Quiz CWNP - CWAP-404 - Latest Latest Certified Wireless Analysis Professional Braindumps Pdf

What's more, part of that It-Tests CWAP-404 dumps now are free: https://drive.google.com/open?id=1kizXBblzaQ9VqDtDjKtlJ_deVrsfWMVQ

It-Tests releases 100% pass-rate CWNP CWAP-404 study guide files which guarantee candidates 100% pass exam in the first attempt. It is time for you to choose a valid CWNP CWAP-404 study guide, this will be your best method for clearing exam and obtain a certification. Good CWAP-404 Study Guide will be a shortcut for you to well-directed prepare and practice efficiently, you will avoid do much useless efforts and do something interesting.

As long as you study with our CWAP-404 exam braindumps, the benefits are more than you can consider, you are bound to pass the CWAP-404 exam, let along various opportunities like getting promotion, being respected by surrounding people on your profession's perspective. All those beneficial outcomes come from your decision of our CWAP-404 simulating questions. We are willing to be your side offering whatever you need compared to other exam materials that malfunctioning in the market.

CWAP-404 Valid Exam Vce Free | CWAP-404 New Practice Questions

We always adhere to the principle of "mutual development and benefit", and we believe our CWAP-404 practice materials can give you a timely and effective helping hand whenever you need in the process of learning our CWAP-404 study braindumps. For we have been in this career over ten years and we are good at tracing the changes of the CWAP-404 guide prep in time and update our exam dumps fast and accurately.

CWNP CWAP-404 Exam Syllabus Topics:

Topic	Details
Topic 1	• PHY Layers and Technologies: In the topic, the CWAP-404 exam tests the understanding of a wireless network professional about the Physical (PHY) layer functions and technologies. Wireless analysts need to describe and apply knowledge of PHY headers, PPDUs, and other PHY-related data. This topic ensures that analysts are proficient in interpreting PHY information within protocol analyzers and can select appropriate capture devices for different PHY types.
Topic 2	• Frame Exchanges: The topic evaluates the skills of a wireless network professional in capturing, understanding, and analyzing various frame exchanges, including BSS discovery, joining, roaming, and data frames. The CWAP-404 Exam targets the ability of candidates to troubleshoot and resolve issues related to MAC layer operations, ensuring they can maintain robust and efficient WLAN communications.
Topic 3	• WLAN Medium Access: The exam evaluates the understanding of a wireless network professional about 802.11 contention algorithms and their impact on WLAN performance. The CWAP-404 exam requires candidates to analyze QoS configurations and operations.

Topic 4	• Spectrum Analysis: The topic assesses the ability of a wireless network professional to capture and interpret RF spectrum data. The exam targets the skills in identifying device signatures and RF issues through spectrum analyzers.

CWNP Certified Wireless Analysis Professional Sample Questions (Q159-Q164):

NEW QUESTION # 159
When using Wireshark for protocol analysis, what filter will allow you to see only beacon frames?

- A. wlan.fc.type_subtype = =0x04
- B. wlan.fc.type_subtype = =0x08
- C. wlan.fc.type_subtype = =0x0b
- D. wlan.fc.type_subtype = =0x05

Answer: B

NEW QUESTION # 160
What must occur before an HT STA operating in an EDCA BSS can transmit a data frame over the wireless medium? (Choose 3)

- A. The appropriate interframe space must expire.
- B. Its CCA must report that the medium is idle.
- C. The AP must issue the STA a TXOP.
- D. Its NAV must be equal to one.
- E. The backoff timer for the AC must equal zero.
- F. The STA must receive a BlockAck, resetting the NAV to zero.

Answer: A,B,E

NEW QUESTION # 161
Why would a STA that supports 802.11k Radio Measurement send a Neighbor Request to an AP?

- A. To inform the current AP about the STA's intent to roam to a neighboring AP, ensuring a seamless handover
- B. To request a list of neighboring STAs which enables the STA to better pick the right protection mechanisms
- C. To request a list of neighboring APs which the STA can use as roaming candidates
- D. To learn about neighboring interference sources and tune its RF radio accordingly

Answer: C

Explanation:
Explanation
A STA that supports 802.11k Radio Measurement would send a Neighbor Request to an AP to request a list of neighboring APs which the STA can use as roaming candidates. A Neighbor Request is an Action frame that contains a subelement specifying the type of information that the STA wants to receive from the AP. A Neighbor Report is an Action frame that contains a subelement with a list of neighboring APs that match the criteria specified in the Neighbor Request. The Neighbor Report provides information such as BSSID, channel, operating class, and PHY type of each neighboring AP. This information helps the STA to perform intelligent roaming decisions based on signal quality, load, and compatibility . NEW QUESTION # 162
An RST frame should be acknowledged by which frame?

- A. Ack
- B. RTS-Ack

- C. Block Ack
- D. CTS

Answer: D

Explanation:
An RTS (Request to Send) frame should be acknowledged by a CTS (Clear to Send) frame. An RTS and CTS frame are types of control frames that are used to implement a virtual carrier sense mechanism called RTS/CTS. RTS/CTS is a technique that helps to avoid collisions and hidden node problems in wireless transmissions. When a STA (station) wants to send a data frame, it first sends an RTS frame to the intended receiver, indicating the duration of the transmission. The receiver then responds with a CTS frame, also indicating the duration of the transmission. The other STAs in the vicinity hear either the RTS or the CTS frame and update their NAV (Network Allocation Vector) timers accordingly, deferring their access to the medium until the transmission is over. The sender then sends the data frame, followed by an ACK (Acknowledgement) frame from the receiver. The other options are not correct, as they are not used to acknowledge an RTS frame. An ACK frame is used to acknowledge a data frame, not an RTS frame. An RTS-Ack frame does not exist, as there is no such type of control frame in 802.11. A Block Ack (BA) frame is used to acknowledge multiple data frames in a single frame, not an RTS frame.

NEW QUESTION # 163

As it relates to a spectrum analyzer, complete the following sentence.
The _____ plot always displays the percentage of time (shown on the Y axis) that the overall RF power is a certain specified threshold (of amplitude) above the noise floor for a given frequency range (shown on the X axis).

- A. Swept Spectrogram
- B. SNR
- C. Interferer Count
- D. Real-Time FFT
- E. FFT Duty Cycle

Answer: E

NEW QUESTION # 164

......

Our product boosts varied functions to be convenient for you to master the CWAP-404 training materials and get a good preparation for the exam and they include the self-learning, the self-assessment, stimulating the exam and the timing function. We provide 24-hours online on CWAP-404 Guide prep customer service and the long-distance professional personnel assistance to for the client. If clients have any problems about our CWAP-404 study materials they can contact our customer service anytime.
