

Quiz 2025 Microsoft DP-700: Implementing Data Engineering Solutions Using Microsoft Fabric

Unparalleled Reliable Test Simulator

BTW, DOWNLOAD part of Braindumpsqa DP-700 dumps from Cloud Storage: <https://drive.google.com/open?id=1IunsKoMOeXBV4rXCcU6pNjYZZYw69tW6>

If you fail, don't forget to learn your lesson. If you still prepare for your test yourself and fail again and again, it is time for you to choose a valid DP-700 study guide; this will be your best method for clearing exam and obtain a certification. Good DP-700 study guide will be a shortcut for you to well-directed prepare and practice efficiently, you will avoid do much useless efforts and do something interesting. Braindumpsqa releases 100% pass-rate DP-700 Study Guide files which guarantee candidates 100% pass exam in the first attempt.

Our DP-700 test questions are compiled by domestic first-rate experts and senior lecturer and the contents of them contain all the important information about the test and all the possible answers of the questions which maybe appear in the test. You can use the practice test software to check your learning outcomes. Our DP-700 test practice guide' self-learning and self-evaluation functions, the statistics report function, the timing function and the function of stimulating the test could assist you to find your weak links, check your level, adjust the speed and have a warming up for the real exam. You will feel your choice to buy DP-700 Exam Dump is too right.

>> DP-700 Reliable Test Simulator <<

New Microsoft DP-700 Test Question & DP-700 Test Discount Voucher

As for the points you may elapse or being frequently tested in the real exam, we give referent information, then involved them into our DP-700 actual exam. Our experts expertise about DP-700 training materials is unquestionable considering their long-time research and compile. I believe that no one can know the DP-700 Exam Questions better than them. And they always keep a close eye on the changes of the content and displays of the DP-700 study guide.

Microsoft DP-700 Exam Syllabus Topics:

Topic	Details
Topic 1	Monitor and optimize an analytics solution: This section of the exam measures the skills of Data Analysts in monitoring various components of analytics solutions in Microsoft Fabric. It focuses on tracking data ingestion, transformation processes, and semantic model refreshes while configuring alerts for error resolution. One skill to be measured is identifying performance bottlenecks in analytics workflows.
Topic 2	Ingest and transform data: This section of the exam measures the skills of Data Engineers that cover designing and implementing data loading patterns. It emphasizes preparing data for loading into dimensional models, handling batch and streaming data ingestion, and transforming data using various methods. A skill to be measured is applying appropriate transformation techniques to ensure data quality.
Topic 3	Implement and manage an analytics solution: This section of the exam measures the skills of Microsoft Data Analysts regarding configuring various workspace settings in Microsoft Fabric. It focuses on setting up Microsoft Fabric workspaces, including Spark and domain workspace configurations, as well as implementing lifecycle management and version control. One skill to be measured is creating deployment pipelines for analytics solutions.

Microsoft Implementing Data Engineering Solutions Using Microsoft Fabric Sample Questions (Q39-Q44):

NEW QUESTION # 39

You have a Fabric workspace named Workspace1 that contains a notebook named Notebook1.

In Workspace1, you create a new notebook named Notebook2.

You need to ensure that you can attach Notebook2 to the same Apache Spark session as Notebook1.

What should you do?

- A. Enable dynamic allocation for the Spark pool.
- B. Change the runtime version.
- C. Enable high concurrency for notebooks.
- D. Increase the number of executors.

Answer: C

Explanation:

To ensure that Notebook2 can attach to the same Apache Spark session as Notebook1, you need to enable high concurrency for notebooks. High concurrency allows multiple notebooks to share a Spark session, enabling them to run within the same Spark context and thus share resources like cached data, session state, and compute capabilities. This is particularly useful when you need notebooks to run in sequence or together while leveraging shared resources.

NEW QUESTION # 40

You have a Fabric workspace that contains a lakehouse and a notebook named Notebook1. Notebook1 reads data into a DataFrame from a table named Table1 and applies transformation logic. The data from the DataFrame is then written to a new Delta table named Table2 by using a merge operation.

You need to consolidate the underlying Parquet files in Table1.

Which command should you run?

