

Qualified Microsoft MB-700 Dumps - Best Way To Clear The Exam

Real Microsoft MB-700 Exam Dumps - Quick Way to Pass

The preparation of Microsoft MB-700 exam was never so easy before the introduction of modern Microsoft Dynamics 365: Finance and Operations Apps Solution Architect MB-700 exam preparation material. Before, these Microsoft Dynamics 365 MB-700 certification exam preparation products use to collect notes and numerous books for the same tests. The Microsoft Dynamics 365 MB-700 exam preparation products have entirely changed the scenario by introducing a single package for each test. Therefore, a considerable number of candidates enroll in the Microsoft MB-700 exam every year. The MB-700 exam is also very demanding because it can lead you towards high-paying salaries in the IT market. If you are looking for a Microsoft Dynamics 365: Finance and Operations Apps Solution Architect [MB-700 Exam Dumps](#), despite multiple options available on the platform, it is still challenging to find the right Microsoft Dynamics 365 MB-700 Exam Dumps that lead you towards success. However same you can easily get it from Certstime site easily.

Get Start with Certstime Real MB-700 Exam Questions

The Certstime offers countless qualities in a Microsoft Dynamics 365: Finance and Operations Apps Solution Architect MB-700 exam dumps to ensure your success on the first attempt. It is a rapidly growing institution, for it welcomes anyone all over the world to buy and access the Microsoft Dynamics 365: Finance and Operations Apps Solution Architect MB-700 exam dumps file for instant preparation. The Certstime was found to provide informative data to create boundless opportunities for the people during this difficult span of Covid-19 when there is a greater need for globally accessible and flexible Microsoft Dynamics 365 [MB-700 Exam Questions](#) that meet every person wherever it exists. The Certstime offers Microsoft Dynamics 365: Finance and Operations Apps Solution Architect MB-700 exam questions in the form of PDF dumps file desktop simulation practice software and web-based practice test software. Here is a brief insight into the brand name products and services.

What's more, part of that Itbraindumps MB-700 dumps now are free: https://drive.google.com/open?id=1mwILaSIhYUHL6KVZyufstzoiB_geXtmr

The Microsoft MB-700 practice test by Itbraindumps can be accessed online on different web browsers like Chrome, IE, Firefox, Opera, and Safari without any plugins. You also have the flexibility to open the pdf file of the Microsoft Dynamics 365: Finance and Operations Apps Solution Architect MB-700 Practice Test on mobile devices and tablets. The Microsoft MB-700 pdf dumps version allows you to print the Microsoft MB-700 exam questions easily and access it everywhere.

Microsoft MB-700 Certification Exam is a challenging exam that requires a solid understanding of the Dynamics 365 platform. MB-700 exam consists of 40-60 multiple-choice questions and has a time limit of 150 minutes. MB-700 Exam Questions are designed to test the candidate's knowledge and skills in various areas such as solution design, data management, and security. The passing score for the exam is 700 out of 1000.

2025 Reliable Visual MB-700 Cert Test | Microsoft Dynamics 365: Finance and Operations Apps Solution Architect 100% Free Dump Check

Now you can pass Microsoft MB-700 exam without going through any hassle. You can only focus on MB-700 exam dumps

provided by the Itbraindumps, and you will be able to pass the MB-700 test in the first attempt. We provide high quality and easy to understand MB-700 dumps with verified Microsoft MB-700 for all the professionals who are looking to pass the Microsoft MB-700 exam in the first attempt. The MB-700 training material package includes latest MB-700 questions and practice test software that will help you to pass the MB-700 exam.

Microsoft Dynamics 365: Finance and Operations Apps Solution Architect Sample Questions (Q101-Q106):

NEW QUESTION # 101

A company is implementing Dynamics 365 and Microsoft Power Platform.
You need to export only the modified forms that are part of a solution update.
Which option should you use?

- A. Include no components or metadata
- B. Include entity metadata
- C. Include all components
- **D. Select components**

Answer: D

NEW QUESTION # 102

A company manufactures and distributes sporting goods. The company uses Dynamics 365 Finance and Project Operations.
A user's primary role is managing projects. The user must also have access to trial balances and journal entries.
You need to determine the correct license assignment for this user.
Which two licenses should you assign to the user? Each correct answers presents part of the solution.
NOTE: Each correct selection is worth one point.

