CIPS L6M10 Exam Syllabus Topics:

Topic	Details
Topic 1	Understand the concept of reverse logistics and its impact on global logistics strategy. This section measures the skills of the target audience in assessing strategic factors influencing reverse logistics, such as government policies, economic considerations, and environmental impacts. It emphasizes understanding how these factors affect reverse logistics planning. A key skill measured is evaluating sustainability strategies in reverse logistics.

Topic 2	• Understand the strategic logistical implications of globalization: This section measures the skills of Logistics Managers and focuses on evaluating the logistics challenges presented by globalization. It covers issues such as centralized versus regionalized inventory holdings, international logistics practices, and the impact of transportation pipelines on inventory costs. A key skill measured is identifying logistics challenges in a global context.
Topic 3	• Understand global governance of the supply chain: This section measures the skills of Compliance Officers in assessing the impact of international legislation on globalized supply chains. It includes understanding jurisdictional issues and legal considerations affecting trade across multiple countries. A key skill measured is evaluating legal frameworks governing international trade.
Topic 4	• Assess the strategic factors that influence reverse logistics: This section measures the skills of Logistics Coordinators in comparing factors affecting the implementation of reverse logistics strategies. It discusses challenges such as lack of infrastructure, forecasting difficulties, and perceptions of reverse logistics as a cost rather than a value-addition opportunity.

If your problems on studying the L6M10 learning quiz are divulging during the review you can pick out the difficult one and focus on those parts. You can re-practice or iterate the content of our L6M10 exam questions if you have not mastered the points of knowledge once. Especially for exam candidates who are scanty of resourceful products, our L6M10 study prep can whittle down distention of disagreement and reach whole acceptance.

CIPS Global Logistics Strategy Sample Questions (Q124-Q129):

NEW QUESTION # 124

What is the main focus of "green supply chain management"?

- **A. Monitoring and improving environmental performance within the supply chain.**
- B. Increasing profits through efficient supply chain operations.
- C. Minimizing costs associated with waste disposal.
- D. Maximizing product life cycles through remanufacturing.

Answer: A

Explanation:

"Green supply chain management" focuses on monitoring and improving environmental performance within the supply chain, including recycling, reuse, reduction, and substitution of materials. [P-145]

NEW QUESTION # 125

Sarah, an international business consultant, is advising a company on its international arbitration strategy. The company is concerned about the confidentiality of arbitration proceedings. In which countries would Sarah's advice about the confidentiality of arbitration proceedings likely be different?

- A. USA, Sweden, and Australia
- B. Italy, Spain, and Brazil
- C. Canada, Germany, and Japan
- **D. England, France, and New Zealand**

Answer: D

Explanation:

In England, France, and New Zealand, arbitration proceedings are confidential by default, subject to exceptions, making

confidentiality rules different from other jurisdictions. [P-119]

NEW QUESTION # 126

A manufacturing company is considering outsourcing its logistics and supply chain management operations to a third-party service provider. They want to focus on business development and sales. Which of the following advantages is most likely to attract the company to using a third-party logistics (3PL) provider?

- A. Management of every aspect of the supply chain.
- B. Establishment of a joint venture with supply chain partners.
- **C. Cost savings and low capital and asset commitment.**
- D. Ability to extend services beyond transportation and warehousing.

Answer: C

Explanation:

3PL providers offer cost savings and require low capital investment, allowing companies to focus on core activities like business development. [P-97]

NEW QUESTION # 127

Five companies from different industries are participating in a sustainability summit where they discuss and share their approaches to integrating the triple bottom line (TBL), corporate social responsibility (CSR), and green logistics into their business operations. The companies include:

EcoElectronics Inc. - An electronic device manufacturing company with a focus on environmentally friendly products. The company is committed to reducing its carbon footprint by using recycled materials in its products and minimizing electronic waste.

SocialSolutions Ltd. - A consulting firm specializing in social impact initiatives and community development. Their commitment to social impact involves working closely with local communities, implementing initiatives that empower individuals, and fostering sustainable development.

ProfitablePharma Corp. - A pharmaceutical company committed to balancing financial success with social and environmental responsibility. Beyond financial profitability, the company places a high value on moral pharmaceutical practices. This includes ensuring affordable access to medications and minimizing environmental impact in the manufacturing process.

ModernTrans Logistics - A logistics company that specializes in sustainable and eco-friendly carriage solutions. The company invests in a modern and eco-friendly fleet, utilizing alternative fuels and optimizing routes to reduce emissions.

TechInnovate Innovations - A technology company striving to incorporate green practices in its supply chain and operations. Their commitment includes sourcing ethically produced raw materials and adopting energy-efficient manufacturing processes, minimizing environmental impact while driving innovation in the technology sector.

You are required, for each company, to align the primary focus area and recommend the key factor.

Q: What is the recommended key factor for ModernTrans Logistics?

- A. Community Development Initiatives
- B. Sustainable Product Design and Manufacturing
- C. Integration of Green Practices in Technology Operations
- **D. Sustainable Transportation Solutions**
- E. Ethical Business Practices

Answer: D

Explanation:

The recommended driver for ModernTrans Logistics is "Sustainable Transportation Solutions", optimizing logistics operations and reducing emissions through eco-friendly fleet management. [P 166-169]

NEW QUESTION # 128

A global organization is considering implementing a tiered supply chain network. What would be the primary benefit of this approach?

- **A. To reduce the complexity of the supply chain**
- B. To increase demand uncertainty
- C. To centralize production facilities in one location
