

Questions for the Fortinet FCSS_SDW_AR-7.4 Exam - 100% Refund Policy

BTW, DOWNLOAD part of Prep4pass FCSS_SDW_AR-7.4 dumps from Cloud Storage: https://drive.google.com/open?id=1CxW-My0dOw7KhdlDCG3hs6qoqfIVQ9_D

A free demo of FCSS_SDW_AR-7.4 practice test questions and up to 1 year of free updates are also available at Prep4pass. So, this is the time to download valid Fortinet FCSS_SDW_AR-7.4 exam questions and start studying. There is no room for delays in FCSS - SD-WAN 7.4 Architect (FCSS_SDW_AR-7.4) preparation exams or second thoughts when you know that you have to survive the competition and safeguard your job.

Fortinet FCSS_SDW_AR-7.4 Exam Syllabus Topics:

Topic	Details
Topic 1	Rules and Routing: Targeted at network engineers, this section assesses the ability to configure SD-WAN rules and routing policies. Candidates will be tested on managing traffic flow and prioritization across the SD-WAN infrastructure.
Topic 2	Advanced IPsec: Intended for security engineers, this section covers the deployment of advanced IPsec topologies for SD-WAN, including hub-and-spoke models, ADVPN configurations, and complex multi-hub or multi-region deployments. Candidates need to demonstrate expertise in securing wide-area networks using IPsec technologies.
Topic 3	Configure Performances SLAs: Designed for network administrators, this part focuses on setting up performance Service Level Agreements (SLAs) within SD-WAN environments. Candidates must show proficiency in defining criteria to monitor and maintain network performance and reliability.
Topic 4	SD-WAN Configuration: This section of the exam measures the skills of network engineers and covers configuring a basic SD-WAN setup. Candidates are expected to demonstrate their ability to define SD-WAN members and zones effectively, ensuring foundational network segmentation and management.

Valid FCSS_SDW_AR-7.4 Learning Materials - FCSS_SDW_AR-7.4 Real Brindumps

In order to provide you with the best Fortinet certification exam dumps forever, Prep4pass constantly improve the quality of

FCSS_SDW_AR-7.4 exam dumps and update the dumps on the basis of the latest test syllabus at any time. Prep4pass is your best choice on the market today and is recognized by all candidates for a long time. If you don't believe what I say, you can know the information by asking around. Somebody must have been using Prep4pass dumps. We assure Prep4pass provide you with the latest and the best questions and answers which will let you pass the FCSS_SDW_AR-7.4 Exam at the first attempt.

Fortinet FCSS - SD-WAN 7.4 Architect Sample Questions (Q10-Q15):

NEW QUESTION # 10

Refer to the exhibit.

An administrator checks the status of an SD-WAN topology using the FortiManager SD-WAN monitor menus. All members are configured with one or two SLAs.

Which two conclusions can you draw from the output shown? (Choose two.)

- A. branch2_fgt establishes six tunnels to the hubs and they are all up.
- B. One member of branch2_fgt is missing the SLAs.
- C. This SD-WAN topology contains only two branch devices.
- D. The template view should be used to see the hub devices.

Answer: B,C

NEW QUESTION # 11

Refer to the exhibits.

Ping result

```
root@branch1-client-01# ping facebook.com
PING facebook.com (157.140.19.35) 56(84) bytes of data:
64 bytes from edge-star-mini-shv-01-dfw5.facebook.com (157.240.19.35): icmp_seq=1 ttl=56 time=33.4 ms
64 bytes from edge-star-mini-shv-01-dfw5.facebook.com (157.240.19.35): icmp_seq=2 ttl=56 time=32.5 ms
64 bytes from edge-star-mini-shv-01-dfw5.facebook.com (157.240.19.35): icmp_seq=3 ttl=56 time=32.5 ms
64 bytes from edge-star-mini-shv-01-dfw5.facebook.com (157.240.19.35): icmp_seq=4 ttl=56 time=32.6 ms
```

Diagnose output

```
branch1_fgt # diagnose firewall proute list

```

You connect to a device behind a branch FortiGate device and initiate a ping test. The device is part of the LAN subnet and its IP address is 10.0.1.101.

