- A. newCart
- B. createCart
- C. getCart
- D. postCart

Answer: B

NEW QUESTION # 317

Each time a new smartphone is offered, the company wants to automatically decrease its price over time. How could this be done?
Note: This question displayed answer options in random order when taking this Test.

- A. Using a rule and time plans to control effectivity
- B. Using multiple price lists with effectivity time frames
- C. Using a rule and time policies to control effectivity
- D. Using price list entries with effectivity time frames

Answer: B

NEW QUESTION # 318

When adding a new commercial product to the catalog, which of the following items must be done in order for it to display in Vlocity Cart's product list? (Choose THREE) Note: This question displayed answer options in random order when taking this Test.

- A. The Active field must be checked.
- B. Run the Product Hierarchy Maintenance job.
- C. It must have a price.
- D. The default Availability interface must be active.
- E. The Orderable field must be checked.
- F. It must have an Object Type.
- G. Run Refresh Pricebook.

Answer: A,C,E

Explanation:

To ensure that a new commercial product appears in Vlocity Cart's product list, several key steps must be taken:

* A. It must have a price: This is fundamental as the product needs to have a price assigned to it in order to be listed and purchasable in the cart.

* E. The Orderable field must be checked: This indicates that the product is available for ordering and is a critical flag for the product's visibility in the cart.

* F. The Active field must be checked: This ensures that the product is currently active and available for selection and purchase in the cart.

These steps ensure that the product is properly configured and recognized by the system as available for inclusion in sales processes.

Evaluation entity filters are used as "internal filters" for qualification entity filters.

- Answer: A**
