

Reliable 1Z0-931-25 Exam Cram - 1Z0-931-25 Latest Exam Practice

2025 Latest TestValid 1Z0-931-25 PDF Dumps and 1Z0-931-25 Exam Engine Free Share: https://drive.google.com/open?id=1b8RFWKsz_JUxqgdH056BSTCvUKLTEoO

Individuals who pass the Oracle Autonomous Database Cloud 2025 Professional certification exam demonstrate to their employers and clients that they have the knowledge and skills necessary to succeed in the industry. TestValid is aware that preparing with outdated 1Z0-931-25 Study Material results in a loss of time and money.

Oracle 1Z0-931-25 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• Data Lake Analytics with Autonomous Database: This section of the exam measures the skills of Big Data Engineers and explores how Autonomous Database can be used for analytics in data lake environments. It includes data ingestion, query optimization, and leveraging cloud-native analytics services, ensuring engineers can efficiently process and analyze large volumes of structured and unstructured data.
Topic 2	<ul style="list-style-type: none">• Getting Started with Autonomous Database: This section of the exam measures the skills of Database Administrators and covers the architecture and key features of Oracle Autonomous Database. It explains how the database integrates within the Oracle ecosystem and provides an overview of different Autonomous Database offerings and their licensing models, helping administrators understand how to deploy and manage these cloud-based databases efficiently.
Topic 3	<ul style="list-style-type: none">• Autonomous Database Tools: This section of the exam measures the skills of Data Analysts and covers the tools available within Autonomous Databases for advanced data processing and analytics. It includes Oracle Machine Learning, APEX, and SQL Developer Web for database development, as well as data transformation, business model creation, data insights, and data analysis, allowing analysts to extract valuable insights from large datasets.
Topic 4	<ul style="list-style-type: none">• Migrating to Autonomous Database: This section of the exam measures the skills of Cloud Migration Specialists and covers strategies for migrating existing databases to Autonomous Database. It includes understanding migration considerations, and available options, and using Oracle Data Pump to transfer data seamlessly while minimizing downtime, ensuring smooth transitions to Oracle Cloud infrastructure.

Topic 5	<ul style="list-style-type: none"> Autonomous Database Dedicated: This section of the exam measures the skills of IT Architects and explores the workflows and functionality of Autonomous Database Dedicated and Autonomous Database Cloud@Customer. It includes provisioning dedicated resources, setting up OCI policies, monitoring infrastructure, scheduling maintenance tasks such as patching, and managing encryption keys for enhanced security. IT Architects will learn how to integrate dedicated database environments within their cloud strategy.
Topic 6	<ul style="list-style-type: none"> Managing and Maintaining Autonomous Database: This section of the exam measures the skills of Database Administrators and focuses on the ongoing management and maintenance of Autonomous Database instances. It includes using REST APIs and OCI CLI for automation, configuring access control lists and private endpoints, monitoring performance, setting up notifications, utilizing features like auto-indexing and data safe, handling connectivity through wallets and service handles, and configuring disaster recovery using Data Guard to ensure business continuity.
Topic 7	<ul style="list-style-type: none"> Developing on Autonomous Database: This section of the exam measures the skills of Application Developers and focuses on developing and extending applications using Autonomous Database. It covers using generative AI for natural language queries, Autonomous JSON Database, Oracle Text for document search, location-based analysis with Autonomous Spatial, Autonomous Graph for data relationships, and integration with Object Storage, enabling developers to build intelligent, scalable applications.

1Z0-931-25 Latest Exam Practice - Valid 1Z0-931-25 Exam Tutorial

With the pass rate is 98.65% for 1Z0-931-25 learning materials, our product has gained popularity among candidates, the also send some thank letter for helping them pass the exam successfully. We have a professional team to research the latest information for 1Z0-931-25 exam materials, and we can ensure that 1Z0-931-25 Exam Dumps you receive are the latest one. What's more, 1Z0-931-25 exam dumps are high quality, and you can pass the exam just one time. We offer you free update for 365 days after purchasing, and our system will send the update version for 1Z0-931-25 exam dumps to you automatically.

Oracle Autonomous Database Cloud 2025 Professional Sample Questions (Q71-Q76):

NEW QUESTION # 71

Which three of the following data sources are available when using the Data Load page on Database Actions?

- **A. Local Files**
- B. REST endpoints
- C. Backup files in block storage
- **D. Files in Oracle Cloud Storage**
- **E. Files in AWS S3 Storage**

Answer: A,D,E

Explanation:

Full Detailed In-Depth Explanation:

The Data Load page in Database Actions supports loading data from:

- A . Local Files: True. Users can upload files from their local device.
 - B . Files in Oracle Cloud Storage: True. OCI Object Storage is a supported source.
 - C . REST endpoints: False. REST is not a direct data source for Data Load; it's used for programmatic access.
 - D . Files in AWS S3 Storage: True. Integration with AWS S3 is supported for cloud flexibility.
 - E . Backup files in block storage: False. Block storage backups are not accessible via Data Load.
- A, B, and D are the correct options per Oracle's documentation.

