

# Reliable 1Z0-1042-25 Real Exam | Vce 1Z0-1042-25 Download

P.S. Free & New 1Z0-1042-25 dumps are available on Google Drive shared by RealExamFree: [https://drive.google.com/open?id=1hFyIS1lt66\\_x9-AuqcxCyllQLe3cbQuf](https://drive.google.com/open?id=1hFyIS1lt66_x9-AuqcxCyllQLe3cbQuf)

Actual and updated 1Z0-1042-25 questions are essential for individuals who want to clear the Oracle Cloud Infrastructure 2025 Application Integration Professional (1Z0-1042-25) examination in a short time. At RealExamFree, we understand that the learning style of every 1Z0-1042-25 exam applicant is different. That's why we offer three formats of Oracle 1Z0-1042-25 Dumps. With our actual and updated 1Z0-1042-25 questions, you can achieve success in the Oracle Cloud Infrastructure 2025 Application Integration Professional (1Z0-1042-25) exam and accelerate your career on the first attempt.

## Oracle 1Z0-1042-25 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>Getting Started with OIC Integrations: This section of the exam measures the skills of Integration Specialists and Cloud Engineers in understanding the foundational components of Oracle Integration Cloud (OIC). It covers key integration concepts, how integrations work, and web services fundamentals such as WSDL, SOAP, REST, and JSON. The focus is on building a strong understanding of OIC's integration capabilities.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>Using OIC Connections &amp; Adapters: This section evaluates the expertise of Integration Developers and Solution Architects in creating and configuring OIC connections. It includes setting up trigger and invoke connections, understanding the role of the Connectivity Agent, and effectively using adapters to connect cloud and on-premises applications seamlessly.</li></ul>

Topic 3	<ul style="list-style-type: none"> <li>• <b>Testing, Monitoring, and Troubleshooting Integrations:</b> This section assesses the abilities of Support Engineers and Integration Administrators in managing integration lifecycles. It includes activating and deactivating integrations, testing REST-triggered integrations, importing and exporting integrations, as well as monitoring and troubleshooting integration instances to ensure smooth operations.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>• <b>Creating Scheduled Integrations:</b> This domain measures the skills of Automation Engineers and Cloud Administrators in defining integration schedules and converting scheduled integrations to app-driven ones. It also includes using scheduled parameters to automate workflows efficiently.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>• <b>Creating Orchestrated Integrations:</b> This section tests the knowledge of Orchestration Developers and Business Process Analysts in managing orchestrated integrations within OIC. It includes using lookups, data mappers, and custom JavaScript libraries, configuring orchestration flow actions, implementing file handling options, and leveraging the fault-handling framework to manage errors effectively.</li> </ul>

## Vce 1Z0-1042-25 Download, 1Z0-1042-25 Valid Exam Labs

Are you still worried about the exam? Don't worry! Our 1Z0-1042-25 exam torrent can help you overcome this stumbling block during your working or learning process. Under the instruction of our 1Z0-1042-25 test prep, you are able to finish your task in a very short time and pass the exam without mistakes to obtain the Oracle certificate. We will tailor services to different individuals and help them take part in their aimed exams after only 20-30 hours practice and training. Moreover for all your personal information, we will offer protection acts to avoid leakage and virus intrusion so as to guarantee the security of your privacy. What is most important is that when you make a payment for our 1Z0-1042-25 Quiz torrent, you will possess this product in 5-10 minutes and enjoy the pleasure and satisfaction of your study time.

## Oracle Cloud Infrastructure 2025 Application Integration Professional Sample Questions (Q30-Q35):

### NEW QUESTION # 30

When creating integrations in Oracle Integration Cloud (OIC), a visual mapper enables you to map element nodes between applications by dragging source element nodes onto target element nodes. Which statement is NOT true about the OIC Data Mapper functionality?

- A. All transformation mappings use eXtensible Stylesheet Language (XSL).
- B. In the designer view, the Sources section contains data structure of all available data objects, which includes integration metadata, tracking variables, global variables, and integration property values.
- **C. All source and target data objects are represented internally as JSON structures.**
- D. When you navigate to the mapper and select a target element, Expression Builder launches in a user-friendly mode by default.
- E. The data structure for the target service is always displayed on the right side in the designer view.

