

Quiz 2025 NS0-528: Perfect Reliable Implementation Engineer - Data Protection Exam Exam Syllabus

Services like quick downloading within five minutes, convenient and safe payment channels made for your convenience. Even newbies will be tricky about this process on the NS0-528 exam questions. Unlike product from stores, quick browse of our NS0-528 preparation quiz can give you the professional impression wholly. So, they are both efficient in practicing and downloading process. We also have free demo of NS0-528 training guide as freebies for your reference to make your purchase more effective.

Network Appliance NS0-528 Exam Syllabus Topics:

Topic	Details
Topic 1	NetApp ONTAP Core Data Protection Features: This section of the exam measures the skills of Systems Administrators and validates core knowledge of data protection and redundancy within the ONTAP environment. It encompasses understanding how data efficiencies impact protection strategies and the practical knowledge required to deploy these data protection solutions effectively in a hybrid cloud infrastructure.
Topic 2	Troubleshooting and Testing: This section of the exam measures the skills of Support Engineers and focuses on the practical skills needed to maintain data integrity. It involves troubleshooting common data protection configuration issues, executing well-defined Disaster Recovery (DR) procedures, and performing data restore operations to recover from data loss.
Topic 3	NetApp ONTAP Business Continuity Solutions: This section of the exam measures the skills of Disaster Recovery Specialists and covers advanced business continuity technologies. This includes the configuration and operation of SnapMirror active sync for continuous data replication and the execution of SVM-DR (Storage Virtual Machine Disaster Recovery) operations to ensure high availability.
Topic 4	NetApp Data Protection Software: This section of the exam measures the skills of DevOps Engineers and focuses on the deployment and administration of NetApp's proprietary data protection software. A key part of this domain involves applying these solutions to protect modern containerized applications running in Kubernetes environments.
Topic 5	Data Protection Solutions: This section of the exam measures the skills of Storage Architects and covers the foundational principles of designing data protection solutions. It focuses on creating comprehensive design documentation, understanding the various components involved, and identifying all critical solution dependencies to ensure a robust and reliable data protection strategy.

Pass Guaranteed Quiz Network Appliance - NS0-528 –High Pass-Rate Reliable Exam Syllabus

Our company abides by the industry norm all the time. By virtue of the help from professional experts, who are conversant with the regular exam questions of our latest real dumps. The Implementation Engineer - Data Protection Exam exam dumps have summarized some types of questions in the qualification examination, so that users will not be confused when they take part in the exam, to have no emphatic answers. It can be said that the template of these questions can be completely applied. The user only needs to write out the routine and step points of the NS0-528 test material, so that we can get good results in the exams.

Network Appliance Implementation Engineer - Data Protection Exam Sample Questions (Q192-Q197):

NEW QUESTION # 192

You are asked to attach LTO-8 tape drives to your ONTAP cluster.
Where will you find a list of supported tape drives to perform this task?

- A. Interoperability Matrix Tool
- B. Hardware Universe
- C. ONTAP ~man~ pages
- D. Active IQ Digital Advisor

Answer: A

NEW QUESTION # 193

A customer is planning the cloud strategy for their Microsoft SQL databases and must be able to protect them from outages. They are planning on using multiple cloud providers for their solution with their current NetApp storage system.
In this scenario, which two products are required to satisfy their backup management needs? (Choose two.)

- A. Cloud Volumes ONTAP
- B. SnapCenter
- C. CloudSync
- D. FlashPool

Answer: A,B

NEW QUESTION # 194

In a MetroCluster IP configuration, which two network ports must be connected to dedicated switches? (Choose two.)

- A. the port associated with the MetroCluster IP LIF
- B. the port associated with the cluster LIF
- C. the port associated with the intercluster LIF
- D. the port associated with the node management LIF

Answer: B,D

NEW QUESTION # 195

You are asked to verify that data stored in your disaster recovery site can be restored and is viable. Currently, you have a NetApp SnapMirror relationship with a MirrorAllSnaps policy type that is enabled and is updating frequently.
What would be a nondisruptive method to carry out a detailed validation of your disaster-recovery strategy?

- A. Use SyncMirror on the destination aggregate on the destination cluster, and validate the data.
- B. Create a FlexClone volume of the destination volume on the destination cluster, and validate the data.
- C. Perform a SnapMirror reverse resynchronization to restore the data from the destination cluster to the source cluster, and

validate the data.

- D. Break the SnapMirror relationship and validate the data.

Answer: C

NEW QUESTION # 196

A customer wants to replicate between their two NetApp ONTAP clusters but is concerned that replication traffic might slow down normal data traffic. They still have two unused network ports on every node. You recommend using dedicated ports for the Intercluster LIFs, and you are tasked with creating the Intercluster LIFs so that they are on dedicated ports at all times. Which command must you use before creating InterCluster LIFs?

- A. system services firewall policy create
- B. network interface failover-groups create
- C. network interface service-policy create
- D. network ipspace create -ip-space

Answer: C

Explanation:

To ensure Intercluster LIFs are bound to dedicated ports and used only for replication traffic, you must first create a service policy that defines the LIF's role (e.g., intercluster). The network interface service-policy create command allows you to specify that the LIF is intended strictly for intercluster services, ensuring it's isolated from data traffic.

NEW QUESTION # 197

.....

NS0-528 questions & answers cover all the key points of the real test. With the NS0-528 training pdf, you can get the knowledge you want in the actual test, so you do not need any other study material. If the NS0-528 exam is coming and the time is tense, it is better to choose our NS0-528 Test Engine dumps. NS0-528 test engine can simulate the actual test during the preparation and record the wrong questions for our reviewing. You just need 20-30 hours for preparation and feel confident to face the NS0-528 actual test.
