

# Quiz Supermicro - Unparalleled SDLCSA - Reliable Supermicro Direct Liquid Cooling Service Associate (SDLCSA) Exam Braindumps Ppt

What's more, part of that ExamPrepAway SDLCSA dumps now are free: <https://drive.google.com/open?id=1B-aSwYspElyAeS4EenjUMmMQqEANzak8>

Furthermore, there are up to 12 months of free real Supermicro SDLCSA exam questions updates available at ExamPrepAway. In conclusion, if your goal is to pass the Supermicro SDLCSA exam on your first attempt, the ExamPrepAway platform is the ideal choice. With its comprehensive support and a money-back guarantee, as well as its expertly developed Supermicro SDLCSA Practice Exam, you can feel confident and prepare successfully for the Supermicro SDLCSA test.

Eliminates confusion while taking the Supermicro Direct Liquid Cooling Service Associate (SDLCSA) Exam exam. Prepares you for the format of your SDLCSA exam dumps, including multiple-choice questions and fill-in-the-blank answers. Comprehensive, up-to-date coverage of the entire SDLCSA curriculum. SDLCSA practice questions are based on recently released SDLCSA Exam Objectives. Includes a user-friendly interface allowing you to take the SDLCSA practice exam on your computers, like downloading the PDF, Web-Based SDLCSA practice test ExamPrepAway, and Desktop SDLCSA practice exam.

## SDLCSA Braindump Pdf | New SDLCSA Exam Fee

It is time for you to plan your life carefully. After all, you have to make money by yourself. If you want to find a desirable job, you must rely on your ability to get the job. Now, our SDLCSA training materials will help you master the popular skills in the office. With our SDLCSA Exam Braindumps, you can not only learn the specialized knowledge of this subject to solve the problems on the work, but also you can get the SDLCSA certification to compete for a higher position.

## Supermicro Direct Liquid Cooling Service Associate (SDLCSA) Exam Sample Questions (Q24-Q29):

NEW QUESTION # 24

Where is the air shroud located on the PCIe tray?

- A. On the top / center of the PCIe tray
- B. On the top / right side of the PCIe tray
- C. On the bottom of the PCIe tray
- D. On the top / left side of the PCIe tray

**Answer: A**

Explanation:

The air shroud on the PCIe tray in Supermicro systems like the SYS-421GE-TNHR2-LCC is positioned to optimize airflow or assist liquid cooling efficiency in hybrid setups. Per Supermicro's design (e.g., SYS-420GP-TNAR), the shroud is located on the top/center of the PCIe tray, covering the cards to direct cooling effectively across components. This central placement ensures even distribution, critical in DLC systems where air may still cool non-liquid-cooled parts. Options B and D (right/left) are less practical for uniform coverage, and A (bottom) contradicts standard shroud placement above components. Supermicro's DLC expertise integrates air shrouds strategically, making C the verified location. References: Supermicro PCIe tray diagrams, DLC solution design principles.

#### NEW QUESTION # 25

When removing the PCIe tray, where are the screws located and how many screws need to be loosened?

- A. There are 2 screws that need to be loosened, one on each side of the front of the PCIe tray
- B. There are 2 screws that need to be loosened, one on each side on the sides of the GPU tray
- C. There are 4 screws that need to be loosened, two on each side of the front of the PCIe tray
- D. There are 6 screws that need to be loosened, three on each side on the front of the PCIe tray

**Answer: C**

Explanation:

Removing the PCIe tray in the SYS-421GE-TNHR2-LCC requires loosening 4 screws, two on each side of the front, per Supermicro's standard tray removal (e.g., SYS-420GP-TNAR). This ensures secure detachment of the heavy, DLC-integrated tray. B (6 screws) is excessive, C misplaces screws to a GPU tray's sides, and D (2 screws) under-secures. Supermicro's DLC systems balance stability and serviceability, making A correct.

References: Supermicro PCIe tray removal guides, DLC system tray specs.

#### NEW QUESTION # 26

Where in the chassis are the internal fans and fan housing located?

- A. In the back of the PCIe tray
- B. In the back of the motherboard tray
- C. In the middle of the motherboard tray
- D. In the middle of the PCIe tray

**Answer: C**

Explanation:

In Supermicro systems like the SYS-421GE-TNHR2-LCC, internal fans and their housing are typically located in the middle of the motherboard tray, providing airflow across CPUs and memory, even in DLC setups where liquid cooling handles primary heat removal. This placement, seen in similar systems (e.g., SYS-420GP-TNAR), balances cooling distribution. A and B (PCIe tray) focus on GPU cooling, not motherboard fans, while C (back of motherboard tray) is less common due to PSU placement. Supermicro's DLC hybrid designs integrate fans centrally on the motherboard tray, making D correct. References: Supermicro chassis layouts, DLC hybrid cooling configurations.