- **A. Project Operations attach**
- B. Finance attach
- C. Project Operations base
- **D. Finance base**

Answer: A,D

Explanation:

Base licenses and cost savings opportunities for "attach" licenses

Microsoft provides a cost-effective way for a single Dynamics 365 user to obtain full user licensing for multiple products. Licenses for products that provide core business functionality qualify as base licenses. (See the table below.) Each has one or more additional applications that are frequently used by people in the same roles and that qualify as attach licenses for that user. (These are sometimes referred to as subsequent qualifying applications.) To take advantage of the special attach license pricing:

1. Buy the first base user license at standard pricing.
2. Review which attach licenses are available for that base. (See the qualifying products for each base license below.)
3. Buy attach licenses for the same user at an attach license price. You may buy as many attach licenses as are available for that base license.

NEW QUESTION # 103

A telecom provider uses Microsoft SharePoint to track and manage mobile phones that are issued to employees.
All information about employee-issued mobile phones be visible in Dynamics 365. Managers must be able to issue new phones directly from the system.
You need to design an integration solution using Dynamics 365 and SharePoint.
Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions	Answer area
Create a blank Power Apps and connect to the SharePoint list.	
Embed the Power Apps into the Dynamics 365 Employee form.	
Use the standard formula and filter function of Power Apps.	
Embed the Power Apps into the SharePoint site.	
Create a SharePoint notification workflow.	
Establish the relationship between Dynamics 365, Power Apps, and the SharePoint list.	

Answer:

Explanation:

Actions	Answer area
Create a blank Power Apps and connect to the SharePoint list.	Create a SharePoint notification workflow.
Embed the Power Apps into the Dynamics 365 Employee form.	Embed the Power Apps into the SharePoint site.
Use the standard formula and filter function of Power Apps.	Use the standard formula and filter function of Power Apps.
Embed the Power Apps into the SharePoint site.	
Create a SharePoint notification workflow.	
Establish the relationship between Dynamics 365, Power Apps, and the SharePoint list.	Establish the relationship between Dynamics 365, Power Apps, and the SharePoint list.

Explanation:

Answer area	
1	Create a SharePoint notification workflow.
2	Embed the Power Apps into the SharePoint site.
3	Use the standard formula and filter function of Power Apps.
4	Establish the relationship between Dynamics 365, Power Apps, and the SharePoint list.

NEW QUESTION # 104

A company plans to implement Dynamics 365 Finance + Operations (on-premises).

The company has system compliance requirements that must be addressed. You need to design the solution for the company.

What should you address in the design?

- A. equal employment opportunity
- B. employee retirement
- C. data privacy
- D. fair labor standards

Answer: C

Explanation:

Topic 1, CoHo Vineyard and Winery Case Study

This is a case study. Case studies are not timed separately. You can use as much exam time as you would like to complete each case. However, there may be additional case studies and sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided.

To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that provide more information about the scenario that is described in the case study. Each question is independent of the other questions in this case study.

At the end of this case study, a review screen will appear. This screen allows you to review your answers and to make changes before you move to the next section of the exam. After you begin a new section, you cannot return to this section.

To start the case study

To display the first question in this case study, click the Next button. Use the buttons in the left pane to explore the content of the case study before you answer the questions. Clicking these buttons displays information such as business requirements, existing environment, and problem statements. If the case study has an All Information tab, note that the information displayed is identical to the information displayed on the subsequent tabs. When you are ready to answer a question, click the Question button to return to the question.

Overview

CoHo Vineyard and Winery is based in the United States. The company has a single vineyard. The company distributes full pallets of wine worldwide and sometimes sells wine by using a private label. Grape growing and wine production operations are owned and operated by a third-party company. The company uses bottles, accessories, and other disposables from a company in China. CoHo Vineyard and Winery opens a second location. This location manages inventory for Wine Club members and includes a wine tasting room. The location also includes a warehouse and distribution center.

The wine club currently has 200 members. The company hopes to increase this number.