- A. VACUUM
- B. BROADCAST
- C. CACHE
- D. OPTIMIZE

Answer: D

Explanation:

To consolidate the underlying Parquet files in Table1 and improve query performance by optimizing the data layout, you should use the OPTIMIZE command in Delta Lake. The OPTIMIZE command coalesces smaller files into larger ones and reorganizes the data for more efficient reads. This is particularly useful when working with large datasets in Delta tables, as it helps reduce the number of

files and improves performance for subsequent queries or operations like MERGE.

NEW QUESTION # 41

You have an Azure Event Hubs data source that contains weather data.

You ingest the data from the data source by using an eventstream named Eventstream1. Eventstream1 uses a lakehouse as the destination.

You need to batch ingest only rows from the data source where the City attribute has a value of Kansas. The filter must be added before the destination. The solution must minimize development effort.

What should you use for the data processor and filtering? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Data processor:

- A data pipeline
- A Dataflow Gen2 dataflow
- An eventstream with a custom endpoint
- An eventstream with an external data source

Filtering:

- A Filter activity in a data pipeline
- A filter in a Dataflow Gen2 dataflow
- A KQL statement
- An eventstream processor

Answer:

Explanation:

Answer Area

Data processor:

- A data pipeline
- A Dataflow Gen2 dataflow
- An eventstream with a custom endpoint
- An eventstream with an external data source

Filtering:

- A Filter activity in a data pipeline
- A filter in a Dataflow Gen2 dataflow
- A KQL statement
- An eventstream processor

NEW QUESTION # 42

HOTSPOT

You have a Fabric workspace that contains an eventstream named EventStream1.

You discover that an EventStream1 transformation fails.

You need to find the following error information:

The error details, including the occurrence time

The total number of errors

What should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

To find the error details:

Data insights
Data preview
Details
Runtime logs

To find the total number of errors:

Data insights
Data preview
Details
Runtime logs

Answer:

Explanation:

Answer Area

To find the error details:

Data insights
Data preview
Details
Runtime logs

To find the total number of errors:

Data insights
Data preview
Details
Runtime logs

Explanation:

Answer Area

To find the error details:

Data insights
Data preview
Details
Runtime logs

To find the total number of errors:

Data insights
Data preview
Details
Runtime logs

NEW QUESTION # 43

You have two Fabric notebooks named Load_Salesperson and Load_Orders that read data from Parquet files in a lakehouse. Load_Salesperson writes to a Delta table named dim_salesperson. Load_Orders writes to a Delta table named fact_orders and is dependent on the successful execution of Load_Salesperson. You need to implement a pattern to dynamically execute Load_Salesperson and Load_Orders in the appropriate order by using a notebook.

How should you complete the code? To answer, drag the appropriate values to the correct targets. Each value may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Values

activities

broadcast

dependencies

execute

notebooks

runMultiple

Answer Area

```
name : Load_Salesperson ;
"path": "Load_Salesperson",
"timeoutPerCellInSeconds": 300,
},
{
  "name": "Load_Orders",
  "path": "Load_Orders",
  "timeoutPerCellInSeconds": 600,
  " : ["Load_Salesperson"]
},
"timeoutInSeconds": 43200
}
mssparkutils.notebook. (DAG)
```

Answer:

Explanation:

Values

activities

broadcast

dependencies

execute

notebooks

runMultiple

Answer Area

```
name : Load_Salesperson ;
"path": "Load_Salesperson",
"timeoutPerCellInSeconds": 300,
},
{
  "name": "Load_Orders",
  "path": "Load_Orders",
  "timeoutPerCellInSeconds": 600,
  " : ["Load_Salesperson"]
},
"timeoutInSeconds": 43200
}
mssparkutils.notebook. (DAG)
```

NEW QUESTION # 44

.....

As is known to us, different people have different understanding of learning, and also use different methods in different periods, and different learning activities suit different people, at different times of the day. Our DP-700 test questions are carefully designed by a lot of experts and professors in order to meet the needs of all customers. We can promise that our DP-700 exam question will be suitable for all people, including student, housewife, and worker and so on. No matter who you are, you must find that our DP-700 Guide Torrent will help you a lot. If you choose our product and take it seriously consideration, we can make sure it will be very suitable for you to help you pass your exam and get the DP-700 certification successfully. You will find Our DP-700 guide torrent is the best choice for you.
