

Quiz 2025 FCSS_SDW_AR-7.4: FCSS - SD-WAN 7.4 Architect Useful Online Training Materials

BTW, DOWNLOAD part of TestPDF FCSS_SDW_AR-7.4 dumps from Cloud Storage: <https://drive.google.com/open?id=178goDk4mbIVRxhoEWW66UjcoovBz-aBw>

TestPDF is the website that has been known to learn IT technology. TestPDF gets high praise from our customers in real test questions and answers. It is the real website that can help you to pass Fortinet FCSS_SDW_AR-7.4 certificate. Why is TestPDF very popular? Because TestPDF has a group of IT elite which is committed to provide you with the best test questions and test answers. Therefore, TestPDF will provide you with more and better certification training materials to satisfy your need.

Fortinet FCSS_SDW_AR-7.4 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Rules and Routing: Targeted at network engineers, this section assesses the ability to configure SD-WAN rules and routing policies. Candidates will be tested on managing traffic flow and prioritization across the SD-WAN infrastructure.
Topic 2	<ul style="list-style-type: none">Configure Performances SLAs: Designed for network administrators, this part focuses on setting up performance Service Level Agreements (SLAs) within SD-WAN environments. Candidates must show proficiency in defining criteria to monitor and maintain network performance and reliability.
Topic 3	<ul style="list-style-type: none">SD-WAN Troubleshooting: This part assesses the troubleshooting skills of network support specialists. Candidates should be able to diagnose and resolve issues related to SD-WAN rules, session behaviors, routing inconsistencies, and ADVPN connectivity problems to maintain seamless network operations.

FCSS_SDW_AR-7.4 Reliable Test Pdf, FCSS_SDW_AR-7.4 Study Plan

This updated FCSS_SDW_AR-7.4 exam study material consists of FCSS_SDW_AR-7.4 PDF dumps, desktop practice exam software, and a web-based practice test. Experts have prepared the FCSS_SDW_AR-7.4 desktop-based exam simulation software. There are FCSS_SDW_AR-7.4 Actual Questions in the practice test to give you an exact impression of the Fortinet FCSS_SDW_AR-7.4 original test.

Fortinet FCSS - SD-WAN 7.4 Architect Sample Questions (Q24-Q29):

NEW QUESTION # 24

Refer to the exhibits.

IPsec template for Branch_IPsec_1

Name	Type	Outgoing Interface
HUB1-VPN1	Static	\$(ISP1)

IPsec template for Branch_IPsec_2

Name	Type	Outgoing Interface
HUB1-VPN2	Static	\$(ISP2)

Error message in FortiManager

The exhibits show two IPsec templates to define Branch IPsec 1 and Branch_IPsec_2. Each template defines a VPN tunnel. The error message that FortiManager displayed when the administrator tried to assign the second template to the FortiGate device is also shown.

Which statement best describes the cause of the issue?

- A. You can assign only one IPsec template to each FortiGate device.
- B. You should use the same outgoing interface of both templates.
- C. You can assign only one template with a tunnel type of static to each FortiGate device.
- D. You should review the branch1_fgt configuration for configured tunnels in the rootVDM.

Answer: A

Explanation:

The FortiManager SD-WAN overlay system allows only one IPsec template to be assigned to each device per overlay operation.

The guide clarifies:

"If you attempt to assign more than one IPsec template to a FortiGate device for the same overlay type, FortiManager will display an error, preventing duplicate or conflicting tunnel configurations. This limitation ensures a one-to-one mapping between device and overlay template per operation, maintaining configuration integrity and preventing routing issues." This prevents complex troubleshooting scenarios and enforces best practices for overlay design.

NEW QUESTION # 25

Refer to the exhibits. The exhibits show the configuration for SD-WAN performance. SD-WAN rule, the application IDs of Facebook and YouTube along with the firewall policy configuration and the underlay zone status. Which two statements are true about the health and performance of SD-WAN members 3 and 4? (Choose two.)