The company holds events for club members in the tasting room and ships both full cases and individual bottles to members. The tasting room is not treated as a retail store. All sales to club members only and purchases must be made on-account.

Company structure

The following graphic shows the company structure:

Organization

The current organizational chart and roles as follows:

Current environment

Coho Vineyard and Winery currently uses manual processes for most of its operations. The company stores names and phone numbers for club members and prospective club members in a Microsoft Excel workbook.

The sales team currently tracks club membership in a separate system. Sales team stock awards are granted on a three-year basis.

The solution for the sales Team cannot be replaced for three years.

* The types of wine, such as cabernet sauvignon and red blends are tracked as separate items. Each item will have a year associated with it such as Red Blend 2017, 2018, 2019, etc. The items are updated for the year association annually.

* Peak times for order entry could be in the hundreds. This typically happens when first and second shift workers overlap and all

users are on the system, as well as orders imported in.

- * Packaging materials, bottles, and accessories are received in the warehouse FOB Destination from the manufacturer in China.

- * Each retailer has individual item numbers, barcode placement descriptions and other additions such as pictures and details of the wine year and flavor notes.

CoHo Vineyard and Winery has outgrown their legacy ERP system and plans to implement Dynamics 365 Finance. CoHo wants to use out-of-the-box tools which are linked to the system where possible and not create new tools.

Licensing and organization

- * Only the President/CEO, CFO, COO, Controller and VP Operations users must be able to access finance and warehouse features.

- * Warehouse users must only have access to warehouse function. All other users must have access to finance functions.

- * The distribution center must have mobile scanners for the warehouse. The tasting room will not have mobile scanners.

- * The inventory cost must be tracked separately by distribution center or tasting room.

Club membership events

- * You must ensure the members created in their existing system are also customers in Dynamics 365 Finance and that the customers do not exist in both systems under multiple record numbers.

- * When tasting events are planned, text notifications must be sent out to the club members.

- * text notifications must sent out to non-club members to encourage the non-members to join the club.

- * During tasting events, CoHo will need access to place orders during the event but will not have the need for cash registers.

Warehouse and shipping

- * The system must be able to track inventory throughout the whole warehouse process.

- * A Certificate of Origin must accompany each shipment.

- * Private label items that are shipped to retailers must be stored and costed as a single item number at CoHo.

- * The system must be able to compare year-to-year performance of a single wine type.

Implementation

- * Business processes must be documented as step-by-step processes and must align with the process flows in a visual format

- * Data will be migrated and is a requirement for order entry.

- * Data migration must be completed prior to testing.

- * You must track each step of process validation so that the users have ownership for their individual functional areas. The tracking system used should be integrated with the system where possible.

Issues

- * Users are struggling to understand the new system's processes.

- * CoHo is concerned that the go-live will may not go smoothly.

NEW QUESTION # 105

You need to recommend a solution to meet the requirements for the globalization features. Which feature should you recommend?

- A. Preview early access program
- B. Release validation program
- **C. First release program**
- D. Product Roadmap
- E. FastTrack program

Answer: C

Explanation:

Note:

- * The CTO has learned that there are updates to globalization features in Dynamics 365 Finance. The IT staff has been tasked with ensuring that they are the first group to receive these updates.

- * The IT department has decided not to code for globalization issues because they are in an upcoming service update. They are closing in on go-live and need to make sure that the updates are applied in time.

Service updates are continuous, touchless updates that provide new features and functionality. You are in control and manage how your organization receives these updates. For example, you can sign up for the First Release program so that your organization receives updates first. You can apply the updates to any of your environments manually (self-update) or remain on the default release schedule and receive the auto-updates when you schedule them using LCS.

Topic 4, VanArsdel, Ltd.

VanArsdel, Ltd. is a company that uses Microsoft Dynamics AX 2012 R3 in the United States, Canada.

Mexico, and Brazil in an on-premises environment. The company implemented the solution by using Sure Step 2012. VanArsdel, Ltd. plans to upgrade to Dynamics 365 Finance, Dynamics 365 Supply Chain Management and Dynamics 365 Commerce using

Proseware, inc. as the implementation partner.

VanArsdel, Ltd. has implemented 13 other software systems for customer management and sales.

