

Quiz Oracle - 1Z0-1195-25 - Fantastic Latest Oracle Data Platform 2025 Foundations Associate Exam

BONUS!!! Download part of PDFVCE 1Z0-1195-25 dumps for free: https://drive.google.com/open?id=1q7Q_ubC0HPfE4F9CRued_22pOG0eGhBv

The PDFVCE is one of the top-rated and trusted platforms that are committed to making the Oracle 1Z0-1195-25 exam preparation simple, easy, and quick. To achieve this objective the PDFVCE is offering valid, updated, and easy-to-use Oracle 1Z0-1195-25 Exam Practice test questions in three different formats. These three formats are Oracle 1Z0-1195-25 exam practice test questions PDF dumps, desktop practice test software, and web-based practice test software.

The questions of our 1Z0-1195-25 guide questions are related to the latest and basic knowledge. What's more, our 1Z0-1195-25 learning materials are committed to grasp the most knowledgeable points with the fewest problems. So 20-30 hours of study is enough for you to deal with the exam. When you get a 1Z0-1195-25 certificate, you will be more competitive than others, so you can get a promotion and your wages will also rise your future will be controlled by yourselves.

2025 Latest 1Z0-1195-25 Examprep Pass Certify | Reliable Online 1Z0-1195-25 Bootcamps: Oracle Data Platform 2025 Foundations Associate

Budget-friendly 1Z0-1195-25 study guides have been created by PDFVCE because the registration price for the Oracle 1Z0-1195-25 exam is already high. You won't ever need to look up information in various books because our Oracle 1Z0-1195-25 Real Questions are created with that in mind. We provide 365 days free upgrades.

Oracle 1Z0-1195-25 Exam Syllabus Topics:

Topic	Details
Topic 1	Autonomous Database and Tools: This section evaluates the expertise of Database Administrators and Cloud Engineers in working with Oracle Autonomous Database (ADB). It includes provisioning ADB instances, scaling CPU and storage, starting and stopping databases, and using tools to load data into ADB effectively.
Topic 2	Upgrades and Migrations: This section tests the knowledge of Migration Specialists and Cloud Architects in planning cloud migrations. It includes various migration strategies to OCI, as well as upgrade options for transitioning existing databases to newer versions or cloud environments.
Topic 3	Data Lake, Data Warehouse, and Machine Learning: This section evaluates the expertise of Data Scientists and Big Data Engineers in understanding UCI's Data Lakehouse architecture, Oracle Machine Learning capabilities, and Data Mesh architecture for managing distributed data environments.

Topic 4	• Data Management Introduction: This section of the exam measures the skills of Data Architects and Cloud Database Specialists in understanding Oracle's data management strategy. It covers Oracle's database offerings, deployment options, and multi-cloud and hybrid cloud solutions for managing data using Oracle Cloud Infrastructure.
Topic 5	• MySQL and NoSQL: This section measures the skills of Database Developers and Data Engineers in working with Oracle MySQL HeatWave Database Service. It focuses on their features and uses cases for modern application development.
Topic 6	• Exadata and DBCS: This section tests the knowledge of Exadata Specialists and Database Administrators in understanding Exadata deployment options, lifecycle management tasks such as patching and backup, and the features of Oracle Base Database Service (DOracle NoSQL Database ServiceBCS).
Topic 7	• Developing on Oracle Database: This section measures the skills of Application Developers and DevOps Engineers in managing Autonomous Databases using REST APIs, Oracle's data toolset, low-code development with APEX, and CI • CD processes for database tools and APEX applications.

Oracle Data Platform 2025 Foundations Associate Sample Questions (Q46-Q51):

NEW QUESTION # 46

Which command for the MySQL Data Service will resume OCPU billing?

- A. Backup
- B. Stop
- **C. Start**
- D. Restart

Answer: C

Explanation:

For the "MySQL Database Service," the "Start" command (A) resumes OCPU billing, as it activates the database instance, incurring compute costs. "Stop" (B) halts billing by suspending the instance, "Restart" (C) is a stop-then-start sequence, and "Backup" (D) affects storage, not OCPU billing. Oracle's MySQL Service documentation ties billing to the Start command.

NEW QUESTION # 47

Which statement is not the responsibility of the customer in a simple cloud management model?

- A. Everything inside of the database
- B. Subscribe to database servers
- **C. Manage database servers and VM hosts**
- D. Control access to customer VMs

Answer: C

Explanation:

In a simple cloud management model (e.g., Autonomous Database), "Manage database servers and VM hosts" (A) is not the customer's responsibility; Oracle handles infrastructure management. Customers "Subscribe to database servers" (B), manage "Everything inside of the database" (C) like data and schemas, and "Control access to customer VMs" (D) where applicable. Oracle's shared responsibility model delegates server and host management to the provider.

NEW QUESTION # 48

What self-service tools are available with the Autonomous Database?

- **A. Low-Code App Dev, APEX**

- B. Encryption only in Object Storage
- **C. Oracle Machine Learning**
- D. Business Objects

Answer: A,C

Explanation:

The "Autonomous Database" offers self-service tools like "Oracle Machine Learning" (B), enabling users to build ML models directly in the database, and "Low-Code App Dev, APEX" (C), allowing rapid application development via Oracle APEX. "Business Objects" (A) is a third-party BI tool, not native to ADB, and "Encryption only in Object Storage" (D) is a feature, not a tool, and inaccurate (encryption is broader). Oracle's documentation highlights OML and APEX as key self-service capabilities.

NEW QUESTION # 49

Which statements are true about built-in SQL Worksheet and Notebook? (Choose two)

- A. Based on Apache Tomcat
- B. Need to install client query tool for the PL/SQL
- **C. No need to install a client query tool**
- **D. Quickly start running queries with built-in web-based notebooks**

Answer: C,D

Explanation:

The "built-in SQL Worksheet and Notebook" (e.g., in Autonomous Database's Database Actions) have two true statements: "No need to install a client query tool" (C), as it's web-based and accessible via browser, and "Quickly start running queries with built-in web-based notebooks" (D), enabling immediate SQL execution. "Based on Apache Tomcat" (A) is not specified in documentation, and "Need to install client query tool for the PL/SQL" (B) is false due to its integrated nature. Oracle's documentation confirms these web-based features.

NEW QUESTION # 50

Which feature allows you to logically group and isolate your Oracle Cloud Infrastructure resources?

- A. Tenancy
- B. Availability Domain
- C. Identity and Access Management Groups
- **D. Compartments**

Answer: D

Explanation:

"Compartments" (B) in Oracle Cloud Infrastructure (OCI) allow you to logically group and isolate resources for organization, access control, and billing. "Identity and Access Management Groups" (A) organize users, not resources. "Tenancy" (C) is the root container for all resources, not a grouping mechanism, and "Availability Domain" (D) is a physical data center division, not a logical grouping tool. Oracle's OCI documentation identifies Compartments as the primary feature for resource isolation and management.

NEW QUESTION # 51

.....

It is not hard to find that there are many different kinds of products in the education market now. It may be difficult for users to determine the best way to fit in the complex choices. We can tell you with confidence that the 1Z0-1195-25 practice materials are superior in all respects to similar products. First, users can have a free trial of 1Z0-1195-25 test prep, to help users better understand the 1Z0-1195-25 Study Guide. If the user discovers that the product is not appropriate for him, the user can choose another type of learning material. Respect the user's choice, will not impose the user must purchase the 1Z0-1195-25 practice materials. We can meet all the requirements of the user as much as possible, to help users better pass the qualifying exams.