Configuration for SD-WAN performance SLA, SD-WAN rule configuration, and application IDs of Facebook and YouTube.

```
config system sdwan
    configure health-check
        edit "Passive"
            set detect-mode passive
            set members 3 4
        next
    end
end

config system sdwan
    config service
        edit 1
            set name "Facebook-Youtube"
            set src "all"
            set internet-service enable
            set internet-service-app-ctrl 15832 31077
            set health-check "Passive"
            set priority-member 3 4
            set passive-measurement enable
        next
    end
end

branch_fgt # get application name status | grep "id:15832" -B1
app-name: "Facebook"
id: 15832

branch_fgt # get application name status | grep "id: 31077" -B1
app-name: "Youtube"
id: 31077
```

Underlay zone status

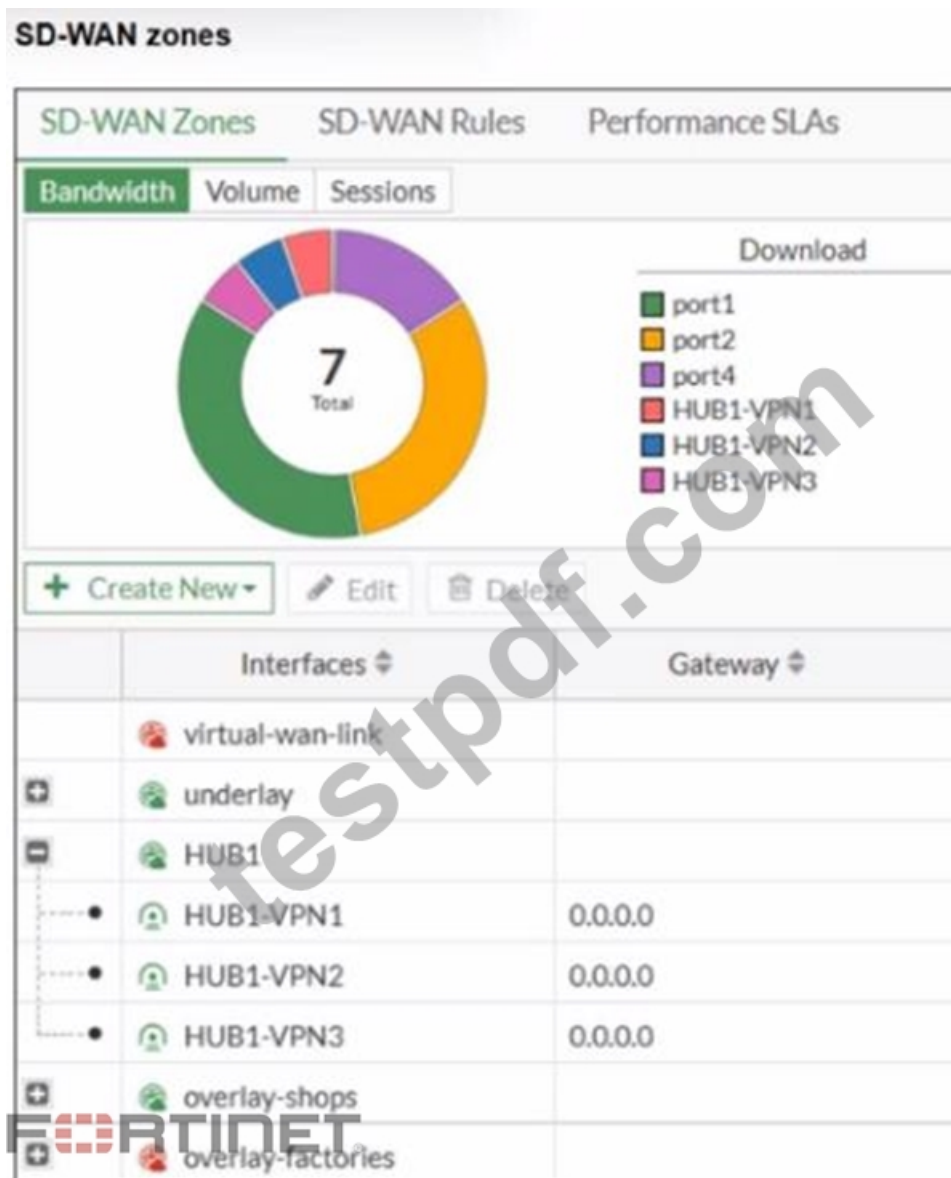

```
branch1_fgt # diagnose sys sdwan zone | grep underlay -A1
Zone underlay index 0
members(2): 3(port1) 4(port2)
```

- A. Encrypted traffic is not used for the performance measurement.
- B. Only related TCP traffic is used for performance measurement.
- C. FortiGate identifies the member as dead when there is no Facebook and YouTube traffic passing through the member.
- D. The performance is an average of the metrics measured for Facebook and YouTube traffic passing through the member.

