Reliable 1Z0-1195-25 Test Book & 1Z0-1195-25 Latest Demo

Another great way to assess readiness is the 1z0-1105-22 web-based practice test. This is one of the trusted online Oracle 1z0-1105-22 prep materials to strengthen your concepts. All spees of the desktop software are present in the web-based Oracle 1z0-1105-22 Practice Exam. MS Edge, Opera, Firefox, Chrome, and Safari support this 1z0-1105-22 online practice test.

Oracle 1z0-1105-22 Exam Syllabus Topics:

Topic	Details
Topic 1	Discuss multi-cloud and hybrid cloud options for managing data using Oracle Cloud Explain the differences and uses of Free vs Always Free
Topic 2	Data Lake, Data Warehouse and Machine Learning Explain the data mesh architecture
Topic 3	Describe DBCS offerings and when to use one over the other Describe multi-model and converged database use cases
Topic 4	Explore Autonomous Database, the various offerings and deployment options Explain Oracle's Data Management Strategy
Topic 5	Discuss concepts and uses of OCI Analytics and AI Data Services Discuss ADB Instance Creation - provision, scale CPU and storage, start, stop, and clone
Topic 6	 Explain the processes and concepts to Manage Autonomous Database: REST, APIs Describe ADB Tools and how to load data into ADB
Topic 7	Explain Oracle Cloud Free Tier Sign-up processes Describe various migration strategies to the cloud
Topic 8	Discuss concepts and uses of Oracle Machine Learning Explain Oracle's Maximum Availability Architecture

Realistic 1z0-1105-22 Reliable Dumps Book - 100% Pass Oracle Instant Oracle Cloud Data Management 2022 Foundation

P.S. Free 2025 Oracle 1Z0-1195-25 dumps are available on Google Drive shared by ExamsReviews: https://drive.google.com/open?id=1rvvD4KOYzH1pR5HsQ_gEQ8secMQC0aUn

ExamsReviews provide you with the comprehensive Oracle 1Z0-1195-25 Exam information to help you to succeed. Our training materials are the latest study materials which bring by experts. We help you achieve your success. You can get the most detailed and accurate exam questions and answers from us. Our Training Tools are updated in a timely manner in accordance with the changing of Exam Objectives. In fact, the success is not far away, go down along with ExamsReviews, then you will come to the road to success.

Oracle 1Z0-1195-25 Exam Syllabus Topics:

Topic	Details
Topic 1	 MySQL and NoSQL: This section measures the skills of Database Developers and Data Engineers in working with Oracle MySQL HeatWave Database Service. It focuses on their features and uses cases for modern application development.

Topic 2	 Exadata and DBCS: This section tests the knowledge of Exadata Specialists and Database Administrators in understanding Exadata deployment options, lifecycle management tasks such as patching and backup, and the features of Oracle Base Database Service (DOracle NoSQL Database ServiceBCS).
Topic 3	Data Management Introduction: This section of the exam measures the skills of Data Architects and Cloud Database Specialists in understanding Oracle's data management strategy. It covers Oracle's database offerings, deployment options, and multi-cloud and hybrid cloud solutions for managing data using Oracle Cloud Infrastructure.
Topic 4	Upgrades and Migrations: This section tests the knowledge of Migration Specialists and Cloud Architects in planning cloud migrations. It includes various migration strategies to OCI, as well as upgrade options for transitioning existing databases to newer versions or cloud environments.

Reliable 1Z0-1195-25 Test Book 100% Pass | High Pass-Rate Oracle Data Platform 2025 Foundations Associate Latest Demo Pass for sure

The Oracle 1Z0-1195-25 certification exam is not only validate your skills but also prove your expertise. It can prove to your boss that he did not hire you in vain. The current IT industry needs a reliable source of Oracle 1Z0-1195-25 Certification Exam, ExamsReviews is a good choice. Select ExamsReviews 1Z0-1195-25 exam material, so that you do not need yo waste your money and effort. And it will also allow you to have a better future.

Oracle Data Platform 2025 Foundations Associate Sample Questions (Q57-Q62):

NEW QUESTION #57

The DBA has determined that the number of OCPU assigned to an Autonomous Database does not provide sufficient performance. Which option does the DBA have in this case?