#### NEW QUESTION # 27

How do you access the M.2 drive in the chassis?

- A. The M.2 drive is not accessible at all
- B. By removing the GPU tray from the chassis, then removing the air shroud from the GPU tray

- C. By removing the fan housing from the chassis, then removing the air shroud from the fan housing
- D. By removing the motherboard tray from the chassis, then removing the air shroud from the motherboard tray

**Answer: D**

Explanation:

In Supermicro systems like the SYS-421GE-TNHR2-LCC, M.2 drives are typically mounted on the motherboard for fast storage in high-performance computing (HPC) and AI workloads, often cooled indirectly by DLC systems. To access the M.2 drive, you must:

Remove the motherboard tray from the chassis: This exposes the motherboard where M.2 slots reside.

Remove the air shroud from the motherboard tray: The shroud covers components for airflow or hybrid cooling, and its removal provides access to the M.2 slot.

Option D aligns with Supermicro's design, as seen in manuals (e.g., SYS-420GP-TNAR), where M.2 drives are motherboard-mounted. A is incorrect since M.2 drives are serviceable; B (GPU tray) and C (fan housing) don't house M.2 drives in this context. Supermicro's DLC solutions prioritize motherboard accessibility, making D the correct procedure.

References: Supermicro motherboard tray manuals, DLC system component layouts.

**NEW QUESTION # 28**

What are the full steps and proper order for removing the LPIO board from the PCIe tray?

- A. Remove PCIe air shroud > Remove all AOC NIC cards > Remove metal bracket holding down LPIO board
- B. Remove GPU > Remove metal bracket holding down LPIO board > Remove 3 or 4 AOC NIC cards
- C. Remove metal bracket holding down LPIO board > Remove PCIe air shroud > Remove internal fans
- D. Remove a few AOC NIC cards > Remove PCIe tray > Remove motherboard tray

**Answer: A**

Explanation:

Removing the LPIO (Low-Profile IO) board from the PCIe tray in the SYS-421GE-TNHR2-LCC involves:

\* Remove PCIe air shroud: Clears access to components (standard in Supermicro designs).

\* Remove all AOC NIC cards: Disconnects cards on the LPIO board for unobstructed removal.

\* Remove metal bracket holding down LPIO board: Unscrews (typically 2 screws) the bracket securing the board. Option B follows Supermicro's logical service order (e.g., SYS-420GP-TNAR), ensuring safe access in DLC systems. A (GPU) is unrelated, C (tray removals) is excessive, and D (fans) is irrelevant. B aligns with Supermicro's DLC modularity, making it correct. References: Supermicro PCIe tray service guides, DLC system IO removal protocols.

**NEW QUESTION # 29**

.....

If you want to study SDLCSA certification exam and plan to pass exam one shot, ExamPrepAway exam braindumps will be your best assist. Purchasing valid SDLCSA exam dumps is not a cheap thing for some candidates in the internet since there is so much different advertisement. If you feel confused you can choose our SDLCSA Exam Dumps. We are sure about "pass Guaranteed" & "Money Back Guaranteed" so that you can feel safe and worry-free on our website.

**SDLCSA Braindump Pdf:** <https://www.examprepaway.com/Supermicro/braindumps.SDLCSA.ete.file.html>

Supermicro Reliable SDLCSA Braindumps Ppt License and Site Access The Company grants you a limited time license to access this site, to purchase the products and use the services offered by this site only for personal use, Supermicro Reliable SDLCSA Braindumps Ppt With all that said, I think you must be attracted by our products, The skills you urgently need can be obtained through our SDLCSA exam pass guide.

ExamPrepAway has prepared the hottest Supermicro SDLCSA dumps exam questions which will be very helpful for aspirants in a case when they have less preparation in Liquid Cooled Servers exam.

These two conditions are It is as follows, License and Site Access The Company SDLCSA grants you a limited time license to access this site, to purchase the products and use the services offered by this site only for personal use.

**Supermicro SDLCSA Dumps - Try Free SDLCSA Exam Questions and Answer**

With all that said, I think you must be attracted by our products, The skills you urgently needs can be obtained through our SDLCSA Exam Pass Guide, If you really intend to pass the SDLCSA exam, our software will provide you the fast and convenient learning and you will get the best study materials and get a very good preparation for the exam.

Candidates who don't find actual SDLCSA Questions remain unsuccessful in the Supermicro SDLCSA test and lose their resources.

- Supermicro SDLCSA PDF Questions  Download  SDLCSA   for free by simply searching on  [www.testsdumps.com](http://www.testsdumps.com)   SDLCSA Braindumps Torrent
- Exam SDLCSA Braindumps  SDLCSA Test Engine  Practice SDLCSA Exams Free  Search for  SDLCSA   and obtain a free download on  ([www.pdfvce.com](http://www.pdfvce.com))  SDLCSA Free Test Questions
