Microsoft Information Protection Administrator Sample Questions (Q22-Q27):

NEW QUESTION # 22

You have a Microsoft 365 E5 subscription.

You plan to update the overall compliance score for the Microsoft 365 environment.

You resolve improvement actions that have a Testing type of Manual and discover that the compliance score fails to update.

You need to ensure that the compliance score for manual improvement actions is updated.

Which three actions should you perform in sequence from Microsoft Purview Compliance Manager? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

- ⋮ Create a Microsoft Excel file and enter a list of improvement action items.
- ⋮ From Solutions, open the appropriate solution.
- ⋮ From Improvement actions, select **Accept all updates**.
- ⋮ From Improvement actions, export the actions.
- ⋮ Modify the improvement action items in the exported file.
- ⋮ From Improvement actions, select **Update actions**.

Answer Area

Answer:

Explanation:

The screenshot shows the Microsoft Dynamics 365 interface. On the left, the 'Actions' list contains six items. The first three items are highlighted with green borders: 'Create a Microsoft Excel file and enter a list of improvement action items.', 'From Solutions, open the appropriate solution.', and 'From Improvement actions, select **Accept all updates**.'. The last three items are not highlighted: 'From Improvement actions, export the actions.', 'Modify the improvement action items in the exported file.', and 'From Improvement actions, select **Update actions**.'. On the right, the 'Answer Area' contains three items, each with a red border: 'From Improvement actions, export the actions.', 'Modify the improvement action items in the exported file.', and 'From Improvement actions, select **Update actions**.'. The first two items in the Answer Area are not highlighted, while the third item is highlighted with a red border.

NEW QUESTION # 23

You have a Microsoft 365 tenant that uses Microsoft Teams.

You create a data loss prevention (DLP) policy to prevent Microsoft Teams users from sharing sensitive information.

You need to identify which locations must be selected to meet the following requirements:

* Documents that contain sensitive information must not be shared inappropriately in Microsoft Teams.

* If a user attempts to share sensitive information during a Microsoft Teams chat session, the message must be deleted immediately.

Which three locations should you select? To answer, select the appropriate locations in the answer area.

(Choose three.)

NOTE: Each correct selection is worth one point.

Choose locations to apply the policy

We'll apply the policy to data that's stored in the locations you choose

Status	Location	Included
--------	----------	----------

<input type="checkbox"/> Off	Exchange email	
------------------------------	----------------	--

<input type="checkbox"/> Off	SharePoint sites	
------------------------------	------------------	--

<input type="checkbox"/> Off	OneDrive accounts	
------------------------------	-------------------	--

<input type="checkbox"/> Off	Teams chat and channel messages	
------------------------------	---------------------------------	--

<input type="checkbox"/> Off	Microsoft Cloud App Security	
------------------------------	------------------------------	--

Answer:

Explanation:

Choose locations to apply the policy

We'll apply the policy to data that's stored in the locations you choose.

Status	Location	Included
--------	----------	----------

<input type="checkbox"/> Off	Exchange email	
------------------------------	----------------	--

<input type="checkbox"/> Off	SharePoint sites	
------------------------------	------------------	--

<input type="checkbox"/> Off	OneDrive accounts	
------------------------------	-------------------	--

<input type="checkbox"/> Off	Teams chat and channel messages	
------------------------------	---------------------------------	--

<input type="checkbox"/> Off	Microsoft Cloud App Security	
------------------------------	------------------------------	--

Explanation

Graphical user interface, application Description automatically generated

Choose locations to apply the policy

We'll apply the policy to data that's stored in the locations you choose

Status **Location** **Included**

<input type="checkbox"/> Off	Exchange email	
<input type="checkbox"/> Off	SharePoint sites	
<input type="checkbox"/> Off	OneDrive accounts	
<input type="checkbox"/> Off	Teams chat and channel messages

NEW QUESTION # 24

You are evaluating the technical requirements for the DLP reports.

Which user can currently view the DLP reports?

- A. Admin4
- B. Admin2
- C. Admin1
- D. Admin5
- E. Admin3

Answer: E

Explanation:

Topic 1, Contoso Case Study

Overview

Contoso, Ltd. is a consulting company that has a main office in Montreal and three branch offices in Seattle, Boston, and Johannesburg.

