There are adequate content to help you pass the exam with least time and money.

Scrum Professional Scrum Master I Sample Questions (Q75-Q80):

NEW QUESTION #75

Who does the work to make sure Product Backlog items conform to the Definition of Done? (choose the Best answer)

- A. The Scrum Team
- B. The Product Owner
- C. The Quality Assurance Team
- D. The Scrum Master
- E. The Developers

Answer: E

Explanation:

According to the Scrum Guide, the Developers do the work to make sure Product Backlog items conform to the Definition of Done, as they are responsible for creating a "Done" Increment that meets the Definition of Done. The other options are not valid, as they

imply that the work is done by someone else outside the Development Team (such as Quality Assurance Team) or by another role on the Scrum Team (such as Product Owner or Scrum Master).

NEW QUESTION #76

The Product Owner makes sure the team selects enough from the Product Backlog for a Sprint to satisfy the stakeholders.

- A False
- B. True

Answer: A

Explanation:

The correct answer is B, because the Product Owner does not make sure the team selects enough from the Product Backlog for a Sprint to satisfy the stakeholders. The Scrum Guide states that "the number of items selected from the Product Backlog for the Sprint is solely up to the Development Team. Only the Development Team can assess what it can accomplish over the upcoming Sprint." Therefore, the Development Team is responsible for choosing the scope of work for a Sprint.

NEW QUESTION #77

Who should know the most about the progress toward a business objective or a release?

- A. The Product Owner.
- B. The Scrum Master.
- C. The Development Team.
- D. The Project Manager.

Answer: A

NEW QUESTION #78

Multiple Scrum Teams working on the same project must have the same Sprint start date.

- A False
- B. True

Answer: A

Explanation:

The correct answer is B, because multiple Scrum Teams working on the same project do not have to have the same Sprint start date. The Scrum Guide states that "multiple Scrum Teams often work together on the same product. One product goal unites them Therefore, they must mutually define and comply with a definition of 'Done' that applies to their combined work product." Therefore, the synchronization of multiple Scrum Teams is based on their shared product goal and definition of 'Done', not on their Sprint start date.

NEW QUESTION #79

The purpose of a Sprint is to produce a done Increment of product.

- A. True
- B. False

Answer: A

NEW QUESTION #80

•••••

By imparting the knowledge of the PSM-I exam to those ardent exam candidates who are eager to succeed like you, they treat it as responsibility to offer help. So please prepare to get striking progress if you can get our PSM-I Study Guide with following steps for

your information. With our PSM-I learning materials for 20 to 30 hours, we can claim that you will be confident to go to write your PSM-I exam and pass it.
