

# Quiz Updated 2V0-13.25 - VMware Cloud Foundation 9.0 Architect Latest Braindumps Pdf

[Pass VMware 2V0-13.25 Exam | Latest 2V0-13.25 Dumps & Practice Exams - Cert007](#)

1. Which Broadcom solutions are essential for achieving high-speed storage access in VMware?

- A. vSAN
- B. Broadcom RAID Controller
- C. Broadcom 25GbE Ethernet Adapter
- D. Broadcom NVMe SSD

**Answer:** B, D

**Explanation:**

Broadcom RAID Controllers and NVMe SSDs are essential for high-speed storage access in VMware environments.

2. Which Broadcom components are needed to ensure optimal storage reliability in VMware environments?

- A. Broadcom RAID Controller
- B. vSAN
- C. VMware Fault Tolerance
- D. Broadcom NVMe SSD

**Answer:** A

**Explanation:**

Broadcom RAID Controllers are necessary for ensuring optimal storage reliability in VMware environments.

3. Which Broadcom products are used to ensure high availability in VMware Cloud Foundation environments?

- A. Broadcom Ethernet adapters
- B. Broadcom Fibre Channel HBAs
- C. Broadcom RAID controllers
- D. Broadcom NVMe SSDs

**Answer:** B, C

**Explanation:**

Broadcom RAID controllers and Fibre Channel HBAs enhance high availability in VMware Cloud Foundation.

4. Which Broadcom components should be prioritized when planning a VMware cloud infrastructure that needs high scalability?

- A. vSAN
- B. vSphere HA
- C. Broadcom 25GbE Ethernet Adapter
- D. Broadcom NVMe SSD

**Answer:** A, C, D

**Explanation:**

Broadcom 25GbE Ethernet Adapters, vSAN, and NVMe SSDs contribute to building a scalable VMware cloud infrastructure.

5. Which Broadcom products are essential for enhancing network performance in VMware Cloud

2 / 5

Our 2V0-13.25 exam training developers to stand in the perspective of candidate, fully consider their material basis and actual levels of knowledge, formulated a series of scientific and reasonable learning mode, meet the conditions for each user to tailor their learning materials. What's more, our 2V0-13.25 guide questions are cheap and cheap, and we buy more and deliver more. The more customers we buy, the bigger the discount will be. In order to make the user a better experience to the superiority of our 2V0-13.25 Actual Exam guide, we also provide considerate service, users have any questions related to our study materials, can get the help of our staff in a timely manner.

## VMware 2V0-13.25 Exam Syllabus Topics:

| Topic | Details |
|-------|---------|
|       |         |

|         |   |
|---------|---|
| Topic 1 | <ul style="list-style-type: none"> <li>• <b>Plan and Design the VMware Solution:</b> This section measures the skills of Cloud Infrastructure Designers. It focuses on gathering and analyzing business requirements and then transforming them into conceptual, logical, and physical models of VMware Cloud Foundation. Candidates are expected to identify prerequisites and make design decisions across fleet topologies, networking, management domains, workload domains, automation, and operations. The section also includes designing for availability within and across zones, creating strategies for manageability such as lifecycle, scalability, and capacity, and ensuring performance and recoverability through BCDR strategies. Additional emphasis is given to designing secure environments, workload migration strategies, and creating consumption, automation, and monitoring strategies to support modern applications and governance.</li> </ul> |
| Topic 2 | <ul style="list-style-type: none"> <li>• <b>VMware Products and Solutions:</b> This section of the exam evaluates the knowledge of VMware Solution Specialists and focuses on VMware Cloud Foundation (VCF). Candidates must be able to identify and differentiate between various VCF architecture options in given scenarios. The emphasis is on understanding the key products and how they integrate into enterprise design choices.</li> </ul>   |
| Topic 3 | <ul style="list-style-type: none"> <li>• <b>Troubleshoot and Optimize the VMware Solution:</b> This section of the exam measures the skills of Operations Engineers. There are no explicitly testable objectives provided in this domain, but candidates are expected to understand troubleshooting and optimization principles to maintain the VMware environment effectively in real-world deployments.</li> </ul>  |
| Topic 4 | <ul style="list-style-type: none"> <li>• <b>Install, Configure, Administrate the VMware Solution:</b> This section of the exam is relevant to System Administrators. Although it has no directly testable objectives, it underlines the expectation that candidates are familiar with installation, configuration, and administration tasks that form the foundation for VMware Cloud Foundation solutions.</li> </ul>  |
| Topic 5 | <ul style="list-style-type: none"> <li>• <b>IT Architectures, Technologies, Standards:</b> This section of the exam measures the skills of IT Architects and covers the ability to distinguish business requirements from technical ones. It expects candidates to understand the differences between conceptual, logical, and physical designs while also differentiating requirements, assumptions, constraints, and risks. Core concepts of availability, manageability, performance, recoverability, and security (AMPRS) are tested. Learners also need to document risk mitigation strategies, design decisions, and create a validation strategy that ties requirements to practical implementation.</li> </ul>  |