Microsoft 365 Environment

Contoso has a Microsoft 365 FS tenant. The tenant contains the administrative user accounts shown in the following table.

Name	Role
Admin1	None
Admin2	Compliance data administrator
Admin3	Compliance administrator
Admin4	Security operator
Admin5	Security administrator

Users store data in the following locations:

- * SharePoint sites
- * OneDrive accounts
- * Exchange email
- * Exchange public folders

- * Teams chats
- * Teams channel messages

When users in the research department create documents, they must add a 10-digit project code to each document. Project codes that start with the digits 999 are confidential.

SharePoint Online Environment

Contoso has four Microsoft SharePoint Online sites named Site1, Site2, Site3, and Site4.

Site2 contains the files shown in the following table.

Name	Number of SWIFT codes in the file
File1.docx	1
File2.bmp	4
File3.txt	3
File4.xlsx	7

Two users named User1 and User2 are assigned roles for Site2 as shown in the following table.

User	Role
User1	Site owner
User2	Site visitor

Site3 stores documents related to the company's projects. The documents are organized in a folder hierarchy based on the project.

Site4 has the following two retention policies applied:

- * Name: SiteRetentionPolicy1
- * Locations to apply the policy: Site4
- * Delete items older than: 2 years
- * Delete content based on: When items were created
- * Name: Site4RetentionPolicy2
- * Locations to apply the policy: Site4
- * Retain items for a specific period: 4 years
- * Start the retention period based on: When items were created
- * At the end of the retention period: Do nothing

Problem Statements

Management at Contoso is concerned about data leaks. On several occasions, confidential research departments were leaked.

Planned Changes

Contoso plans to create the following data loss prevention (DLP) policy:

- * Name: DLPpolicy1
- * Locations to apply the policy: Site2
- * Conditions:
 - * Content contains any of these sensitive info types: SWIFT Code
 - * Instance count: 2 to any
- * Actions: Restrict access to the content

Technical Requirements

Contoso must meet the following technical requirements:

- * All administrative users must be able to review DLP reports.
- * Whenever possible, the principle of least privilege must be used.
- * For all users, all Microsoft 365 data must be retained for at least one year.
- * Confidential documents must be detected and protected by using Microsoft 365.
- * Site1 documents that include credit card numbers must be labeled automatically.
- * All administrative users must be able to create Microsoft 365 sensitivity labels.
- * After a project is complete, the documents in Site3 that relate to the project must be retained for 10 years

NEW QUESTION # 25

You have a Microsoft 365 subscription that contains a user named User1.

User1 plans to export a history of Microsoft Purview communication compliance policy changes. You need to add User1 to a role group in Microsoft Purview. The solution must follow the principle of least privilege. To which role group should you add User1?

- A. Communication Compliance investigators
- B. Communication Compliance Administrators
- C. Communication Compliance Analysts
- D. Communication Compliance viewers

Answer: D

NEW QUESTION # 26

You create a retention label policy named Contoso_policy that contains the following labels.

- * 10 years then delete
- * 5 years then delete
- * Do not retain

Contoso_Policy is applied to content In Microsoft Sharepoint Online sites.

After a couple of days, you discover the following messages on the Properties page of the label policy.

- * Status Off (Error)
- * It's taking longer than expected to deploy the policy

You need to reinitiate the policy.

How should you complete the command? To answer, select the appropriate options in the; answer area.

NOTE: Each correct selection is worth one point.

	-id Contoso_Policy
Set-RetentionCompliancePolicy	-ForceFullSync
Set-RetentionPolicy	-FullCrawl
Start-EdgeSynchronization	-RetryDistribution
Start-RetentionAutoTagLearning	-Train

Answer:

Explanation:

Sensitivity labels:

1
2
3
4

Auto-labeling policies:

1
2
3
4 Microsoft

Explanation

	-id Contoso_Policy
Set-RetentionCompliancePolicy	-ForceFullSync
Set-RetentionPolicy	-FullCrawl
Start-EdgeSynchronization	-RetryDistribution
Start-RetentionAutoTagLearning	-Train
