#### NEW QUESTION # 16

What is one of WalkMe's differentiators when compared to other Digital Adoption Platforms (DAP)?

- A. Ability to operate without integrating into other software
- B. Offering a combination of guidance tools and actionable analytics
- C. Limited scalability for smaller businesses
- D. Exclusive focus on customer experience workflows

**Answer: B**

Explanation:

The correct answer is:

A . Offering a combination of guidance tools and actionable analytics ☐ Why this matters WalkMe stands out among Digital Adoption Platforms (DAPs) by not only providing in-app guidance-such as walkthroughs, tooltips, and task lists-but also delivering actionable insights through analytics. This powerful combination empowers organizations to both guide users and continuously optimize adoption using real-world usage data.

Why the other options don't apply

\* B. Limited scalability for smaller businesses

☐ This is a limitation, if anything-not a differentiator or benefit.

\* C. Exclusive focus on customer experience workflows

☐ WalkMe supports a wide array of use cases, including employee onboarding, IT, finance, and more- not just customer workflows.

\* D. Ability to operate without integrating into other software

☐ WalkMe overlays onto existing applications and integrates deeply-it doesn't operate in isolation.

☐ Final Answer: A. Offering a combination of guidance tools and actionable analytics.

### NEW QUESTION # 17

What is the primary purpose of WalkMe's Digital Adoption Platform (DAP)?

- A. To automate recruitment processes
- B. To implement advanced hardware solutions

Which market trend is most relevant to driving adoption for tools like WalkMe?

- A. Increasing investment in physical retail stores
- **B. Global movement towards digital transformation**
- C. Rising popularity of traditional employee training methods
- D. Preference for local software providers

**Answer: B**

Explanation:

The market trend most relevant to driving adoption for tools like WalkMe is:

☐ B. Global movement towards digital transformation

☐ Why It Matters

\* The worldwide shift toward digital transformation is the primary catalyst making Digital Adoption Platforms (DAPs) essential- organizations must ensure their tools are not just implemented, but also fully adopted by users.

\* WalkMe specifically addresses the "digital adoption gap" where companies invest heavily in digital tools but struggle to achieve actual usage-costing millions in productivity and ROI losses.

☐ Why the others aren't relevant

\* A. Preference for local software providers - While regional tools play a role, the dominant trend is global digital transformation driving homogeneous adoption needs.

\* C. Rising popularity of traditional employee training methods - Traditional training is declining; digital, in-app guidance is gaining momentum.

\* D. Increasing investment in physical retail stores - This is unrelated to software adoption and digital change initiatives.

☐ Summary

\* The dominant market force fueling WalkMe's growth and adoption is the global digital transformation movement-organizations need to bridge the gap between digital investment and actual user engagement.

Final Answer: B. Global movement towards digital transformation.