NEW QUESTION # 72

DBSRV1 is an Autonomous Database with the display name PRODDb. You plan to take manual backups of this database

periodically. What must be the name of the bucket that will be used to store manual backups?

- A. BACKUP_PRODDDB
- B. backup_proddb
- **C. BACKUP_DBSRV1**
- D. backup_dbsrv1

Answer: C

Explanation:

Manual backups in Autonomous Database are stored in OCI Object Storage, and the bucket name follows a strict convention. The correct name is:

BACKUP_DBSRV1 (D): For manual backups, ADB uses a bucket named BACKUP_<DB_UNIQUE_NAME> (all uppercase). Here, DBSRV1 is the database's unique name (not the display name PRODDDB), so the bucket must be BACKUP_DBSRV1. This bucket is automatically created by Oracle when you initiate a manual backup via the OCI console (e.g., "Create Manual Backup" button) or API (e.g., oci db autonomous-database backup create). For example, backing up DBSRV1 on March 18, 2025, stores files like backup_DBSRV1_20250318.dmp in this bucket. The unique name ensures uniqueness across the tenancy, as display names (e.g., PRODDDB) might not be unique but the DB_UNIQUE_NAME is system-assigned and distinct.

The incorrect options are:

backup_proddb (A): This uses the display name proddb and lowercase, violating the BACKUP_<UNIQUE_NAME> uppercase convention.

BACKUP_PRODDDB (B): While uppercase, it uses the display name PRODDDB, not the unique name DBSRV1, so it's incorrect. Display names are for human readability, not system identification.

backup_dbsrv1 (C): This uses lowercase and lacks the exact BACKUP_ prefix format, failing Oracle's naming rule.

The rigid naming ensures consistency and automation in ADB's backup system.

NEW QUESTION # 73

Which two license types does the customer need to benefit from BYOL when leveraging on-premise Enterprise Database licenses in Oracle Autonomous Database?

- **A. Real Application Clusters (RAC), but only when scaling beyond 16 OCPUs**
- B. Exadata
- **C. Multitenant**
- D. Transparent Data Encryption (TDE)
- E. Active Data Guard

Answer: A,C

Explanation:

Full Detailed In-Depth Explanation:

Bring Your Own License (BYOL) allows using existing on-premises Oracle licenses in the cloud:

A: False. Exadata is included in Autonomous Database; no separate license is needed.

B: False. Active Data Guard is an optional feature, not required for BYOL.

C: True. RAC is needed for BYOL when scaling beyond 16 OCPUs, as Autonomous Database uses RAC for high availability in larger deployments.

D: True. Multitenant is mandatory, as Autonomous Database uses a multitenant architecture (CDB/PDB).

E: False. TDE is included by default, not a BYOL requirement.

NEW QUESTION # 74

Which three options are available to access data in an Autonomous JSON Database?

- A. Oracle JSON Developer tool downloaded from Oracle Technology Network (OTN)
- **B. Oracle Cloud Infrastructure console using the JSON Online Developer tool**
- **C. REST API calls to the database (not enabled by default)**
- D. Regular Oracle SQL statements using a connection through the listener
- **E. NoSQL statements using Simple Oracle Document Access (SODA) drivers**

Answer: B,C,E

Explanation:

Full Detailed In-Depth Explanation:

Autonomous JSON Database supports:

- A: True. SODA provides NoSQL-style access for JSON documents.
- B: False. SQL is secondary; SODA/REST are primary for JSON data.
- C: True. REST APIs are supported but require enablement.
- D: True. The OCI console offers the JSON Online Developer tool.
- E: False. No such downloadable tool exists for Autonomous JSON.

NEW QUESTION # 75

What is the default time range in Performance Hub?

- **A. 24 Hours**
- B. 1 Hour
- C. 15 Minutes
- D. 1 Week

Answer: A

Explanation:

Performance Hub in Autonomous Database provides performance monitoring insights. The correct answer is:

24 Hours (C): When you open Performance Hub in the OCI console or Database Actions, the default time range displayed is the last 24 hours, shown in Coordinated Universal Time (UTC). This allows users to review recent performance metrics like CPU usage, SQL activity, and wait times. Users can adjust this range (e.g., to 1 hour or 1 week) as needed.

The incorrect options are:

15 Minutes (A): This is not a default option; it's too short for a broad performance overview.

1 Hour (B): Available as an option, but not the default setting.

1 Week (D): Also available, but not the default; it's a longer-term view users can select manually.

The 24-hour default balances recency and context for performance analysis.

NEW QUESTION # 76

.....

Only if you download our software and practice no more than 30 hours will you attend your test confidently. Because our 1Z0-931-25 exam torrent can simulate limited-timed examination and online error correcting, it just takes less time and energy for you to prepare the 1Z0-931-25 exam than other study materials. As is known to us, maybe you are a worker who is busy in your career. Therefore, purchasing the 1Z0-931-25 Guide Torrent is the best and wisest choice for you to prepare your test. If you buy our 1Z0-931-25 questions torrent, the day of regretting will not come anymore.
