

Quiz 2025 HP HPE0-S59–Trustable Cost Effective Dumps

P.S. Free & New HPE0-S59 dumps are available on Google Drive shared by Lead2Passed: https://drive.google.com/open?id=16Bg3Qk0SuvBXiQANsQishniA_f86RPLO

Lead2Passed HPE0-S59 practice material can be accessed instantly after purchase, so you won't have to face any excessive issues for preparation of your desired HP HPE0-S59 certification exam. The HP HPE0-S59 Exam Dumps of Lead2Passed has been made after seeking advice from many professionals. Our objective is to provide you with the best learning material to clear the HPE0-S59 exam.

HPE0-S59 exam is an essential certification for IT professionals who work with HPE compute solutions. By passing HPE0-S59 exam, candidates can demonstrate their expertise in the field and enhance their career prospects. HPE0-S59 Exam covers various aspects of HPE compute solutions, and candidates who pass HPE0-S59 exam will be able to design and implement HPE compute solutions that meet the requirements of their organizations.

Pass Guaranteed 2025 HPE0-S59: HPE Compute Solutions Useful Cost Effective Dumps

As the saying goes, to sensible men, every day is a day of reckoning. Time is very important to people. People often complain that they are wasting their time on study and work. They do not have time to look at the outside world. Now, HPE0-S59 exam guide gives you this opportunity. HPE0-S59 test prep helps you save time by improving your learning efficiency. They can provide remote online help whenever you need. And after-sales service staff will help you to solve all the questions arising after you purchase HPE0-S59 learning question, any time you have any questions you can send an e-mail to consult them. All the help provided by HPE0-S59 test prep is free. It is our happiest thing to solve the problem for you. Please feel free to contact us if you have any problems.

Upon completing the HP HPE0-S59 Exam, candidates can expect to have a deep understanding of HPE compute solutions, HPE ProLiant and BladeSystem server architectures, HPE storage solutions, and HPE OneView management software. Certification in HPE compute solutions makes candidates highly valuable to organizations looking to implement HPE devices and systems. HP certification improves the chances of getting hired and enhances the growth prospects of individuals in the IT industry.

HPE Compute Solutions Sample Questions (Q78-Q83):

NEW QUESTION # 78

You configured a virtual machine cluster using the HPE Storage Integration Pack for VMware vCenter.

Click the option in the SSMC main menu that you can use to verify whether a virtual storage operation is properly created on HPE Primera or 3PAR.

Primera & 3PAR SSMC								
GENERAL	BLOCK PERSONA	STORAGE OPTIMIZATION	DATA PROTECTION	STORAGE SYSTEMS	FEDERATION & MIGRATION	SYSTEM REPORTER	SECURITY	VMWARE
Dashboard	Hosts	Adaptive Flash Cache	Remote Copy Configurations	Systems	Federation & Migration Configuration	Reports	Users	Storage Containers
Activity	Host Sets	Priority Optimization	Remote Copy Groups	Controller Nodes	Peer Motions	Threshold Alerts	LDAP	Virtual Machines
Schedules	Virtual Volumes		RMC Instances	Ports		Advanced Analytics	Roles	
Settings	App Volume Sets		Restore Points	Drive Enclosures			Connections	
	Virtual Volume Sets			Physical Drives			Domains	
	Common Provisioning Groups							
	Policies							

Answer:

Explanation:

Primera & 3PAR SSMC								
GENERAL	BLOCK PERSONA	STORAGE OPTIMIZATION	DATA PROTECTION	STORAGE SYSTEMS	FEDERATION & MIGRATION	SYSTEM REPORTER	SECURITY	VMWARE
Dashboard	Hosts	Adaptive Flash Cache	Remote Copy Configurations	Systems	Federation & Migration Configuration	Reports	Users	Storage Containers
Activity	Host Sets	Priority Optimization	Remote Copy Groups	Controller Nodes	Peer Motions	Threshold Alerts	LDAP	Virtual Machines
Schedules	Virtual Volumes		RMC Instances	Ports		Advanced Analytics	Roles	
Settings	App Volume Sets		Restore Points	Drive Enclosures			Connections	
	Virtual Volume Sets			Physical Drives			Domains	
	Common Provisioning Groups							
	Policies							

Explanation:

To verify whether a virtual storage operation is properly created on HPE Primera or 3PAR using the HPE Storage Integration Pack for VMware vCenter, you would click on the "Virtualization" option in the SSMC (StoreServ Management Console) main menu. This option allows you to manage and monitor storage operations related to virtual environments, including VMware integration.

