## Reliable 3V0-32.23 Test Questions, Trustworthy 3V0-32.23 Exam Torrent

Desktop VMware 3V0-32.23 Practice Exam Software is a one-of-a-kind and very effective software developed to assist applicants in preparing for the 3V0-32.23 certification test. The Desktop 3V0-32.23 Practice Exam Software that we provide includes a self-assessment feature that enables you to test your knowledge by taking simulated tests and evaluating the results. You can acquire a sense of the 3V0-32.23 software by downloading a free trial version before deciding whether to buy it.

## VMware Cloud Management and Automation Advanced Design Sample Questions (Q107-Q112):

### NEW QUESTION # 107

The development team has decided to move its 12-node application into its vRealize Automation environment. There are several teams of developers all working on the same application, so the traffic needs to be separated from the other teams. Since the application has no dependencies outside of itself, what could be done to address the needs of this scenario?

- A. Create an NSX One-To-One NAT network and add it to the development reservation.
- B. Create a new NSX routed network using a /28 netmask and add it to the development reservation.
- C. Create a separate logical network and add it to the development reservation.
- D. Create an NSX One-To-Many NAT network and enable the DHCP feature and add it to the development reservation.

**Answer: D**

#### NEW QUESTION # 108

An architect is responsible for designing the physical deployment of a four-node VMware Aria Operations cluster for a healthcare customer. The following requirements must be met:

vSphere management cluster consists of three nodes

Recovery Time Objective (RTO) of less than 2 hours

Use existing customer backup solution

Which recommendation should the architect make to satisfy the requirements?

- A. Deploy VMware Aria Operations relying on customer backup solution for backup and restore capabilities.
- B. Deploy VMware Aria Operations high availability to address unintended disaster recovery with customer backup and restore capabilities.
- C. Deploy VMware Aria Operations continuous availability to address downtime with customer backup and restore capabilities.
- D. Deploy VMware Aria Operations with both high availability and continuous availability with customer backup and restore capabilities.

**Answer: B**

Explanation:

High availability in VMware Aria Operations ensures the solution can tolerate node failures and minimize downtime, supporting a low RTO. Leveraging the existing customer backup solution provides backup and restore capabilities without the added complexity of continuous availability, which is not strictly required for an RTO under 2 hours.

#### NEW QUESTION # 109

A design for a Cloud Management solution includes a section that describes the association of VMware Aria Operations solution with a remote collector for the purpose of gathering performance and usage metrics.

Which area of the design would contain that section?

- A. Physical
- B. Logical
- C. Conceptual
- D. Requirements

**Answer: A**

Explanation:

The physical design details specific implementation aspects such as the deployment and association of components (e.g., remote collectors), including their locations and configurations.

#### NEW QUESTION # 110

An architect is tasked with designing a backup strategy for vRealize Orchestrator as part of an upcoming production rollout of a Cloud Management Platform.

Which are two valid backup design recommendations? (Choose two.)

- A. Perform file-level backup of the Orchestrator database only after a successful full virtual machine backup.
- B. If vRealize Orchestrator is a standalone component, perform its backup before backing up vRealize Automation components in no particular order.
- C. Perform backup of vRealize Orchestrator virtual machines in the order of the startup priority.
- D. If vRealize Orchestration is embedded within the vRealize Automation appliance, perform its backup along with Manager Services for vRealize Automation.

**Answer: B,D**

### NEW QUESTION # 111

Which release cycle statement is valid for VMware Aria Automation SaaS and VMware Aria Automation 8.x?

- A. They have no common features and have different release cycle.
- **B. They share common features but the release cycle is different.**
- C. They share common features and same release cycle.
- D. VMware Aria Automation 8.x releases more frequently than VMware Aria Automation SaaS

**Answer: B**

Explanation:

VMware Aria Automation SaaS and 8.x on-prem share many features, but SaaS has a more frequent and independent release cycle compared to the on-prem version.

### NEW QUESTION # 112

.....

The third and last format is the VMware 3V0-32.23 desktop practice exam software form that can be used without an active internet connection. This software works offline on the Windows operating system. The practice exams benefit your preparation because you can attempt them multiple times to improve yourself for the VMware 3V0-32.23 Certification test. Our Cloud Management and Automation Advanced Design (3V0-32.23) exam dumps are customizable, so you can set the time and questions according to your needs.
