BONUS!!! Download part of PassSureExam QSA_New_V4 dumps for free: <https://drive.google.com/open?id=1I2IXUtAces-5R98w2eIqNFhSVM5bgbOG>

As you can see that on our website, we have free demos of the QSA_New_V4 study materials are freebies for your information. In case you are tentative about their quality, we give these demos form which you could get the brief outline and questions closely related with the QSA_New_V4 Exam Materials. And it is quite easy to free download the demos of the QSA_New_V4 training guide, you can just click on the demos and input your email than you can download them in a second.

PCI SSC QSA_New_V4 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• Real-World Case Studies: This section of the exam measures the skills of Cybersecurity Consultants and involves analyzing real-world breaches, compliance failures, and best practices in PCI DSS implementation. Candidates must review case studies to understand practical applications of security standards and identify lessons learned. One key skill evaluated is applying PCI DSS principles to prevent security breaches.
Topic 2	<ul style="list-style-type: none">• Payment Brand Specific Requirements: This section of the exam measures the skills of Payment Security Specialists and focuses on the unique security and compliance requirements set by different payment brands, such as Visa, Mastercard, and American Express. Candidates must be familiar with the specific mandates and expectations of each brand when handling cardholder data. One skill assessed is identifying brand-specific compliance variations.
Topic 3	<ul style="list-style-type: none">• PCI Reporting Requirements: This section of the exam measures the skills of Risk Management Professionals and covers the reporting obligations associated with PCI DSS compliance. Candidates must be able to prepare and submit necessary documentation, such as Reports on Compliance (ROCs) and Self-Assessment Questionnaires (SAQs). One critical skill assessed is compiling and submitting accurate PCI compliance reports.
Topic 4	<ul style="list-style-type: none">• PCI Validation Requirements: This section of the exam measures the skills of Compliance Analysts and evaluates the processes involved in validating PCI DSS compliance. Candidates must understand the different levels of merchant and service provider validation, including self-assessment questionnaires and external audits. One essential skill tested is determining the appropriate validation method based on business type.

Topic 5	<ul style="list-style-type: none"> • PCI DSS Testing Procedures: This section of the exam measures the skills of PCI Compliance Auditors and covers the testing procedures required to assess compliance with the Payment Card Industry Data Security Standard (PCI DSS). Candidates must understand how to evaluate security controls, identify vulnerabilities, and ensure that organizations meet compliance requirements. One key skill evaluated is assessing security measures against PCI DSS standards.

QSA_New_V4 New Questions | Valid Dumps QSA_New_V4 Ppt

Most of the brands that offer PCI SSC QSA_New_V4 study material provide it at high rates. However, PassSureExam saves your money by offering PCI SSC QSA_New_V4 Real Questions at an affordable price. In addition, we offer up to 12 months of free QSA_New_V4 exam questions.

PCI SSC Qualified Security Assessor V4 Exam Sample Questions (Q45-Q50):

NEW QUESTION # 45

Which statement is true regarding the use of intrusion detection techniques, such as intrusion detection systems and/or Intrusion protection systems (IDS/IPS)?

- A. Intrusion detection techniques are required to identify all instances of cardholder data.
- **B. Intrusion detection techniques are required to alert personnel of suspected compromises.**
- C. Intrusion detection techniques are required to isolate systems in the cardholder data environment from all other systems
- D. Intrusion detection techniques are required on all system components.

Answer: B

Explanation:

PCI DSS Requirement:

* Requirement 11.4 mandates the implementation of intrusion detection and/or intrusion prevention techniques to alert personnel of suspected compromises within the cardholder data environment (CDE).

Purpose of IDS/IPS:

* These systems are deployed to identify potential threats and alert relevant personnel, enabling them to take corrective actions to prevent data breaches.

Rationale Behind Correct answer:

* A:Intrusion detection is required only for in-scope components, not all system components.

* C/D:Intrusion detection systems do not perform isolation or identification of all cardholder data; they monitor for and alert on potential intrusions.

NEW QUESTION # 46

Where can live PANs be used for testing?

- A. Pre-production (test) environments only if located outside the CDE.
- **B. Pre-production environments that are located within the CDE.**
- C. Testing with live PANs must only be performed in the QSA Company environment.
- D. Production (live) environments only.

Answer: B

Explanation:

Requirement 6.4.3.1 clarifies that if live PANs are to be used in testing, the test environment must meet all applicable PCI DSS controls. Thus, testing with live PAN is only allowed if the test environment is within the CDE and fully secured.

* Option A: #Incorrect. Testing should not happen in production.

* Option B: #Incorrect. It must be within the CDE if live PAN is involved.

* Option C: #Correct. Live PANs can be used in pre-production environments within the CDE.

* Option D: #Incorrect. There's no requirement to test only within QSA environments.

Reference: PCI DSS v4.0.1 - Requirement 6.4.3.1 and its Applicability Note.

NEW QUESTION # 47

A "Partial Assessment" is a new assessment result. What is a "Partial Assessment"?

- A. A term used by payment brands and acquirers to describe entities that have multiple payment channels, with each channel having its own assessment.
- **B. An assessment with at least one requirement marked as "Not Tested".**
- C. A ROC that has been completed after using an SAQ to determine which requirements should be tested, as per FAQ 1331.
- D. An interim result before the final ROC has been completed.

Answer: B

Explanation:

According to Section 12.2.3.3 of PCI DSS v4.0.1, a Partial Assessment is defined as a result where at least one PCI DSS requirement is marked as "Not Tested." This is typically seen during gap assessments or pre-validation efforts, not official compliance validation.

* Option A: Incorrect. SAQs are self-assessments; Partial Assessment is a different concept.

* Option B: Incorrect. Interim drafts are not labeled as "Partial".

* Option C: Incorrect. That is a misinterpretation of segmentation by payment channel.

* Option D: Correct. "Not Tested" = Partial Assessment.

NEW QUESTION # 48

Security policies and operational procedures should be?

- A. Encrypted with strong cryptography.
- **B. Distributed to and understood by all affected parties.**
- C. Reviewed and updated at least quarterly.
- D. Stored securely so that only management has access.

Answer: B

Explanation:

PCI DSS Requirement 12.1.1 requires that security policies and procedures be disseminated to all relevant personnel and that those individuals understand and acknowledge the policies. While review and update frequencies are also part of compliance, the most complete and correct answer is that policies must be shared with affected parties.

* Option A: Incorrect. Encryption is not specifically required for policy documents.

* Option B: Incorrect. Limiting access to only management contradicts the requirement for distribution.

* Option C: Incorrect. The correct review cycle per Requirement 12.1.2 is annually, not quarterly.

* Option D: Correct. Policies and procedures must be understood and acknowledged by all affected parties.

Reference: PCI DSS v4.0.1 - Requirement 12.1.1 and 12.1.2.

NEW QUESTION # 49

Which statement is true regarding the PCI DSS Report on Compliance (ROC)?

- A. The assessor must create their own ROC template for each assessment report.
- B. The ROC Reporting Template provided by PCI SSC is only required for service provider assessments.
- **C. The ROC Reporting Template and instructions provided by PCI SSC should be used for all ROCs.**
- D. The assessor may use either their own template or the ROC Reporting Template provided by PCI SSC.

Answer: C
