## Expert Sample Questions (Q38-Q43):

### NEW QUESTION # 38

A company uses separate finished good item numbers for size variations of the same product.

The company wants to minimize the number of variously-sized items that are created.

You need to perform the setup to allow variants in size to the product master.

Which five actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

- Assign sizes to the individual items.
- Assign a tracking dimension group for size to the item.
- Create a product master.
- Create sizes under the dimension and variant groups setup menu.
- Create a product dimension group for size under the dimension and variant groups setup menu.
- Add product dimensions to the product master.
- Generate product variants.

Answer Area

**Answer:**

**Explanation:**

Actions

- Assign sizes to the individual items.
- Assign a tracking dimension group for size to the item.
- Create a product master.
- Create sizes under the dimension and variant groups setup menu.
- Create a product dimension group for size under the dimension and variant groups setup menu.
- Add product dimensions to the product master.
- Generate product variants.

Answer Area

- Create a product master.
- Create sizes under the dimension and variant groups setup menu.
- Create a product dimension group for size under the dimension and variant groups setup menu.
- Add product dimensions to the product master.
- Generate product variants.

### NEW QUESTION # 39

A company uses separate finished good item numbers for size variations of the same product.

The company wants to minimize the number of variously-sized items that are created.

You need to perform the setup to allow variants in size to the product master.

Which five actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

- Assign sizes to the individual items.
- Assign a tracking dimension group for size to the item.
- Create a product master.
- Create sizes under the dimension and variant groups setup menu.
- Create a product dimension group for size under the dimension and variant groups setup menu.
- Add product dimensions to the product master.
- Generate product variants.

Answer Area

**Answer:**

Explanation:

**Actions**

- Assign sizes to the individual items.
- Assign a tracking dimension group for size to the item.
- Create a product master.
- Create sizes under the dimension and variant groups setup menu.
- Create a product dimension group for size under the dimension and variant groups setup menu.
- Add product dimensions to the product master.
- Generate product variants.

**Answer Area**

- Create a product master.
- Create sizes under the dimension and variant groups setup menu.
- Create a product dimension group for size under the dimension and variant groups setup menu.
- Add product dimensions to the product master.
- Generate product variants.

Explanation:

**Actions**

- Assign sizes to the individual items.
- Assign a tracking dimension group for size to the item.

**Answer Area**

- Create a product master.
- Create sizes under the dimension and variant groups setup menu.
- Create a product dimension group for size under the dimension and variant groups setup menu.
- Add product dimensions to the product master.
- Generate product variants.

#### NEW QUESTION # 40

You need to resolve the issue for UserF.

What should you configure? To answer, select the appropriate options in the answer area.

**Answer Area**

Requirement	Configuration
