Oracle CX Sales 2024 Implementation Professional Sample Questions (Q51-Q56):

NEW QUESTION # 51

Which method should you use to load data into Oracle Profitability and Cost Management Cloud Service?

- A. Data Integration Platform and Cloud
- B. Data Integration Platform
- C. Data Visualization Cloud
- **D. Data Management Cloud**

Answer: D

Explanation:

Option 1: Correct: The Data Integration Platform provides tools for loading data into Oracle Profitability and Cost Management Cloud Service from various sources. Option 2: Incorrect: Data Management Cloud is not the recommended method for loading data into Oracle Profitability and Cost Management Cloud Service. Option 3: Incorrect: Data Visualization Cloud is not the recommended method for loading data into Oracle Profitability and Cost Management Cloud Service. Option 4: Incorrect: Data Integration Platform and Cloud is not a valid option for loading data into Oracle Profitability and Cost Management Cloud Service.

NEW QUESTION # 52

When creating and managing reports in Oracle Profitability and Cost Management Cloud Service, which feature allows users to generate visualizations and reports using pre-defined templates?

- A. Smart View
- B. Data Grids
- C. Calculations
- **D. Reports Explorer**

Answer: D

Explanation:

Option 1: Incorrect. Data Grids in Oracle Profitability and Cost Management Cloud Service are used to input and manage data, not generate visualizations or reports using pre-defined templates. Option 2: Incorrect. Smart View is an Excel-based tool that allows users to access Oracle applications, including Profitability and Cost Management, to query, report, and analyze data. However, it does not provide pre-defined templates for generating visualizations and reports. Option 3: Correct. Reports Explorer in Oracle Profitability and Cost Management Cloud Service allows users to generate visualizations and reports using pre-defined templates. Users can select from a library of report templates and customize them with specific dimensions and measures. Option 4: Incorrect. Calculations in Oracle Profitability and Cost Management Cloud Service are used to perform calculations and allocate costs, but they do not provide pre-defined templates for generating visualizations and reports.

NEW QUESTION # 53

When importing data into Oracle Profitability and Cost Management Cloud Service for use in running allocations, what are the supported file formats?

- A. TXT files only
- B. CSV files only
- C. Excel files only
- **D. Excel, CSV, and TXT files**

Answer: D

Explanation:

Option 1: The correct answer is Excel, CSV, and TXT files. Oracle Profitability and Cost Management Cloud Service supports data imports in multiple formats including Excel, CSV, and TXT files. Option 2: This answer is incorrect. Oracle Profitability and Cost Management Cloud Service supports data imports in multiple formats, not just Excel files. Option 3: This answer is incorrect. Oracle Profitability and Cost Management Cloud Service supports data imports in multiple formats, not just CSV files. Option 4: This answer is incorrect. Oracle Profitability and Cost Management Cloud Service supports data imports in multiple formats, not just TXT files.

NEW QUESTION # 54

Which of the following options represents a valid scenario where a Quantity dimension property can be used in an application in Oracle Profitability and Cost Management Cloud Service?

- A. Quantity is a property that can be defined for each Entity and will be used to identify the number of times the Entity appears in the application.
- B. Quantity is a property that can be defined for each Account and will be used to calculate the cost of inventory used in production.
- C. Quantity is a property that can be defined for each Department and will be used to calculate the headcount of employees responsible for each department.
- **D. Quantity is a property that can be defined for each Product and will be used to calculate the total cost of goods sold in the application.**

Answer: D

NEW QUESTION # 55

Which component of Oracle Profitability and Cost Management Cloud Service allows users to create and maintain cost assignment and allocation rules?

- A. Data model
- B. User interface
- C. Dashboard
- **D. Calculation engine**

Answer: D

Explanation:

Option 1: Incorrect. The data model in Oracle Profitability and Cost Management Cloud Service is used to define the structure and relationships of data. It does not allow users to create and maintain cost assignment and allocation rules. Option 2: Correct. The calculation engine in Oracle Profitability and Cost Management Cloud Service allows users to create and maintain cost assignment and allocation rules. It provides the capability to define complex calculations and rules for allocating costs to different dimensions and hierarchies. Option 3: Incorrect. The user interface in Oracle Profitability and Cost Management Cloud Service provides a graphical user interface for users to interact with and view data. It does not allow users to create and maintain cost assignment and allocation rules. Option 4: Incorrect. The dashboard in Oracle Profitability and Cost Management Cloud Service provides a visual representation of data and key performance indicators. It does not allow users to create and maintain cost assignment and allocation rules.

NEW QUESTION # 56

.....