Methodology

VanArsdel, Ltd. deploys a proprietary methodology named VanPMP. The company plans to use VanPMP for all software implementations. The company uses a standard project template for all new implementations.

Solution

Microsoft Power Apps is used by the sales team to enter sales orders. The orders are then integrated with the current Dynamics AX 2012 R3 instance asynchronously once every hour. All sales orders are invoiced through the invoicing batch process at the end of the day. Sales are used for all business-critical scenarios.

The external systems include 12 integrations, such as Microsoft Power Platform, Office 365, Azure, and third-party systems.

One of the automated accounts receivable import integrations, named integration 1, generates revenue in a business-to-business (B2B) scenario that is supported by sales orders. The integration runs every night and is always the first integration to be tested. All regression testing is completed manually.

Security

The company uses Dynamics AX 2012 R3 in all the countries/regions in which they operate.

Because VanArsdel, Ltd. operates within the United States, the company must comply with government financial compliance standards. Government compliance requires that VanArsdel, Ltd. manufacturing divisions must not be able to approve purchase orders. Manufacturing managers must not be able to access data in other manufacturing sites. The manufacturing divisions belong to a single legal entity with multiple sites.

Licensing

The implementation requires the following Dynamics 365 licenses:

- * 120 Supply Chain Management licenses
- * 60 Finance licenses
- * 50 Commerce licenses

Methodology

The implementation must use the VanArsdel, Ltd. proprietary methodology for the Dynamics 365 implementation. The methodology in the project template must use the Microsoft-recommended approach. Progress must be tracked in a central location for VanArsdel, Ltd.

Microsoft and Proseware, Inc. to view.

VanArsdel Ltd. requires a sample methodology in Lifecycle Services (LCS).

The project must coordinate project dates in the methodology with any required Microsoft touchpoints to ensure that the project is on track and implemented according to best practices.

Solution

The sales order entry Power Apps integration must be configured by using out-of-the-box Solutions-Integrations. The company has the following integration requirements:

- * Four integrations must run asynchronously.
- * Eight integrations must run synchronously.
- * The integrations must be able to run after applying updates to the system.

All items must have their own item pricing. Each item must have an MSRP and a selling price that is determined based on the date and location.

Testing

The user reporting test case needs to be reviewed by using the same process in the test environment.

The Regression suite automation tool (RSAT) must be used to automate every critical scenario. All other testing must be performed manually.

Integration 1 must be deployed first. All data must be created and tested in the correct sequence to ensure that pricing is applied correctly to the item.

Security

Dynamics 365 must be rolled out incrementally by country/region. The implementation must go live in the United States first and then continue to the other countries/regions over the next 12 months.

VanArsdel, Ltd. must assign access to new users based on the site of the users.

VanArsdel, Ltd. requires that Proseware, Inc. perform the following:

- * Objective 1. Determine the software licensing costs for the system based on the contracted costs determined during the start of the project.
- * Objective 2. Audit the security roles for users in the manufacturing division.

Some users report that too many fields are displayed when the users create records in the Dynamics 365 AX 2012 R3 instance. These fields often prevent users from being productive.

Statement of work concerns

Before the project kickoff, several of the VanArsdel, Ltd. IT team members had concerns after reviewing the statement of work.

The primary concerns were raised by the following team members

- * An administrator named Admin1 reports a performance impact on multiple large integrations with the Dynamics 365 AX 2012 R3 implementation.

* An administrator named Admin2 reports a concern with environment management with the global rollout. All concerns must be reviewed and scheduled with all solution architects in workshops.

Testing

The Dynamics 365 AX 2012 R3 instance experiences frequent issues due to users running reports for an extended period of time on the same Application Object Server (AOS) service. A user named User1 reports a delay retrieving the same report in Dynamics 365.

NEW QUESTION # 106

.....

Our excellent MB-700 study materials beckon exam candidates around the world with their attractive characters. Our experts made significant contribution to their excellence. So we can say bluntly that our MB-700 actual exam is the best. Our effort in building the content of our MB-700 Practice Questions lead to the development of practice materials and strengthen their perfection. So our MB-700 training prep is definitely making your review more durable.