**Answer: C**

Explanation:

Comprehensive and Detailed Explanation:

OIC Mapper:

D:False-data is XML-based internally, not JSON.

### NEW QUESTION # 31

Which two statements are true regarding messaging adapters in Oracle Integration Cloud (OIC)?

- **A. The Apache Kafka Adapter can be configured to support Transactions in case of Producers.**
- **B. Both the Apache Kafka and OCI Streaming adapters support XML, JSON, and AVRO message formats.**
- C. It is not mandatory to install a connectivity agent to use the OCI Streaming Adapter for Inbound polling.
- D. The OCI Streaming adapter does not support consuming messages from a specified consumer group.

**Answer: A,B**

Explanation:

Comprehensive and Detailed Explanation:

Messaging adapters:

A:True-Kafka and OCI Streaming support XML, JSON, and AVRO.

C:True-Kafka adapter supports producer transactions.

B:False-OCI Streaming supports consumer groups.

### NEW QUESTION # 32

Your design of an Asynchronous Oracle Integration Cloud (OIC) integration flow includes the requirement for additional processing logic that is conditionally based on the results returned to the integration instance from earlier external service invocations. You decide to leverage the switch action to facilitate this implementation. Which is a valid consideration concerning the configuration and capabilities of the switch action?

- A. The switch action must include an otherwise branch.
- **B. Nested Switch actions are not supported and, therefore, you may need to create more complex conditional expressions, if necessary.**
- C. Data objects returned from actions within a branch of a switch action are not visible in the mainflow of the integration after the switch action.

**Answer: B**

Explanation:

Comprehensive and Detailed Explanation:

The Switch Action in OIC enables conditional logic:

Option A: OIC does not support nested Switch actions within a single flow, requiring developers to use complex expressions or multiple sequential switches. This limitation is valid.

Option B: Data objects from a branch remain accessible in the main flow via variables, making this statement invalid.

Option C: An "otherwise" branch is optional, not mandatory, allowing flexibility in design.

A's restriction shapes how conditional logic is implemented in asynchronous flows.

### NEW QUESTION # 33

Your team is using a JavaScript library function within an Oracle Integration Cloud (OIC) integration flow.

Because of business requirements, one of the functions needs to be updated with additional code to incorporate new logic. Which consideration regarding JavaScript library functions is NOT valid?

- A. Active integrations using a function that has been updated must be reactivated.
- B. Network, disk, or thread access is not supported from within a JavaScript function.
- C. The JavaScript action has a timeout threshold of 60 seconds.
- **D. JavaScript functions are not allowed to make outbound calls to external services.**

**Answer: D**

Explanation:

Comprehensive and Detailed Explanation:

JavaScript Constraints:

A:False-outbound calls are allowed with restrictions.

### NEW QUESTION # 34

CSV-formatted data has been extracted from Oracle ERP Cloud by invoking a web service using the SOAP Adapter, and the data extract has been returned as an MTOM attachment. You now need to send this CSV file to an external REST API that supports accepting this content as a Base64 encoded string. Which is a valid solution offering the best performance?

- A. Create an NXSD in Oracle JDeveloper to define the schema of the CSV and use it to map the transformed data to the REST adapter invoke map action.
- B. Create and register a JavaScript function to convert the contents, invoke it using the JavaScript call action, then map the result to the REST adapter invoke map action.

- C. Map the received MTOM attachment directly to the REST adapter invoke map action using the `encodeReferenceToBase64` function.
- D. Use the REST adapter configuration wizard to define the structure of the CSV when configuring the invoke connection, then map the MTOM attachment directly.

**Answer: C**

## NEW QUESTION # 35

.....

There are a lot of experts and professors in our company. All 1Z0-1042-25 study torrent of our company are designed by these excellent experts and professors in different area. We can make sure that our Oracle 1Z0-1042-25 test torrent has a higher quality than other study materials. The aim of our design is to improving your learning and helping you gains your Oracle Cloud Infrastructure 2025 Application Integration Professional 1Z0-1042-25 Certification in the shortest time. If you long to gain the certification, our Oracle Cloud Infrastructure 2025 Application Integration Professional guide torrent will be your best choice.
