

Reliable 1z0-1093-25 Test Testking & 1z0-1093-25 Latest Test Simulations

Salesforce Salesforce-Mobile Salesforce Certified Mobile Accredited Professional 1

There are three different versions of our Salesforce-Mobile practice materials: the PDF, the Software and the APP online. And our Salesforce-Mobile learning materials can save a lot of time for its high efficiency. You can study online version of Salesforce-Mobile real test on the subway or on the bus; you can review it when you are lining up for a meal; you can study it before you go sleeping. At the same time, our APP version of [Salesforce-Mobile Study Materials](#) support offline learning, which avoids the situation that there is no way to learn without a network. So why you are still hesitating? Just come and buy it!

We develop many reliable customers with our high quality Salesforce-Mobile prep guide. When they need the similar exam materials and they place the second even the third order because they are inclining to our Salesforce-Mobile study braindumps in preference to almost any other. Compared with those uninformed exam candidates who do not have effective preparing guide like our Salesforce-Mobile study braindumps, you have already won than them. Among wide array of choices, our products are absolutely perfect. Besides, from economic perspective, our [Salesforce-Mobile Real Questions](#) are priced reasonably so we made a balance between delivering satisfaction to customers and doing our own jobs. So in this critical moment, our Salesforce-Mobile prep guide will make you satisfied.

Pass Guaranteed 2023 Salesforce Trustable Salesforce-Mobile Reliable Test Testking

Most IT workers prefer to choose our online test engine for their Salesforce-Mobile exam prep because online version is more flexible and convenient. With the help of our online version, you can

Salesforce-Mobile Reliable Test Testking & Salesforce-Mobile Exam Assessment

P.S. Free & New 1z0-1093-25 dumps are available on Google Drive shared by TestPDF: https://drive.google.com/open?id=1d-OO1f4IR058jz0mlXWJV0hAyZVBB_D3

TestPDF has special training tools for Oracle certification 1z0-1093-25 exam, which can make you do not need to spend a lot of time and money but can get a lot of knowledge of IT technology to enhance your skills in a short time. And soon you will be able to prove your expertise knowledge and technology in IT industry. TestPDF's training courses for Oracle Certification 1z0-1093-25 Exam is developed by the study of TestPDF experts team to use their knowledge and experience.

Oracle 1z0-1093-25 Exam Syllabus Topics:

Topic	Details
Topic 1	Oracle Cloud Infrastructure Database Management Service: This section of the exam measures the skills of a Cloud Operations Analyst and provides insight into Oracle's Database Management Service on OCI. It focuses on enabling the service for databases, monitoring their performance, and performing diagnostic and tuning activities. It also covers tasks related to the administration of databases running on Oracle Cloud Infrastructure.

Topic 2	• NoSQL Database Service Technical Overview: This section of the exam measures the skills of a NoSQL Developer and explores Oracle's NoSQL Database Service. It includes understanding the basics of NoSQL architecture, handling table-level security, rate limiting, and data modeling. It also covers concepts like provisioned throughput and the usage of language SDKs for interacting with NoSQL services on Oracle Cloud.
Topic 3	• Base Database Service - VM (BaseDB): This section of the exam measures the skills of a Cloud Database Administrator and covers the foundational elements of Oracle's Base Database Service. It includes understanding what the BaseDB service is, how to provision and manage it, and lifecycle operations such as backups, recovery, patching, and upgrades. It also tests familiarity with monitoring and management interfaces used to control and observe the BaseDB environment.
Topic 4	• MySQL HeatWave Technical Overview: This section of the exam measures the skills of a MySQL Cloud Specialist and introduces MySQL HeatWave, Oracle's high-performance analytics engine for MySQL. It includes provisioning, migrating existing MySQL databases to HeatWave, and working with its analytical and machine-learning capabilities. It also covers day-to-day operational activities within the MySQL HeatWave environment.
Topic 5	• Exadata Database Service (ExaDB): This section of the exam measures the skills of a Database Infrastructure Engineer and focuses on the advanced Exadata Database Service. It includes the provisioning of Exadata systems, management of Exadata Cloud Infrastructure, and VM Cluster administration. It also evaluates knowledge of lifecycle management tasks and how to interact with various Exadata management utilities and interfaces.

100% Pass Latest 1z0-1093-25 - Reliable Oracle Cloud Database Services 2025 Professional Test Testking

If you are preparing for the 1z0-1093-25 Questions and answers, and like to practice it in your spare time, then you should consider the 1z0-1093-25 exam dumps of our company. 1z0-1093-25 Online test engine is convenient and easy to study, it supports all web browsers. Besides you can practice online anytime. With all the benefits like this, you can choose us bravely. With this version, you can pass the exam easily, and you don't need to spend the specific time for practicing, just your free time is ok.

Oracle Cloud Database Services 2025 Professional Sample Questions (Q27-Q32):

NEW QUESTION # 27

Which two tools can you use to create a HeatWave MySQL Database Service System?

- **A. OCI Console**
- B. OCI Bastion Server
- C. OCI SQL Developer
- D. MySQL Shell on OCI Compute
- **E. OCI Command Line Interface**

Answer: A,E

Explanation:

OCI Console:

The Oracle Cloud Infrastructure Console is the primary graphical interface for creating and managing MySQL HeatWave Database Service Systems. It provides a user-friendly environment for configuring database instances and integrating HeatWave.

