Our products provide the TDA-C01 test guide to clients and help they pass the test TDA-C01 certification which is highly authorized and valuable. Our company is a famous company which bears the world-wide influences and our TDA-C01 Test Prep is recognized as the most representative and advanced study materials among the same kinds of products. Whether the qualities and functions or the service of our product, are leading and we boost the most professional expert team domestically.

Tableau Certified Data Analyst Sample Questions (Q23-Q28):

NEW QUESTION # 23
You have the following:

Category	Sub-Category	Sales	Overall Rank	Rank
Furniture	Bookcases	114,880	7	3
	Chairs	328,449	2	1
	Furnishings	91,705	8	4
	Tables	206,966	3	2
Technology	Accessories	167,380	5	3
	Copiers	149,528	6	4
	Machines	189,239	4	2
	Phones	330,007	1	1

Overall Rank and Rank are calculated fields that use the RANK function.
You filter out the sub-category where [Ovorall Rank] - 1.
For which three the sub-categories will the value of Rank change? Choose three.

- A. Furnishings
- B. Accessories
- C. Copiers
- D. Tables
- E. Bookcases
- F. Chairs
- G. Machines
  G Phones

Answer: B,D,G

Explanation:
In Tableau, the RANK function assigns a rank to each row within a partition of the data, based on the value of the field being ranked. It is important to understand that the rank is recalculated whenever the underlying data or the partitioning changes.
In the given scenario, the Overall Rank is based on the Sales figures, while the Rank (presumably) is based on the Sales within the Category. When filtering on the condition where [Overall Rank] - 1, it means we are excluding the sub-category that has an Overall Rank of 2.
Looking at the data:
Furnishings has an Overall Rank of 8, which does not meet the filter condition ([Overall Rank] - 1).
Therefore, its rank remains the same.
Tables have an Overall Rank of 3. When the sub-category with an Overall Rank of 2 is removed (Chairs in this case), Tables move up in the overall ranking. However, since Tables are the top-ranked within the Furniture category, their Rank within the category would remain unchanged at 1.
Chairs have an Overall Rank of 2, which meets the filter condition and thus will be removed from the view. We cannot determine the change in Rank for Chairs because they are filtered out.
Accessories have an Overall Rank of 5. If any sub-category with a higher Overall Rank (1 to 4) is removed, the rank of Accessories within the Technology category could change because it is currently ranked 3 in its category. With the removal of Phones (Overall Rank 1), the Rank of Accessories could potentially increase.
Copiers have an Overall Rank of 6, which does not meet the filter condition. Therefore, its rank remains the same.
Machines have an Overall Rank of 4. If we remove Phones (Overall Rank 1), Machines will move up in the overall ranking and potentially within the Technology category as well, changing its Rank from 2 to
1.
Phones have an Overall Rank of 1, which does not meet the filter condition of being Overall Rank 2.
Therefore, its rank remains the same.
Bookcases have an Overall Rank of 7, which does not meet the filter condition. Therefore, its rank remains the same.
Based on this analysis, when the sub-category with an Overall Rank of 2 (Chairs) is removed, the Rank value will change for Tables, Accessories, and Machines, as they will move up in the overall ranking within their respective categories. However, it's important to note that while Tables will move up in the overall ranking, their rank within the Furniture category would not change as they are already at the top. The rank changes for Accessories and Machines are due to the removal of Phones, which is ranked higher overall and within the Technology category.

NEW QUESTION # 24
You create a worksheet named Sales by Region and hide the tide of the worksheet. You print the worksheet as a PDF and notice that the worksheet title appears. You need to prevent the title from appearing when you print the worksheet as a PDF. Which settings should configure from the File menu in Tableau Desktop?

- A. Print
- B. Share
- C. Export As Version
- D. Page Setup
- E. Export As PowerPoint

Answer: D

NEW QUESTION # 25
You are the owner of an alert.
You receive an email notification that the alert was suspended
From where can you resume the suspended alert?

- A. The Data Source page of Tableau Desktop
- B. The Shared with Ma page
- C. The Notification area of Tableau Prep
- D. The My Content area of Tableau web pages

Answer: D

Explanation:
To resume a suspended alert, you need to go to the My Content area of Tableau web pages, where you can see all the alerts that you own or subscribe to. You can click on the alert name and then select Resume from the menu. You can also edit or delete the alert from there. References: https://help.tableau.com/current/pro
/desktop/en-us/alerts.htm https://help.tableau.com/current/pro/desktop/en-us/alerts_manage.htm In Tableau, the "My Content" area on the web interface is the place where a user can manage their content, including workbooks, data sources, and alerts. If an alert is suspended, the owner of the alert can go to the
"My Content" area to resume it.

NEW QUESTION # 26
You have the following dataset.

Customer Name	Sales	Rank
Adrian Barton	10,000	3