## VMware 2V0-13.25 Reliable Test Guide | Reliable 2V0-13.25 Learning Materials

Preparing for the 2V0-13.25 real exam is easier if you can select the right test questions and be sure of the answers. The 2V0-13.25 test answers are tested and approved by our certified experts and you can check the accuracy of our questions from our free demo. Expert for one-year free updating of 2V0-13.25 Dumps PDF, we promise you full refund if you failed exam with our dumps.

### VMware Cloud Foundation 9.0 Architect Sample Questions (Q75-Q80):

#### NEW QUESTION # 75

How do Broadcom's network solutions enhance VMware NSX-T functionality?

- A. High throughput
- B. Seamless integration with VMware tools
- C. Low latency networking
- D. Hardware offloading

**Answer: A,B,C,D**

Explanation:

Broadcom network solutions enhance VMware NSX-T by ensuring low-latency, high throughput, offloading tasks to hardware, and integrating with VMware tools.

### NEW QUESTION # 76

Which Broadcom products are required for optimizing VMware storage in a cloud environment?

- A. VMware Cloud Foundation
- B. Broadcom RAID Controller
- C. vSAN
- D. Broadcom Fibre Channel HBA

**Answer: B,C**

Explanation:

Broadcom RAID Controllers and vSAN are required for optimizing VMware storage in cloud environments.

### NEW QUESTION # 77

Which VMware tools are important for security and compliance in VMware Cloud Foundation?

- A. VMware vSphere
- B. VMware vRealize Operations
- C. VMware vRealize Automation
- D. VMware NSX

**Answer: D**

Explanation:

VMware NSX is key for ensuring security and compliance in VMware Cloud Foundation.

### NEW QUESTION # 78

A customer has stated the following requirements for Aria Automation within their VCF implementation:

- \* Users must have access to specific resources based on their company organization
- \* Developers must only be able to provision to the Development environment
- \* Production workloads can be placed on DMZ or Production clusters

What two design decisions must be implemented to satisfy these requirements? (Choose two.)

- A. Users' access to resources will be controlled by tenant membership.
- B. Separate cloud zones will be configured for Development and Production.
- C. Separate tenants will be configured for Development and Production.
- D. Users' access to resources will be controlled by project membership.

**Answer: B,D**

Explanation:

Aria Automation in VCF 5.2 uses cloud zones and projects for resource control.

Option A, "Separate cloud zones for Development and Production," restricts provisioning to specific clusters (Development, Production/DMZ), meeting the second and third requirements.

Option B, "Project membership," assigns users to projects tied to specific zones and roles, satisfying organization-based access and developer restrictions.

Option C (tenant membership) is for multi-tenancy, unnecessary here within one VCF instance.

Option D (separate tenants) overcomplicates isolation beyond needs. A and B leverage Aria Automation's native capabilities effectively.

### NEW QUESTION # 79

Which Broadcom storage solutions enhance data access performance in VMware Cloud Foundation environments?

- A. Broadcom Ethernet adapters
