NEW QUESTION # 83
Which of the following characteristics relate to the Focused Build for SAP Solution Manager functionality?
Note: There are 2 correct answers to this question.

- **A. SAP delivers a standard solution without any additional coding required**
- B. SAP delivers a standard solution with its own separate license
- C. SAP delivers all configuration activities within your project
- **D. SAP delivers all knowledge required with the solution.**

Answer: A,D

Explanation:
* A is correct because SAP delivers all knowledge required with the solution as part of the Focused Build for SAP Solution Manager functionality. Focused Build provides pre-configured standard SAP Solution Manager features and processes, as well as additional build functions, such as requirements management, change request management, test management, and release management. Focused Build also provides best practices, methodologies, and templates to support the implementation of SAP solutions.
* C is correct because SAP delivers a standard solution without any additional coding required as part of the Focused Build for SAP Solution Manager functionality. Focused Build is a ready-to-run and integrated tool that enables customers to manage requirements and software development in large, agile projects. Focused Build does not require any additional coding or customization to use its features and functions. Verified References:
