We have applied the latest technologies to the design of our H19-338-ENU test prep not only on the content but also on the displays. As a consequence you are able to keep pace with the changeable world and remain your advantages with our H19-338-ENU training materials. Besides, you can consolidate important knowledge of H19-338-ENU Exam for you personally and design customized study schedule or to-do list on a daily basis. The last but not least, our after-sales service can be the most attractive project in our H19-338-ENU guide torrent.

The HCSP-Storage certification exam is suitable for IT professionals who work with Huawei storage solutions or plan to do so in the future. H19-338-ENU exam covers a broad range of topics, including the Huawei storage system architecture, provisioning and configuring storage resources, data protection and management, and troubleshooting common storage issues. H19-338-ENU exam is available in English and Chinese languages and can be taken at any Huawei authorized testing center worldwide.

Huawei H19-338-ENU certification exam is an essential requirement for professionals seeking to enhance their career prospects in the storage technology field. H19-338-ENU exam covers a wide range of topics related to storage technology and evaluates the candidate's ability to design, implement, and manage storage solutions in a complex environment. Candidates with some experience in the field of storage technology are recommended to attempt H19-338-ENU Exam.

Huawei H19-338-ENU (HCSP-Storage) certification exam covers a wide range of topics related to Huawei storage products and solutions, including basic principles of storage, Huawei storage product architecture, configuration and management of Huawei storage products, backup and disaster recovery solutions, and troubleshooting of Huawei storage products. Candidates will also be required to demonstrate their knowledge of industry-standard protocols and technologies related to storage, such as Fibre Channel, iSCSI, NAS, SAN, RAID, and Storage Virtualization. HCSP-Presales-Storage certification exam is based on multiple-choice questions and requires a passing score of at least 600 out of 1000.

100% Pass Quiz Huawei - H19-338-ENU Newest New Practice Materials

The price of the H19-338-ENU test dumps is quite reasonable, no matter you are the students or the employees of the enterprise, you can afford it. H19-338-ENU test dumps are verified by the specialists of the business, therefore the quality is ensured. Pass guarantee and money back guarantee for purchasing the H19-338-ENU Test Dumps. Other questions or problem of the product can consult the live chat service staff or by email, we will reply you immediately.

Huawei HCSP-Presales-Storage Sample Questions (Q100-Q105):

NEW QUESTION # 100

Which of the following switches Goes not support iStack?

- A. S5731-H
- B. S5735-S
- C. S1730S-H
- D. S5732-H

Answer: C

Explanation:

Explanation

The switch that does not support iStack is S1730S-H. This is because the S1730S-H does not have any stack ports or support stack cards. The iStack technology allows multiple switches to be connected and managed as a single logical device, which improves network scalability and reliability.

NEW QUESTION # 101

The system availability is 99.999%, indicating that the annual interruption time of the storage array is about 5 minutes.

- A. True
- B. False

Answer: A

NEW QUESTION # 102

RAID2.0+ is a block-based virtualization technology. Disks are divided into CKs and CKGs form RAID groups. Therefore, compared with traditional RAID, RAID2.0+ does not require hot spare disks or hot spare space.

- A. True
- B. False

Answer: B

NEW QUESTION # 103

Which of the following spatial stream combinations are supported by Huawei AirEngine 6760 series after an RTU license is purchased?

- A. 4+6
- B. 4+4+scanning
- C. 4+6+scanning
- D. 4+8
- E. 4+8+4
- F. 4+4+4

Answer: B,C,D,E

Explanation:

Explanation

Huawei AirEngine 6760 series supports four spatial streams by default, but after an RTU (Right To Use) license is purchased, it can support up to eight spatial streams on the 5 GHz band. It can also support four spatial streams on the 2.4 GHz band or scanning mode. Therefore, the possible spatial stream combinations are 4+8, 4+8+4, 4+4+scanning, and 4+6+scanning.

NEW QUESTION # 104

Which technologies can reduce write I/O latency in long-distance active-active scenarios? (Multiple choice)

- A. FastWrite
- B. Gateway-free design

- Answer: A,B,D**