NEW QUESTION # 79

Your customer uses HPE OneView to manage their HPE Synergy environment. They plan to use it to manage a new set equipment that includes.

- 20 HPE ProLiant DL365 Gen10 Plus servers
- 20 HPE ProLiant DL380 Gen10 Plus servers
- 5 HPE Primera 650
- 5 HPE MSA 2062 Storage Array

Which statements about how OneView will work with this new equipment are true? (Select two)

- A. HPE OneView replaces array management tools for both types of array
- B. HPE MSA 2062 Storage Array is not supported in HPE OneView
- C. HPE ProLiant DL380 Gen10 Plus servers have an HPE OneView license included
- D. HPE Primera 650 can be managed using HPE OneView.
- E. HPE ProLiant DL365 Gen10 Plus servers are not supported in HPE OneView

Answer: B,D

Explanation:

* HPE MSA 2062 Storage Array is not supported in HPE OneView: HPE OneView does not provide management capabilities for the HPE MSA series, which includes the MSA 2062. These arrays must be managed using their dedicated management tools.

* HPE Primera 650 can be managed using HPE OneView: HPE OneView supports the management of HPE Primera storage arrays, including the Primera 650, allowing for integrated management and monitoring within the OneView environment.

NEW QUESTION # 80

Refer to the exhibit.

Create Logical Interconnect Group

General

?

General

Name

LIG-ETH

Logical Interconnect Group

Using the selectors below, describe the logical interconnect group to be created and then click "Select interconnects" to see the bay and interconnect choices.

Interconnect type

Virtual Connect SE 100Gb F32 Module for Synergy

Enclosure count

3

Interconnect bay set

3

Redundancy

Redundant

Downlink speed

25 Gb/s

Select interconnects

2

Changed: Name to "LIG-ETH"

Create

Create +

Cancel

Which statement about this logical interconnect group is true?

- A. To use interconnect bay set 3, all compute nodes must be half-height
- B. Both master modules are located in the same HPE Synergy frame
- C. For the given downlink speed, the maximum number of frames is reached
- D. The master modules are located in the interconnect bays 2 and 5

Answer: A

Explanation:

In HPE Synergy configurations, when using interconnect bay set 3, it implies that the compute nodes should be half-height. This is because bay set 3 is typically utilized in configurations where half-height compute nodes are used to ensure proper alignment and connectivity within the Synergy frame.

NEW QUESTION # 81

Put the steps of the HPE infosight flow in the correct order.

Answer:

Explanation:

Explanation:

(observing, learning, predicting, recommending, acting)

* **Observing:**The first step involves collecting and monitoring data from the infrastructure. HPE InfoSight continuously gathers telemetry data from various components, including storage, compute, and networking devices.

* **Learning:**In this step, the collected data is analyzed to identify patterns and trends. Machine learning algorithms process the data to understand the normal behavior of the system and detect anomalies.

* **Predicting:**Based on the learned patterns, HPE InfoSight can predict potential issues before they occur. This predictive analysis helps in identifying areas that might cause problems in the future.

* **Recommending:**After predicting potential issues, HPE InfoSight provides actionable recommendations to prevent or resolve these issues. These recommendations are based on best practices and the vast amount of data analyzed by InfoSight.

* **Acting:**Finally, the recommendations are implemented to optimize the performance and reliability of the infrastructure. This step may involve configuring settings, applying updates, or other actions to maintain the health of the system.

NEW QUESTION # 82

Your customer wants to add a second HPE Synergy frame to an existing logical enclosure Based on a single HPE Synergy frame. The customer wants to use a highly available master setup.

Which procedures should be performed during the expansion process? (Select two.)

- A. Move one of the master modules to the appropriate interconnect bay in the second frame.
- **B. Create a new logical enclosure based on both HPE Synergy frames.**
- C. Create a new logical interconnect group and enclosure group for two frames setup
- D. Re-parent an existing enclosure group to the new logical interconnect group.
- **E. Modify an existing logical interconnect to include second HPE Synergy frame.**

Answer: B,E

NEW QUESTION # 83
