Topic 10	<ul style="list-style-type: none"><li>Process and Layout Oriented Storage Control: It covers creating customizing settings and using Process and Layout-Oriented Storage Control.</li></ul>

## SAP Certified Associate - SAP S/4HANA Cloud Private Edition, Extended Warehouse Management Sample Questions (Q37-Q42):

### NEW QUESTION # 37

What do you have to define for a new delivery type in SAP EWM?

- A. A new document type and a new document category
- B. A new document category and combine it with an existing document type
- C. A new document category and a new process profile
- D. A new document type and combine it with an existing document category

**Answer: D**

Explanation:

Comprehensive and Detailed In-Depth Explanation:

In SAP EWM, a delivery type (e.g., inbound or outbound) is defined by a document type, which is linked to a document category (e.g., "F" for inbound delivery). Option A ("A new document type and combine it with an existing document category") is correct because you create a new document type in SPRO: SCM Extended Warehouse Management > Cross-Process Settings > Delivery Processing > Document Types, and assign it to an existing category (e.g., "F" or "O"). Options B and C are incorrect because a process profile isn't required, and a new category isn't typically created. Option D is overly broad, as categories are predefined.

#### NEW QUESTION # 38

What do you need to configure before you can create warehouse tasks for an outbound delivery order or an inbound delivery?

Note: There are 2 correct answers to this question.

- A. Warehouse process types
- B. Warehouse process type determination
- C. Warehouse order creation rules
- D. Putaway control indicator or stock removal control indicator

**Answer: A,B**

#### NEW QUESTION # 39

Which of the following actions are possible based on a value-added service (VAS) order? Note: There are 3 correct answers to this question.

- A. Capture costs
- B. Capture time required
- C. Perform quality inspection
- D. Consume auxiliary products
- E. Assemble a kit

**Answer: B,D,E**

Explanation:

Comprehensive and Detailed In-Depth Explanation:

A VAS order in SAP EWM supports additional services during processing. Option A ("Assemble a kit") is correct as kitting is a common VAS activity. Option B ("Consume auxiliary products") is correct because VAS often uses materials like packaging, and option D ("Capture time required") is correct as Labor Management tracks VAS execution time, all configured in SPRO: SCM Extended Warehouse Management > Value-Added Services. Option C (quality inspection) is a separate QM process, and option E (costs) is tracked indirectly, not directly via VAS orders.

#### NEW QUESTION # 40

Which assignment do you make to create external process steps in process-oriented storage control?

- A. External process step to a warehouse process type
- B. External process step to a work center
- C. External process step to an SAP internal process step
- D. External process step to a storage process

**Answer: C**

#### NEW QUESTION # 41

What can you control with an activity area? Note: There are 2 correct answers to this question.

- A. The warehouse order creation rules to be used
- B. The area in which a resource will work in the warehouse
- C. The interim bin for layout oriented storage control
- D. The doors that can be connected to a staging area

**Answer: A,B**

#### NEW QUESTION # 42

.....

With the development of information and communications technology, we are now living in a globalized world. C-S4EWM-2023

information technology learning is correspondingly popular all over the world. Modern technology has changed the way how we live and work. When it comes to the study materials selling in the market, qualities are patchy. But our C-S4EWM-2023 test material has been recognized by multitude of customers, which possess of the top-class quality, can help you pass exam successfully. On the other hand, our C-S4EWM-2023 Latest Dumps are designed by the most experienced experts, thus it can not only teach you knowledge, but also show you the method of learning in the most brief and efficient ways.