Based on the exhibits, which interface uses branch1_fgt to steer the test traffic?

- A. port4
- B. HUB1-VPN1
- **C. port1**
- D. port2

Answer: C

NEW QUESTION # 12

Which three factors about SLA targets and SD-WAN rules should you consider when configuring SD-WAN rules? (Choose three.)

- A. SLA targets are used only by SD-WAN rules that are configured with a Lowest Cost (SLA) strategy.
- B. When configuring an SD-WAN rule, you can select multiple SLA targets if they are from the same performance SLA.
- C. Member metrics are measured only if a rule uses the SLA target.
- D. SD-WAN rules can use SLA targets to check whether the preferred members meet the SLA requirements.
- E. When configuring an SD-WAN rule, you can select multiple SLA targets from different performance SLAs.

Answer: A,D,E

Explanation:

The use of SLA targets is specific to certain SD-WAN strategies. The "Lowest Cost (SLA)" and "Maximize Bandwidth (SLA)" strategies are explicitly designed to use the configured SLA targets to make routing decisions. The "Best Quality" strategy uses performance metrics but does not necessarily require or reference SLA targets in the same way, while "Manual" does not use metrics at all for path selection.

This is a core function of SD-WAN rules with SLA targets. The purpose of configuring an SLA target with specific thresholds for latency, jitter, and packet loss is to define what is considered "acceptable" performance for an application. SD-WAN rules then use these targets to check if the members (interfaces) meet these requirements before a flow is steered over them, ensuring that a preferred path still offers a good user experience.

FortiGate allows for a single SD-WAN rule to reference multiple, different performance SLAs. This is crucial for complex deployments where a single SD-WAN rule needs to handle traffic for multiple applications that have distinct performance requirements. For example, a single rule might direct VoIP traffic based on one performance SLA with strict latency/jitter targets, while simultaneously handling general web traffic using another performance SLA with more lenient requirements.

NEW QUESTION # 13

Exhibit.

Serial Number	name	branch_id	admin_ip	sdwan_port1_gw	sdwan_port2_gw	lan_interface_ip	latitude	longitude
FGVM01TM22000077	branch1_fgt	1	172.16.0.2	192.0.2.1	192.0.2.10	10.0.1.254	37.37610911	-122.0260914

FGT40FTK20000624	shop1_fgt	11		198.0.1.1		10.10.1.254		
FGT40FTK20003026	shop2_fgt	12				10.10.2.254	48.88941	2.25125
FGVM02TM24010735		3	172.16.0.10	100.64.33.2	100.64.33.10	10.0.3.254	45.32482	-75.8359

For your ZTP deployment, you review the CSV file shown in exhibit and note that it is missing important information. Which two elements must you change before you can import it into FortiManager? (Choose two.)

- A. You must define a value for each device and each metadata variable that defines an IP address.
- B. You must define a value for each device and each user-defined metadata variable.
- C. You must define a name for each device
- D. You must associate a device blueprint with each device

Answer: C,D

NEW QUESTION # 14

When a customer delegate the installation and management of its SD-WAN infrastructure to an MSSP, the MSSP usually keeps the hub within its infrastructure for ease of management and to share costly resources.

In which two situations will the MSSP install the hub in customer premises? (Choose two.)

- A. The customer expects a large amount of VoIP traffic.
- B. The customer requires SIA with centralized breakout.
- C. The administrator expects a large volume of traffic between the branches.
- D. The majority of the branch traffic is directed to a corporate data center.

Answer: C,D

NEW QUESTION # 15

.....

Professional ability is very important both for the students and for the in-service staff because it proves their practical ability in the area. Therefore choosing a certificate exam which boosts great values to attend is extremely important for them and the test FCSS_SDW_AR-7.4 certification is one of them. Passing the test certification can prove your outstanding major ability in some area and if you want to pass the FCSS_SDW_AR-7.4 test smoothly you'd better buy our FCSS_SDW_AR-7.4 test guide. And our FCSS_SDW_AR-7.4 exam questions boost the practice test software to test the clients' ability to answer the questions.
