Quiz Huawei - Reliable H19-102_V2.0 - HCSA-Sales- Transmission & Access V2.0 Online Bootcamps

P.S. Free & New H19-102_V2.0 dumps are available on Google Drive shared by ITexamReview: https://drive.google.com/open?id=1eA8KcFZAI7p4vjn54Qztq2audsbmJ880

Now we live in a highly competitive world. If you want to find a decent job and earn a high salary you must own excellent competences and rich knowledge. Under this circumstance, owning a H19-102_V2.0 guide torrent is very important because it means you master good competences in certain areas and can handle the job well. The H19-102_V2.0 exam prep we provide can help you realize your dream to pass exam and then own a H19-102_V2.0 exam torrent. ITexamReview provide high pass rate materials that are compiled by experts with profound experiences according to the latest development in the theory and the practice so they are of great value. Please firstly try out our H19-102_V2.0 Exam Materials demo before you decide to buy our product. It is worthy for you to buy our H19-102_V2.0 exam preparation not only because it can help you pass the exam successfully but also because it saves your time and energy.

To pass the Huawei H19-102_V2.0 exam, individuals must have a good understanding of transmission and access network products and technologies, as well as the ability to apply this knowledge to solve real-world problems. They must also have strong sales skills and be able to communicate effectively with customers to understand their needs and recommend the most suitable products and solutions. H19-102_V2.0 exam is a valuable certification for individuals who are looking to advance their career in the field of transmission and access network sales and can help them stand out in a competitive job market.

Huawei H19-102_V2.0 exam covers a wide range of topics related to network transmission and access, including Huawei transmission and access products, network architecture, network planning and design, sales skills, and customer service. H19-

102_V2.0 Exam is suitable for sales professionals who are involved in selling Huawei transmission and access products to customers, including sales representatives, sales managers, and account managers. Successful completion of the exam will provide the candidates with a valuable certification that demonstrates their knowledge and expertise in the field of network transmission and access.

Excellent H19-102_V2.0 Prep Guide is Best Study Braindumps for H19-102_V2.0 exam

The web-based HCSA-Sales-Transmission & Access V2.0 (H19-102_V2.0) practice exam can be accessed through online browsing anywhere just with a stable internet connection. So the applicants can take the H19-102_V2.0 practice exam with ease for the preparation for the H19-102_V2.0 Exam. All browsers and operating systems support the web-based H19-102_V2.0 practice exam. Users can access it without installing or downloading any excessive plugins or software.

Huawei HCSA-Sales-Transmission & Access V2.0 Sample Questions (Q15-Q20):

NEW QUESTION #15

How many OLT models are there in Huawei's OLT family?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: C

Explanation:

Huawei's OLT family (SmartAX series) includes models like EA5800-X17, X7, X2, and others, totaling at least 4 variants, per HCSA-Sales-Transmission & Access, making A correct.

NEW QUESTION #16

DC908 key feature: Capacity is 47% higher than the industry average, the power consumption is 35% lower than the industry average.

- A. FALSE
- B. TRUE

Answer: B

Explanation:

The OptiXtrans DC908's specifications in HCSA-Sales-Transmission & Access highlight:

Capacity 47% higher: DC908's 88T/fiber exceeds the industry average (around 60T/fiber), a \sim 47% increase, as derived from documented comparisons.

Power consumption 35% lower: At 0.13 W/G vs. the industry's 0.2 W/G, it achieves a 35% reduction.

Both claims align with DC908's key features, making the statement TRUE.

NEW QUESTION #17

Which of the following are advantages of self-built DCI?

- A. High Efficient O&M
- B. Guaranteed Quality
- C. Service Rollout on Time

Answer: A,C

Explanation:

A self-built Data Center Interconnect (DCI) provides several advantages:

#High Efficient O&M - With self-built DCI, enterprises have full control over network monitoring, fault management, and performance optimization, reducing dependency on external providers.

#Service Rollout on Time - Unlike leased lines, a self-built DCI network allows rapid service deployment without waiting for telecom operators, improving efficiency.

#Guaranteed Quality - While a self-built network offers more control, it does not always guarantee quality compared to carrier-grade leased lines with SLAs (Service Level Agreements).

Thus, the correct answer is A and C.

NEW QUESTION #18

Commissioning within 8 minutes:

Plug and play: no need for network planning, and automatic deployment without professional skill requirements. Simplest connection: Integrated design reduces 90%+ internal fiber connections at the optical layer.

- A. FALSE
- B. TRUE

Answer: B

Explanation:

Huawei's Campus OptiX solution supports fast deployment and commissioning within 8 minutes due to the following features: #Plug and Play - No complex network planning required, as the system automatically detects and configures devices. #Automatic Deployment - Uses centralized management (eSight/WebGUI) to deploy network services without professional skills. #90% Fewer Fiber Connections - The integrated OLT and optical splitters significantly reduce fiber splicing and cabling complexity. Thus, the correct answer is TRUE.

NEW QUESTION #19

What is the network topology in PON technology?

- A. P2P (Point-to-Point)
- B. P2MP (Point-to-Multipoint)

Answer: B

Explanation:

Passive Optical Networks (PON) use a Point-to-Multipoint (P2MP) topology where a single Optical Line Terminal (OLT) connects to multiple Optical Network Units (ONUs) or Optical Network Terminals (ONTs) using passive splitters.

 $\# Efficient\ Bandwidth\ Sharing\ \textbf{-}\ A\ single\ fiber\ from\ the\ OLT\ is\ split\ among\ multiple\ users,\ reducing\ fiber\ deployment\ costs.$

#Scalable and Cost-Effective - Supports higher user density with minimal fiber usage.

Since PON does not follow a Point-to-Point (P2P) model, the correct answer is P2MP.

NEW QUESTION #20
