PL-900 Online Bootcamps | New PL-900 Exam Test

With the aid of our PL-900 exam preparation to improve your grade and change your states of life and get amazing changes in career, everything is possible. It all starts from our PL-900 learning questions. Our PL-900 training questions are the accumulation of professional knowledge worthy practicing and remembering. There are so many specialists who join together and contribute to the success of our PL-900 Guide quiz just for your needs.

Microsoft PL-900: Microsoft Power Platform Fundamentals Exam is suitable for various professionals, including business analysts, developers, IT professionals, and power users. PL-900 exam is an excellent way to showcase your knowledge and skills to potential employers and clients. Additionally, it can also be used as a stepping stone to more advanced certifications in the Microsoft Power Platform.

Microsoft PL-900 certification exam, also known as the Microsoft Power Platform Fundamentals exam, is designed for individuals who wish to demonstrate their foundational knowledge of the Microsoft Power Platform. The Power Platform includes four key components: Power Apps, Power Automate, Power BI, and Power Virtual Agents. PL-900 Exam covers the basics of each of these components and how they work together to create business solutions.

Microsoft Power Platform Fundamentals Sample Questions (Q347-Q352):

NEW QUESTION # 347

A company uses a third party application and an approval process via email. At the end of the month, the IT department enters the data into Microsoft Excel to create pivot charts.

The Excel pivot charts must use the same data source as Dynamics 365 Field Service to generate charts and reports.

You need to recommend a solution.

What should you recommend? To answer, select the appropriate configuration in the answer area.

NOTE: Each correct selection is worth one point.

Requirement

Create an approval workflow.

Solution

Dynamics 365 Workflow Notifications
Microsoft Outlook Integration
AI Builder
Microsoft Flow

Connect to report data.

Common Data Service and Power BI
Third-party from AppSource
Custom Code flat file integration
Dynamics 365 Field Service

Answer:

Explanation:

Requirement

Create an approval workflow.

Solution

Dynamics 365 Workflow Notifications
Microsoft Outlook Integration
AI Builder
Microsoft Flow

Connect to report data.

Common Data Service and Power BI
Third-party from AppSource
Custom Code flat file integration
Dynamics 365 Field Service

Explanation:

Requirement

Create an approval workflow.

Solution

Dynamics 365 Workflow Notifications
Microsoft Outlook Integration
AI Builder
Microsoft Flow

Connect to report data.

Common Data Service and Power BI
Third-party from AppSource
Custom Code flat file integration
Dynamics 365 Field Service

Box 1: Dynamics 365 Workflow notifications

You can configure the system to send email messages to users when workflow-related events occur.

Note:

- * Go to Navigation pane > Modules > System administration > Users > Users.
- * In the list, find and select the desired record.
- * On the Action pane, click User options.
- * Click the Workflow tab. Make sure that the Notifications section is expanded. In the Notifications section, you can specify how you want the user to be notified about workflow-related events.

Box 2: Dynamics 365 Field Service

Supply Chain Management enables synchronization of business processes between Dynamics 365 Supply Chain Management and Dynamics 365 Field Service. The integration scenarios are configured by using extensible Data integrator templates and Common Data Service to enable the synchronization of business processes. Standard templates can be used to create custom integration projects, where additional standard and custom fields and entities can be mapped to adjust the integration and meet specific business needs.

NEW QUESTION # 348

You create a Power Virtual Agents chatbot for use with Microsoft Teams. You are testing the chatbot.

Testers report the following issues:

Changes that you make to the chatbot are not seen by testers.

When users enter the word refund the chatbot must ask the user the product for which they would like a refund. The chatbot does not ask the user for product information.

You need to determine what needs to be done to fix the issues.

What should you do? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

The screenshot shows the Microsoft Power Virtual Agents console. On the left, under 'Missing changes', there is a Microsoft logo and a text box stating 'Refund responses are not working as expected.' To the right of this text box are two dropdown menus. The first dropdown menu is open and shows four options: 'Create a new chatbot.', 'Publish the chatbot.', 'Save the topic.', and 'Share the chatbot.'. The second dropdown menu is also open and shows three options: 'Change security.', 'Create a refund topic.', and 'Create a refund chatbot.'.

Answer:

Explanation:

Missing changes

Refund responses are not working as expected.

Explanation

Graphical user interface, text, application, chat or text message Description automatically generated

Missing changes

Microsoft

Refund responses are not working as expected.

NEW QUESTION # 350

You create a Power Apps app and Power Automate flow.

You need to combine multiple types of field values into a single string value and format the string.

What should you use?

- **A. expression**
- B. switch
- C. environment variable
- D. condition

Answer: A

NEW QUESTION # 351

A retailer has decided to build a canvas app for employees. The app can run on tablets. The application has a custom authentication system.

The company wants to ensure that if an employee uses another application on the tablet, they are automatically signed out of the canvas app after five minutes.

You need to identify the control to trigger the action.

Which control should you select?

- A. Display form
- **B. Timer**
- C. Toggle
- D. Screen

Answer: B

NEW QUESTION # 352

.....
