APMG-International Agile Project Management (AgilePM) Foundation Exam Sample Questions (Q116-Q121):

NEW QUESTION # 116

Which of the following statements about stakeholder identification are true?

- * Stakeholder identification is based on the anticipated impact of change.
- * Stakeholder identification begins with stakeholder mapping.

- A. Only 2 is true.
- B. Neither 1 nor 2 is true.

- C. Both 1 and 2 are true.
- D. Only 1 is true.

Answer: C

Explanation:

- * Statement 1: Correct. Identifying stakeholders involves analyzing who will be impacted by the change and their level of influence.
- * Statement 2: Correct. Stakeholder mapping is a tool used to visualize and prioritize stakeholders based on their influence and interest.

Key AgilePM Concepts Referenced:

- * Stakeholder Mapping and Identification: AgilePM Handbook, Chapter 5, Section 5.5.

NEW QUESTION # 117

Which purpose relates to the instrumental Success Factors?

- A. Inform the development of the Terms of Reference
- B. Positions DSDM projects for a successful outcome
- C. Underpins the prioritization of requirements
- D. Informs the development of the Business Case

Answer: B

Explanation:

Instrumental Success Factors (ISFs) in DSDM are crucial as they position projects for a successful outcome.

ISFs are the critical elements that must be in place for a DSDM project to succeed. They provide a foundation for effective project management and delivery, ensuring that all necessary conditions are met to support the project's objectives and deliverables.

References:

- * DSDM Agile Project Framework Handbook
- * "Agile Project Management with Scrum" by Ken Schwaber

NEW QUESTION # 118

What does DSDM refer to the Minimum Usable Subset?

- A. The Must, Should and Could have requirements
- B. Those requirements that have passed user acceptance testing
- C. The Must Have requirements
- D. All requirements in the functional specification

Answer: C

Explanation:

In DSDM, the Minimum Usable Subset refers to the "Must Have" requirements as defined by the MoSCoW prioritization¹. This subset ensures that the project delivers the core functionalities that are critical for the system to be considered useful and viable².

NEW QUESTION # 119

In the context of AgilePM, what two types of Increment are associated with what is delivered?

- A. Team and Individual
- B. Solution and Product
- C. Timebound and Freeform
- D. Product and Process

Answer: B

Explanation:

AgilePM distinguishes between increments in terms of what is actually delivered to stakeholders. The emphasis is on a Solution-the integrated outcome that delivers business value-not merely isolated technical outputs. As delivery progresses, teams create Solution Increments that accumulate into a releasable Product (the broader, user-facing capability). This distinction helps align day-to-day

development with business outcomes: every increment should be a cohesive slice of the evolving solution that is demonstrably usable or verifiable, while the Product view ensures that increments collectively support release goals and benefits realization. AgilePM's focus on MoSCoW prioritization and timeboxing supports this by ensuring each Solution Increment contains the right mix of Must/Should/Could features to satisfy acceptance and maintain momentum. In practice, reviews showcase the Solution Increment's usability to business representatives, while release planning considers how these increments roll up into Product evolution. Therefore, the two types associated with what is delivered are best captured by Solution and Product, making option A the fit with AgilePM terminology and intent.

NEW QUESTION # 120

Which of the following statements, about building and maintaining engagement throughout change, are true?

- * Engaging people in change is simple and routine.
- * A simple formula can be applied for all change situations.

- A. Only 2 is true.
- **B. Neither 1 nor 2 is true.**
- C. Both 1 and 2 are true.
- D. Only 1 is true.

Answer: B

Explanation:

* Statement 1: Incorrect. Engaging people in change is complex and requires tailored strategies. It's not a simple or routine task.

* Statement 2: Incorrect. Change situations vary greatly, and no single formula works universally. Agile emphasizes context-specific approaches.

Key AgilePM Concepts Referenced:

* Engagement Strategies: AgilePM Handbook, Chapter 4, Section 4.2.

NEW QUESTION # 121

.....

By concluding quintessential points into Agile Project Management (AgilePM) Foundation Exam practice materials, you can pass the exam with the least time while huge progress. Our experts are responsible to make in-depth research on the exams who contribute to growth of our AgilePM-Foundation practice materials.