Answer: B,D

NEW QUESTION # 26

Exhibit.

Refer to the exhibit, which shows an SD-WAN zone configuration on the FortiGate GUI. What can you conclude about the zone and member configuration on this device?

- A. You can delete the virtual-wan-link zones.
- **B. The overlay-factories zone contains no member.**
- C. The underlay zone contains three members.
- D. You can move HUB1-VPN3 from the HUB1 zone to the overlay-shops zone.

Answer: B

NEW QUESTION # 27

What are three key routing principles of SD-WAN? (Choose three.)

- **A. Policy routes have precedence over SD-WAN rules.**
- B. SD-WAN rules are skipped if the best route to the destination is a static route
- C. Directly connected routes have precedence over SD-WAN rules.
- **D. SD-WAN members are skipped if they do not have a valid route to the destination.**
- **E. SD-WAN rules are skipped if the best route to the destination is not an SD-WAN member.**

Answer: A,D,E

Explanation:

SD-WAN members without a valid route to the destination are skipped during path selection.

If the best route is not via an SD-WAN member, SD-WAN rules are skipped.

Policy routes take precedence over SD-WAN rules in the routing decision process.

NEW QUESTION # 28

Refer to the exhibit.

```
ike V=root:0:VPN1_0:9: received informational request
ike V=root:0:VPN1_0:9: processing notify type SHORTCUT_QUERY
ike V=root:0:VPN1_0:9: recv shortcut-query 5752810260829471092 6d5cdb5ceab1874d
/0000000000000000 192.2.0.1 10.0.1.101:2048->10.0.3.101:0 0 psk 64 ppk 0 ttl
32 nat 0 ver 2 mode 0 network-id 1
ike V=root:0:VPN1: iif 20 10.0.1.101->10.0.3.101 0 route lookup oif 20 VPN1
gwy 192.168.1.4
ike V=root:0: shared dev tunnel lookup, tun-id=192.168.1.4
ike V=root:0:VPN1_3: forward shortcut-query 5752810260829471092 6d5cdb5ceab18
74d/0000000000000000 192.2.0.1 10.0.1.101->10.0.3.101 0 psk 64 ppk 0 ttl 31
ver 2 mode 0, ext-mapping 192.2.0.1:0, network-id 1
```

Which statement best describe the role of the ADVPN device in handling traffic?

- A. This is a hub in a dual-region topology. The remote hub tunnel ID is 10.0.2.101.
- **B. This is a spoke that has received a shortcut query from another spoke and has forwarded the response to its hub.**
- C. This is a hub that has received a query from a spoke and has forwarded it to another spoke.
- D. This is a spoke. The kernel received a shortcut request and forwards the query to another spoke.

Answer: B

Explanation:

Within ADVPN topologies, shortcut requests and responses traverse spokes and hubs. Fortinet documentation states:

"When a spoke receives a shortcut query from another spoke, it may forward the response to its hub for validation or to facilitate dynamic shortcut tunnel setup. This mechanism allows direct spoke-to-spoke communication for optimized routing and performance, reducing latency and offloading the hub after initial control-plane mediation." This is a core benefit of ADVPN's dynamic shortcut feature.

NEW QUESTION # 29

.....

In order to ensure the quality of our FCSS_SDW_AR-7.4 actual exam, we have made a lot of efforts. Our company spent a great deal of money on hiring hundreds of experts and they formed a team to write the work. The qualifications of these experts are very high. They have rich knowledge and rich experience on the FCSS_SDW_AR-7.4 Study Guide. So they know every detail about the FCSS_SDW_AR-7.4 exam questions and can make it better. With our FCSS_SDW_AR-7.4 learning guide, you will be bound to pass the exam.
