

Quiz AVIXA - CTS - Certified Technology Specialist

Useful Latest Braindumps Ppt

P.S. Free & New CTS dumps are available on Google Drive shared by Itcertking: https://drive.google.com/open?id=1UimSXDfLx4drVTY0_-Fz2cvou7koJxyx

Here I would like to explain the core value of Itcertking exam dumps. Itcertking Practice CTS Test dumps guarantee 100% passing rate. Itcertking real questions and answers are compiled by lots of AVIXA experts with abundant experiences. So it has very high value. The dumps not only can be used to prepare for AVIXA certification exam, also can be used as a tool to develop your skills. In addition, if you want to know more knowledge about your exam, Itcertking exam dumps can satisfy your demands.

AVIXA CTS - General Exam Syllabus Topics:

| Topic | Weight |
|---|------------|
| Duty A:Creating AV Solutions | 47% |
| Task 1:Gather Customer Information | 10% |
| Task 2:Conduct Initial Site Survey | 9% |
| Task 3: Evaluate Site Environment (acoustics, lighting, seating, finishing, etc.) | 9% |
| Task 4:Develop an AV Project Scope | 9% |
| Task 5: Design AV Solutions | 10% |
| Domain 2:Implementing AV Solutions | 27% |
| Task 1:Integrate AV Solutions | 10% |
| Task 2:Operate AV Solutions | 9% |

| | |
|--|------------|
| Task 3:Manage AV Projects | 8% |
| Domain 3:Servicing AV Solutions | 26% |

Upgrade Your Professional Career by Obtaining the AVIXA CTS Certification

IT certification exam cost is really large cost for most candidates in the whole world. Passing exam at first attempt will be everyone's goal. Now our AVIXA CTS valid exam cram review can help you achieve your goal. Recent years we are engaging in providing 100% pass-rate CTS Valid Exam Cram review for buyers from all over the world, and help thousands of candidates go through exam every year. If you have doubt in your test, let us help you pass exam for sure.

AVIXA CTS Exam Certification Details:

| | |
|-----------------------|----------------------------|
| Sample Questions | AVIXA CTS Sample Questions |
| Number of Questions | 110 |
| Books / Training | Candidate Handbook |
| Passing Score | 350 / 500 |
| Non-Member Exam Price | \$475(USD) |

AVIXA Certified Technology Specialist Sample Questions (Q76-Q81):

NEW QUESTION # 76

When preparing to fly a projector, a technician finds that two of the six mounting bolts for the flyware/mount are stripped. What SHOULD the technician do?

- A. Fly the projector and install additional safety cables
- B. Securely tighten the four working bolts and fly the projector
- C. Use gaff tape to secure the mount around the stripped bolts
- **D. Remove the projector until the mount can be repaired**

Answer: D

Explanation:

Safety is paramount in rigging and flying equipment. A compromised mount (such as one with stripped bolts) must not be used. The proper procedure is to remove the projector and repair or replace the mounting hardware. AVIXA guidelines and industry safety codes emphasize that rigged equipment must be structurally sound.

NEW QUESTION # 77

Which process examines methods, techniques, and principles from peer organizations?

- A. end user meetings
- B. space allocation
- **C. benchmarking**
- D. needs analysis

Answer: C

Explanation:

Benchmarking is the process of comparing one's business processes and performance metrics to industry best practices and standards from peer organizations. In the context of AV integration and project planning, benchmarking involves analyzing methods, techniques, and principles used by similar organizations to achieve high performance and efficiency. This approach helps AV

professionals to adopt proven strategies and enhance their service offerings.

CTS Technology Specialist Reference Benchmarking is referenced in CTS study materials as a critical component for continuous improvement and alignment with industry standards. By leveraging benchmarking, AV integrators can ensure their solutions meet or exceed industry expectations and provide added value to their clients.

NEW QUESTION # 78

In order to calculate throw distances for an existing installation, what is the FIRST thing to evaluate?

