

Quiz Fortinet - FCP_FAZ_AD-7.4 - FCP - FortiAnalyzer 7.4 Administrator Updated New Test Notes

What's more, part of that RealVCE FCP_FAZ_AD-7.4 dumps now are free: https://drive.google.com/open?id=1Y106vZVYYBaMjAcrwo9zdX_d6xJWPgjU

It is worth mentioning that, the simulation test is available in our software version. With the simulation test, all of our customers will get accustomed to the FCP_FAZ_AD-7.4 exam easily, and get rid of bad habits, which may influence your performance in the real FCP_FAZ_AD-7.4 exam. In addition, the mode of FCP_FAZ_AD-7.4 learning guide questions and answers is the most effective for you to remember the key points. During your practice process, the FCP_FAZ_AD-7.4 Test Questions would be absorbed, which is time-saving and high-efficient. Considerate 24/7 service shows our attitudes, we always consider our candidates' benefits and we guarantee that our FCP_FAZ_AD-7.4 test questions are the most excellent path for you to pass the exam.

Fortinet FCP_FAZ_AD-7.4 Exam Syllabus Topics:

Topic	Details
Topic 1	• Device Management: Here, Fortinet network and security analysts are evaluated on their ability to handle devices linked to FortiAnalyzer. This includes adding new devices, managing them efficiently, and troubleshooting communication issues.
Topic 2	• Administration: This section evaluates the ability of network and security analysts to configure administrative access and manage Administrative Domains (ADOMs). It covers tasks such as setting user permissions, managing backups, and disk quotas, and ensuring secure and efficient management of administrative privileges within FortiAnalyzer systems.

Topic 3	• Logs and Reports Management: This part of the exam measures the candidate's ability to handle log data and generate reports using FortiAnalyzer. Network and security analysts must show proficiency in managing, analyzing, and reviewing logs to ensure effective system monitoring and auditing processes are in place.
Topic 4	• System Configuration: This section assesses the capabilities of network and security analysts in managing FortiAnalyzer systems. It includes tasks like performing initial configurations, setting up high-availability systems, and configuring RAID for storage.

Free PDF 2025 Fantastic Fortinet New FCP_FAZ_AD-7.4 Test Notes

RealVCE can not only save you valuable time, but also make you feel at ease to participate in the exam and pass it successfully. RealVCE has good reliability and a high reputation in the IT professionals. You can free download the part of Fortinet FCP_FAZ_AD-7.4 exam questions and answers RealVCE provide as an attempt to determine the reliability of our products. I believe you will be very satisfied of our products. I have confidence in our RealVCE products that soon RealVCE's exam questions and answers about Fortinet FCP_FAZ_AD-7.4 will be your choice and you will pass Fortinet certification FCP_FAZ_AD-7.4 exam successfully. It is wise to choose our RealVCE and RealVCE will prove to be the most satisfied product you want.

Fortinet FCP - FortiAnalyzer 7.4 Administrator Sample Questions (Q145-Q150):

NEW QUESTION # 145

Which two statements about FortiAnalyzer operating modes are true? (Choose two.)

- A. Analyzer mode is the default operating mode.
- **B. When in collector mode, FortiAnalyzer offloads the log receiving task to the analyzer.**
- C. When in analyzer mode, FortiAnalyzer supports event management and reporting features.
- **D. For the collector, you should allocate most of the disk space to analytics logs.**

Answer: B,D

Explanation:

The default operating mode for FortiAnalyzer is analyzer mode. In this mode, FortiAnalyzer provides full functionality for event management and reporting features. This mode is intended for environments where comprehensive analysis and reporting are required. It allows FortiAnalyzer to collect, analyze, and store logs, as well as generate reports and manage events.

Reference: FortiAnalyzer 7.4.1 Administration Guide, "Operating modes" section.

NEW QUESTION # 146

Which command can you use to find the IP addresses of the devices sending logs to FortiAnalyzer?

- A. diagnose teat application miglogd 6
- **B. diagnose debug application oftpd 8**
- C. diagnose best application oftpd 3
- D. diagnose dvm adorn List

Answer: B

Explanation:

diagnose debug application oftpd 8 - This command is used for debugging OFTP (Open File Transfer Protocol), which is related to log transfer processes in FortiAnalyzer. The level "8" in this command suggests very detailed and verbose output, which can include IP addresses but might also include extensive additional data, which could be overwhelming and not specifically targeted to simply finding IP addresses.

diagnose debug application oftpd 3 - Similar to option A, this command also debugs the OFTP process but at a debug level of "3", which typically provides more focused and concise output compared to level "8".

This can be useful for viewing connection-related information, including which devices are connecting and their IP addresses. Based on this understanding, the most appropriate command to use for finding the IP addresses of devices sending logs to FortiAnalyzer, especially if you're looking for a clear and not overly verbose output, would be: D. diagnose debug application oftpd 3 This command will provide the necessary debugging information about the log transmission protocol, likely including the IP addresses of the devices involved in log sending, making it a suitable choice for this specific query.

NEW QUESTION # 147

What remote authentication servers can you configure to validate your FortiAnalyzer administrator logons? (Choose three)

- A. PKI
- B. RADIUS
- C. TACACS+
- D. Local
- E. LDAP

Answer: B,C,E

NEW QUESTION # 148

Which two statements are true regarding fabric connectors? (Choose two.)

- A. Using fabric connectors is more efficient than third-party polling information from the FortiAnalyzer API
- B. Fabric connectors allow you to save storage costs and improve redundancy.
- C. The storage connector service does not require a separate license to send logs to the cloud platform.
- D. Cloud-out connectors allow you to send real-time logs to public cloud accounts like Amazon S3.

Answer: A,B

Explanation:

Using fabric connectors is more efficient than third-party polling information from the FortiAnalyzer API - Fabric connectors are designed to integrate directly with the security fabric components and other services, which allows them to operate more efficiently compared to using third-party applications to poll information via APIs. APIs often involve more overhead due to the need for frequent polling and data retrieval operations, which can be resource-intensive.

Cloud-out connectors allow you to send real-time logs to public cloud accounts like Amazon S3. - Cloud-out connectors are specifically designed to facilitate the direct and real-time transfer of logs and other data to cloud services like Amazon S3. These connectors streamline the process by providing a built-in mechanism that bypasses the need for additional scripting or manual configuration.

NEW QUESTION # 149

You are using RAID with a FortiAnalyzer that supports software RAID, and one of the hard disks on FortiAnalyzer has failed. What is the recommended method to replace the disk?

- A. Downgrade your RAID level, replace the disk, and then upgrade your RAID level
- B. Clear all RAID alarms and replace the disk while FortiAnalyzer is still running
- C. Shut down FortiAnalyzer and then replace the disk
- D. Perform a hot swap

Answer: C

Explanation:

<https://community.fortinet.com/t5/FortiAnalyzer/Technical-Note-How-to-swap-Hard-Disk-on-FortiAnalyzer/ta-p/194997?externalID=FD41397#:~:text=If%20a%20hard%20disk%20on,process%20known%20as%20hot%20swapping>

NEW QUESTION # 150

.....

The great advantage of our FCP_FAZ_AD-7.4 study prep is that we offer free updates for one year long. On one hand, these free updates can greatly spare your money since you have the right to free download FCP_FAZ_AD-7.4 real dumps as long as you need to. On the other hand, we offer this after-sales service to all our customers to ensure that they have plenty of opportunities to successfully pass their FCP_FAZ_AD-7.4 Actual Exam and finally get their desired certification of FCP_FAZ_AD-7.4 practice materials.
