earliest start (ES) of the first task and the latest finish (LF) of the last task.

Activities 6001 through 6003 Overview:

* 6001: Starts after 5001 (Drill and Grout Dam Site).

* 6003: Ends before 8001 (Rock Fill to elevation 50).

Identifying Predecessor and Successor:

* Predecessor: Activity 5001 (Drill and Grout Dam Site).

* Successor: Activity 8001 (Rock Fill to elevation 50).

Cross-Verification:

* Logical and temporal dependencies confirm that Activity 5001 must precede the hammock, and Activity 8001 must succeed it (Ref: PSP Study Guide, Chapter 2A: Logical Sequencing and Activity Relationships)

NEW QUESTION # 160

If a new hammock activity covering activities 6001 through 6003 is developed, what are governing predecessor and successor activities?

- A. Predecessor is Activity 4001, successor is Activity 9004
- **B. Predecessor is Activity 5001, successor is Activity 8001**
- C. Predecessor is Activity 4001, successor is Activity 9003
- D. Predecessor is Activity 8001, successor is Activity 5001

Answer: B

NEW QUESTION # 161

Which of the following is NOT required when performing weekly or monthly schedule updates?

- A. Percent complete.
- B. Actual finish of activities.
- **C. Original duration of activities.**
- D. Remaining duration of activities.

Answer: C

Explanation:

Update Process Essentials:

* Schedule updates track the current status of the project using actuals (start/finish dates), progress (percent complete), and future plans (remaining duration).

* The original duration does not change and is part of baseline data, not required for routine updates.

PSP Study Guide References:

* Scheduling update procedures are discussed, emphasizing active progress tracking elements like actual start, percent complete, and remaining duration.

Conclusion: The correct answer is D, as original duration is not a variable considered in regular updates.

NEW QUESTION # 162

Theoretically construct a summary activity for activities 2001 through 2004. Using the "normal" schedule, what is the cost of the hammock?