OCI CLI:

The OCI Command Line Interface allows for automation and scripting of database service creation. It is useful when managing multiple instances or performing bulk operations.

Why the other options are incorrect:

* C:OCI Bastion Server is used for secure SSH access, not for database creation.

- * D:MySQL Shell is a client tool for interacting with databases, not for provisioning them.
- * E:OCI SQL Developer is a database management tool, not a service provisioning tool.

NEW QUESTION # 28

Which two are valid storage options you must select when provisioning Exadata Database Service using the Oracle Cloud Infrastructure (OCI) Console?

- A. The size of the DATA disk group and RECO disk group.
- B. The number of CPUs required for the Exadata Database Service Instance.
- C. The database name and version.
- D. Data disk group compression and deduplication algorithm.
- E. Data disk group encryption using Oracle Cloud Infrastructure Vault.

Answer: A,E

Explanation:

A:Data disk group encryption using OCI Vault provides enhanced security for sensitive data by encrypting data stored within the Exadata storage cells.

B:During provisioning, the size of the DATA and RECO disk groups must be specified. The DATA disk group is used for primary database files, while the RECO disk group is used for recovery-related files.

Why the other options are incorrect:

- * C:CPU count is part of the compute configuration, not storage.
- * D:Compression and deduplication settings are managed at the database level, not during storage configuration.
- * E:Database name and version are part of the database configuration, not storage settings.

NEW QUESTION # 29

Which two prerequisites are required before you can provision a MySQL HeatWave DB system?

- A. An OCI Compute instance to act as a client for the MySQL DB system.
- B. A configured OCI Vault with encryption keys for database security.
- C. A pre-configured MySQL database dump for initial data loading.
- D. A MySQL Enterprise Edition license.
- E. A Virtual Cloud Network (VCN) with appropriately configured subnets.

Answer: D,E

Explanation:

VCN Requirement (B):

A Virtual Cloud Network (VCN) with appropriate subnets is essential to provide network connectivity and isolation for the HeatWave DB system. It ensures secure data flow within the Oracle Cloud Infrastructure.

License Requirement (E):

Since HeatWave is an enterprise feature, it requires a MySQL Enterprise Edition license. Without this license, the HeatWave functionalities cannot be utilized.

Why the other options are incorrect:

- * A:Data loading can be performed post-provisioning.
- * C:While encryption can be configured, it is not a prerequisite.
- * D:An OCI Compute instance may be used as a client but is not mandatory for provisioning.

NEW QUESTION # 30

Which BaseDB lifecycle management activity is MOST directly associated with ensuring the continued availability of a database instance during a planned maintenance window?

- A. Applying a quarterly security patch.
- B. Using Oracle Data Guard for a switchover operation.
- C. Performing an in-place upgrade of the database software.
- D. Taking a full database backup using RMAN.
- E. Resizing the block volume storage.

Answer: B

Explanation:

C: Using Oracle Data Guard for a switchover operation:

- * Aswitchoveris a planned role reversal between the primary and standby databases.
- * Zero data loss:Since both databases are synchronized, it minimizes downtime.
- * Ideal for planned maintenance:The primary database is switched to the standby, allowing maintenance on the original primary without downtime.
- * Data Guard Switchover:

sql

CopyEdit

```
ALTER DATABASE SWITCHOVER TO standby_db;
```

Why the other options are incorrect:

- * A. Full backup with RMAN:Backup does not ensure availability during maintenance.
- * B. In-place upgrade:Typically involves downtime.
- * D. Quarterly patch:Patching often requires database restarts, causing downtime.
- * E. Resizing block volume:Does not maintain availability if the database requires restarting.

NEW QUESTION # 31

Which two statements accurately describe the relationship between Database Management and metrics collected in OCI Monitoring service?

- **A. Database Management's data collection is completely independent of the OCI Monitoring service.**
- B. Database Management relies on custom metrics uploaded to OCI Monitoring by the user in order to provide its monitoring features.
- **C. Database Management directly queries the database for detailed performance data and supplements it with metrics from the OCI Monitoring service.**
- D. Database Management retrieves performance data exclusively from the OCI Monitoring service and does not directly query the database.

Answer: A,C

Explanation:

B:Database Management directly queries the database to gather performance data, such as SQL performance and active session history. It also integrates with OCI Monitoring for infrastructure-level metrics like CPU, memory, and storage utilization.

C:Database Management can function independently of OCI Monitoring since it has its own data collection mechanisms.

Why the other options are incorrect:

- * A:Database Management does not rely solely on OCI Monitoring.
- * D:It does not require custom metrics from the user.

NEW QUESTION # 32

.....

If you are going to purchase 1z0-1093-25 Study Materials online, you may pay attention to your money safety. With applying the international recognition third party for the payment, your money and account safety can be guaranteed if you choose us. And the third party will protect your interests. In addition, 1z0-1093-25 training materials are high-quality, for we have a professional team to research the latest information, and you can use them at ease. Besides if you have little time to prepare for your exam, you can also choose us, you just need to spend 48 to 72 hours on studying, you can pass the exam. Choose us, and you will never regret!
