

Quiz Oracle - 1Z0-1067-25 - Oracle Cloud Infrastructure 2025 Cloud Ops Professional–Efficient Valid Guide Files

P.S. Free & New 1Z0-1067-25 dumps are available on Google Drive shared by RealVCE: https://drive.google.com/open?id=10UE3NFw9ugG3lj8v_hAr5OwUu6yQrCZD

If you possess a certificate, it can help you enter a better company and improve your salary. 1Z0-1067-25 exam braindumps of us will help you obtain your certificate successfully. We are a professional certificate exam materials provider, and we have rich experiences in offering high-quality exam materials. In addition, we have a professional team to collect and research the latest information for 1Z0-1067-25 Exam Dumps. We offer you free update for 365 days, so that you can obtain the latest information for the exam. And the latest version for 1Z0-1067-25 exam braindumps will be sent to your email automatically.

Oracle 1Z0-1067-25 Exam Syllabus Topics:

Topic	Details
Topic 1	Utilizing Configuration Management Tools: This section of the exam measures the skills of the target audience] and focuses on configuring cloud resources efficiently. It covers the use of configuration management tools for automating resource setup and cloud-init for initializing compute instances, ensuring proper configuration from the start.
Topic 2	Implementing Observability: This section of the exam focuses on monitoring and maintaining cloud infrastructure. It covers implementing Metric Query Language (MQL) for analyzing performance data, setting up alarms and notifications for system events, and performing health checks to ensure the stability of cloud services.
Topic 3	Deploying and Managing Resources: This section of the exam covers the deployment and management of core OCI services. It focuses on manual provisioning, using the OCI Command Line Interface (CLI) for managing resources, and utilizing infrastructure as code to create consistent and repeatable deployments.
Topic 4	Managing Identity and Security: This section of the exam focuses on securing cloud environments. It includes implementing security best practices for tenancy, managing encryption keys and secrets, and enforcing least-privilege access control policies to protect sensitive resources.
Topic 5	Implementing Reliability and Business Continuity: This section of the exam focuses on ensuring system reliability and continuity. It covers implementing scalability and elasticity for handling workload demands, automating failover mechanisms for high availability, and applying data retention strategies for long-term storage and recovery.

Latest 1Z0-1067-25 Valid Guide Files by RealVCE

Of course, when we review a qualifying exam, we can't be closed-door. We should pay attention to the new policies and information related to the test 1Z0-1067-25 certification. For the convenience of the users, the 1Z0-1067-25 test materials will be updated on the homepage and timely update the information related to the qualification examination. Annual qualification examination, although content broadly may be the same, but as the policy of each year, the corresponding examination pattern grading standards and hot spots will be changed, as a result, the 1Z0-1067-25 Test Prep can help users to spend the least time, you can know the test information directly what you care about on the learning platform that provided by us, let users save time and used their time in learning the new hot spot concerning about the knowledge content.

Oracle Cloud Infrastructure 2025 Cloud Ops Professional Sample Questions (Q19-Q24):

NEW QUESTION # 19

Which is the correct monitoring query that will monitor the CPU utilization threshold including an alarm?

- A. `CpuUtilization[1m].max()`
- B. `CpuUtilization[1m].max().grouping().sum()`
- C. `(CpuUtilization[1m].max() > 80).grouping().sum()`
- D. `CpuUtilization[1m]{shape = "VM.Standard.E4.Flex"}.max()`

Answer: C

NEW QUESTION # 20

(CHK) Your company recently adopted a hybrid cloud architecture which requires them to migrate some of their on-premises web applications to Oracle Cloud Infrastructure (OCI). You created a Terraform template which automatically provisions OCI resources such as compute instances, load balancer, and a database instance. After running the stack using the terraform apply command, it successfully launched the compute instances and the load balancer, but it failed to create a new database instance with the following error: Service error: NotAuthorizedOrNotFound. shape VM.Standard2.4 not found. http status code: 404 You discovered that the resource quotas assigned to your compartment prevent you from using VM.Standard2.4 instance shapes available in your tenancy. You edit the Terraform script and replace the shape with VM.Standard2.2 Which option would you recommend to re-run the terraform command to have required OCI resources provisioned with the least effort? (Choose the best answer.)

- A. `terraform refresh target=oci_database_db_system.db_system`
- B. `terraform apply target=oci_database_db_system.db_system`
- C. `terraform apply auto-approve`
- D. `terraform plan target=oci_database_db_system.db_system`

Answer: B

NEW QUESTION # 21

Your company hosts a web application on OCI using compute instances and block volumes. To minimize your recovery point objective (RPO), you enable cross-region block volume replication for the block volumes. Which option is true regarding cross-region volume replication?

- A. Replication is synchronous, so it may slightly degrade block volume performance.
- B. Replication replaces the need for block volume backups.
- C. The cost of the replica matches the cost of the source volume; for example, the replica of a high-performance volume will be billed at the high-performance rate.
- D. The replica cannot be directly mounted on a compute instance. Instead, it must be activated, creating a clone that will be available for mounting.

Answer: D

NEW QUESTION # 22

You have created the following JSON file to specify a lifecycle policy for one of your object storage buckets:

```

{
  "name": "Archive LOGS",
  "action": "ARCHIVE",
  "objectNameFilter": {
    "inclusionPrefixes": [
      "LOGS"
    ]
  },
  "timeAmount": 30,
  "timeUnit": "DAYS",
  "isEnabled": true
},
{
  "name": "DELETE_LOGS",
  "action": "DELETE",
  "objectNameFilter": {
    "inclusionPrefixes": [
      "LOGS"
    ]
  },
  "timeAmount": 120,
  "timeUnit": "DAYS",
  "isEnabled": true
}
}

```

How will this policy affect the objects that are stored in the bucket? (Choose the best answer.)

- A. The objects with prefix LOGS will be deleted 30 days after creation date.
- B. Objects containing the name prefix LOGS will be automatically migrated from standard Storage to Archive storage 30 days after the creation date. The object will be mi-grated back to standard Storage 120 days after creation.
- C. Objects with the prefix LOGS will be retained for 120 days and then deleted permanently.
- D. Objects containing the name prefix LOGS will be automatically migrated from standard Storage to Archive storage 30 days after the creation date. The object will be deleted 120 days after creation.

Answer: D

NEW QUESTION # 23

A developer has created a file system in the Oracle Cloud Infrastructure (OCI) File Storage service. She then launches an Oracle Linux compute instance and mounts the file system successfully on this instance. The next day, she tries writing to the file system from the compute instance using the following command: `touch /mnt/yourmountpoint/helloworld.txt` But receives an error message: `touch: cannot touch '/mnt/yourmountpoint/helloworld.txt': Permission denied` What might be the reason for this error?

- A. User is connecting as the default Oracle Linux user `opc` instead of the root user.
- B. Service limits or quota for file system writes have been breached.
- C. The `touch` command is not available in Oracle Linux, by default.
- D. User is not part of any OCI Identity and Access Management (IAM) group with write permissions to the File Storage service.

Answer: A

NEW QUESTION # 24

.....

Our 1Z0-1067-25 exam dumps are required because people want to get succeed in IT field by clearing the certification exam. Passing 1Z0-1067-25 practice exam is not so easy and need to spend much time to prepare the training materials, that's the reason
