EC-COUNCIL Certified SOC Analyst (CSA) Sample Questions (Q61-Q66):

NEW QUESTION # 61

Identify the attack when an attacker by several trial and error can read the contents of a password file present in the restricted etc folder just by manipulating the URL in the browser as shown:

<http://www.terabytes.com/process.php/../../../../etc/passwd>

- A. Denial-of-Service Attack
- **B. SQL Injection Attack**
- C. Form Tampering Attack
- D. Directory Traversal Attack

Answer: B

NEW QUESTION # 62

Daniel is a member of an IRT, which was started recently in a company named Mesh Tech. He wanted to find the purpose and scope of the planned incident response capabilities.

What is he looking for?

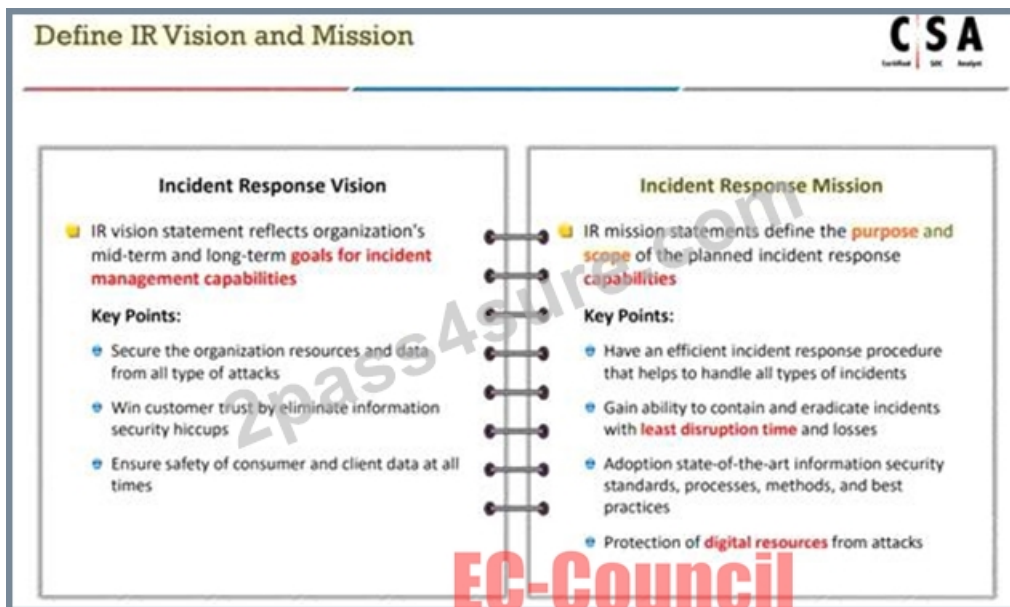

- **A. Incident Response Mission**
- B. Incident Response Resources
- C. Incident Response Vision
- D. Incident Response Intelligence

Answer: A

Explanation:

Daniel is seeking to understand the Incident Response Mission, which outlines the purpose and scope of the incident response capabilities within his organization. The mission statement typically defines the primary objectives and the intended direction for the incident response team (IRT). It serves as a guiding principle for the IRT's operations, helping to align their activities with the broader goals of the organization's security posture.

References: The EC-Council's Certified SOC Analyst (CSA) program provides extensive knowledge on SOC operations, including the fundamentals of incident response. The CSA certification emphasizes the importance of understanding the mission of incident response as part of a SOC analyst's role¹. Additionally, EC-Council's resources on incident response highlight the significance of having a clear mission to guide the incident handling process².