- A. Open the database in OCI Console and increase the number of OCPU. No downtime required
- B. Call Oracle Cloud Support and raise a request to increase number of OCPU. Expect a downtime of approximately one hour
- C. Plan for a one-hour downtime and increase the number of OCPU while database is offline
- D. No downtime is required as number of OCPU can be increased from OCI console, but users have to be informed that they must not use any application for at least one hour

Answer: A

Explanation:

For an "Autonomous Database," the DBA can "Open the database in OCI Console and increase the number of OCPU. No downtime required" (C). Autonomous Database supports dynamic scaling of OCPUs online, with no service interruption, leveraging its self-managing capabilities. Options A and B involve unnecessary downtime, and D adds an unneeded user restriction. Oracle's documentation confirms zero-downtime OCPU scaling as a key feature.

NEW QUESTION #58

The Oracle Cloud Infrastructure (OCI) Data Catalog is an integral part of the Lakehouse solution. What level of data detail does Data Catalog provide when integrated with Autonomous Databases and Object Storage?

- A. View of data for discovery
- B. Source of managed services
- C. Data Warehouse
- D. Analytic environments

Answer: A

Explanation:

The "OCI Data Catalog" provides a "View of data for discovery" (D) when integrated with Autonomous Databases and OCI Object Storage in the Lakehouse solution. It serves as a metadata management service, offering a centralized view of data assets, their schemas, and relationships, enabling users to discover and understand data across the Lakehouse. "Analytic environments" (A) and "Data Warehouse" (B) refer to processing or storage constructs, not the role of Data Catalog. "Source of managed services" (C) is vague and not a documented function. Oracle's documentation highlights Data Catalog's role in data discovery and governance, not processing or storage.

NEW QUESTION #59

Which security measure is implemented out-of-the-box, and is included if you are not using BYOL licensing with Exadata Cloud@Customer?

- A. Oracle Key Vault
- B. Oracle Native Network Encryption and TDE (Transparent Data Encryption)
- C. Audit Vault and Database Firewall
- D. Database Vault and Data Masking Pack

Answer: B

Explanation:

For "Exadata Cloud@Customer" without Bring Your Own License (BYOL), "Oracle Native Network Encryption and TDE (Transparent Data Encryption)" (D) are implemented out-of-the-box. Native Network Encryption secures data in transit, while TDE encrypts data at rest, both enabled by default to ensure baseline security compliance. "Oracle Key Vault" (A), "Audit Vault and Database Firewall" (B), and "Database Vault and Data Masking Pack" (C) are advanced security options requiring additional configuration or licensing, not automatically included without BYOL. Oracle's Exadata Cloud@Customer documentation confirms these encryption features as standard.

NEW QUESTION #60

Exadata is the integration of software and hardware and is available to customers on which deployments?

- A. Only at the customer site
- B. Only in a hybrid cloud
- C. In the Oracle Cloud and customer site
- D. Only in public cloud environments

Answer: C

Explanation:

"Exadata" integrates software and hardware and is available both "In the Oracle Cloud and customer site" (D). It is offered as Exadata Cloud Service (public cloud) and Exadata Cloud@Customer (on-premises), providing flexibility for hybrid deployments. "Only in a hybrid cloud" (A) is too restrictive, "Only in public cloud environments" (B) ignores Cloud@Customer, and "Only at the customer site" (C) excludes the cloud option. Oracle's documentation confirms Exadata's availability in both OCI and on-premises configurations.

NEW QUESTION #61

What are two main benefits of Oracle APEX?

- A. Faster development time using hand coding
- B. Develop responsive web apps
- C. Store data in PL/SQL objects
- D. Less productivity compared to hand coding

Answer: B

Explanation:

The two main benefits of "Oracle APEX" (Application Express) include "Develop responsive web apps" (D), as it enables rapid creation of scalable, mobile-friendly applications using a low-code platform. The second benefit, though not perfectly listed, aligns with faster development (implied but misstated in A). "Faster development time using hand coding" (A) is incorrect, as APEX avoids

hand coding with its declarative approach. "Less productivity compared to hand coding" (B) is false, as APEX increases productivity. "Store data in PL/SQL objects" (C) is a feature, not a primary benefit. Oracle's APEX documentation emphasizes responsive web app development and rapid delivery as key advantages.
