Salesforce Heroku-Architect Practice Test Can be Helpful in Exam Preparation

If you choose to register Salesforce Heroku-Architect certification exam, you must try to get the Heroku-Architect certification. If you are apprehensive of defeat, you can select RealExamFree Salesforce Heroku-Architect dumps. No matter what your qualification and your ability are, you can grasp these knowledge easily. RealExamFree Salesforce Heroku-Architect Test Questions and answers is the latest. We provide you with free update for one year. After using it, you will make a difference.

Salesforce Certified Heroku Architect Sample Questions (Q141-Q146):

NEW QUESTION # 141

Technicians earn certifications that must be renewed periodically to ensure their skills remain up-to-date. How can these certifications be managed on the Resource?

- A. Add the Resource Skill and create Absence once expired
- **B. Add the Resource Skill and set the End Date.**
- C. Add the Resource Skill and track certification using reminder.
- D. Add the Resource Skill and remove from the Service Territory once expired

Answer: B

NEW QUESTION # 142

Universal Containers (UC) uses Apache Kafka on Heroku to stream shipment inventory data in real time throughout the world. A Kafka topic is used to send messages with updates on the shipping container GPS coordinates as they are in transit. UC is using a Heroku Kafka basic-0 plan. The topic was provisioned with 8 partitions, 1 week of retention, and no compaction. The keys for the events are being assigned by Heroku Kafka, which means that they will be randomly distributed between the partitions.

UC has a single-dyno consumer application that persists the data to their Enterprise Data Warehouse (EDW).

Recently, they've been noticing data loss in the EDW.

What should an Architect with Kafka experience recommend?

- A. Upgrade to a larger Apache Kafka for Heroku plan, which has greater data capacity.
- **B. Use Heroku Redis to store message receipt information to account for "at-least" once delivery, which will guarantee that messages are never processed more than once. Scale up the consumer dynos to match the number of partitions so that there is one process for each partition.**
- C. Enable compaction on the topic to drop older messages, which will drop older messages with the same key.

Answer: B

NEW QUESTION # 143

Universal Containers utilizes two contractors, Contractor 1 and Contractor 2, to perform repair work. Contractor 1 has provided service longer for Universal Containers and is considered to have more repair work expertise than Contractor 2.

How should a Consultant configure this expertise for Contractor 1 versus Contractor 2?

- A. Assign Contractor 1 as a Preferred Resource.
- B. Assign Contractor 1 and 2 different capacities for repair work
- **C. Assign Contractor 1 and 2 different Skill Levels for repair Work Type.**
- D. Assign Contractor 2 as an Excluded Resource

Answer: C

NEW QUESTION # 144

A customer needs to test a database schema migration. Which approach should an Architect recommend?

- A. Place the app into maintenance mode, and then perform the tests
- B. Create a follower database, and run the migration and test against the follower database
- **C. Fork the production database, and run the migration and tests against the fork**
- D. Detach the Heroku Postgres add-on, and run the migration and tests against the database.

Answer: C