- A. the size of the screen
- B. light conditions
- C. the height of the ceiling
- D. aspect ratio

Answer: A

Explanation:

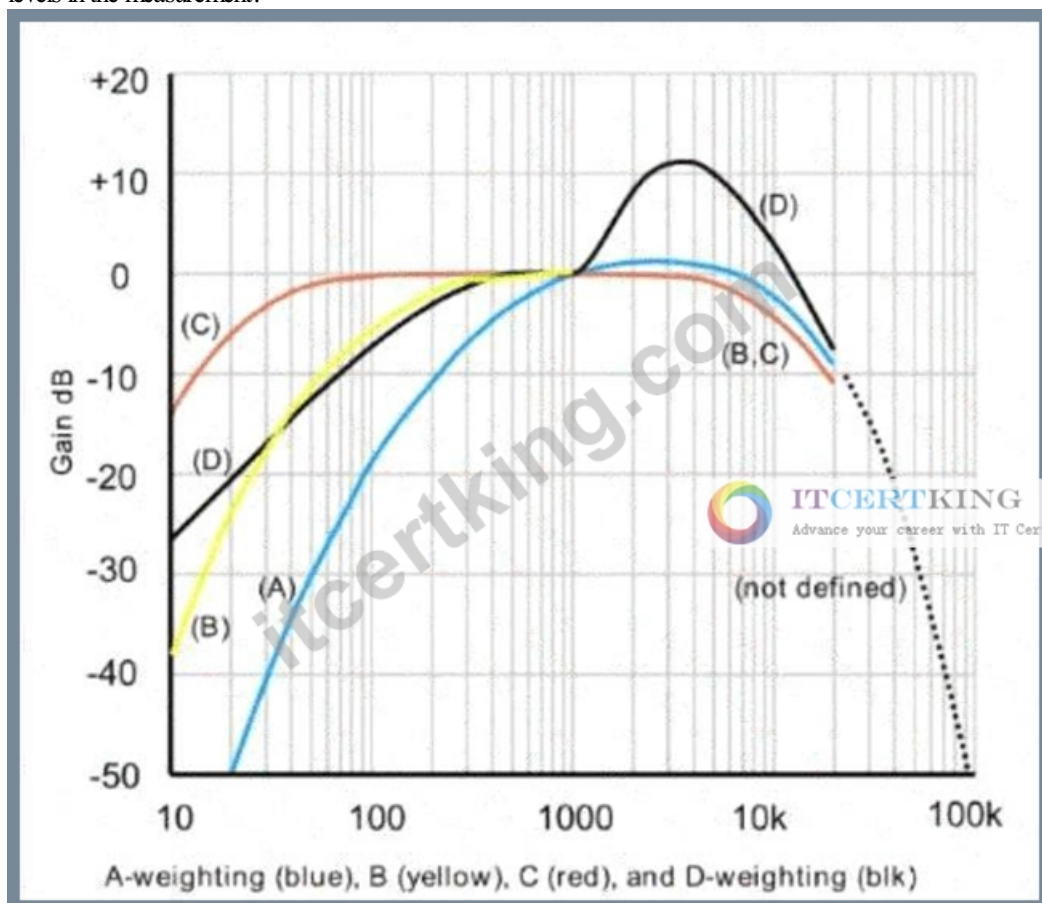

To calculate throw distance, the size of the screen is essential as it determines the distance needed for the projector to fill the screen adequately. Throw ratio calculations depend directly on screen size, impacting projector placement.

CTS Technology Specialist Reference

Throw distance calculations are covered in CTS training, where screen size is the primary factor in determining projector positioning for optimal image display.

NEW QUESTION # 79

When calibrating a loudspeaker system, which weight setting on the SPi. meter is used for its measurement of low frequency sound levels in the measurement?

- A. Weighted
- B. Weighted
- C. Weighted
- D. Weighted

Answer: A

Explanation:

When calibrating a loudspeaker system, the C-weighted setting on an SPL (Sound Pressure Level) meter is typically used because it provides a relatively flat frequency response, including low-frequency sound levels.

This makes it more suitable for accurately measuring the overall sound pressure level, especially in environments where low-frequency performance is critical, such as in audio and home theater systems. The C-weighted setting captures the full range of audible frequencies, ensuring a comprehensive and precise calibration.

NEW QUESTION # 80

A customer wants to set up a new digital classroom and has approached the integrator for a quote. What is the BEST way to understand the customer's needs before creating the quote?

- A. inform the customer of new technologies
- B. have a manufacturer representative visit the customer
- C. invite the customer to the office for a meeting
- **D. invite the customer to similar installs**

Answer: D

Explanation:

Inviting a customer to visit similar installations is an effective method to help them visualize potential solutions and understand how these systems might work in their environment. This approach provides real-world examples of AV technology in action, allowing customers to see the capabilities, configurations, and performance of systems similar to what they are considering. It also offers the customer a chance to ask questions and make informed decisions based on firsthand experience.

CTS Technology Specialist ReferenceThe CTS curriculum emphasizes the importance of understanding customer needs through various methods, including site visits and demonstrations. This approach aligns with the best practices for gathering detailed client requirements and providing tailored solutions.
