P.S. Free 2025 API API-936 dumps are available on Google Drive shared by Lead1Pass: https://drive.google.com/open?id=1POjRaJIgyGWzj78YwtXILb_tNaL6iL0T

Our company is a professional certification exam materials provider, we have occupied in the field more than ten years, and we have rich experiences. API-936 training materials have gained popularity in the international market for high quality. In addition, API-936 exam, dumps contain both questions and answers, and you can have a quick check after practicing. API-936 Training Materials cover most of knowledge points for the exam, and they will help you pass the exam. We offer you free update for 365 days after purchasing API-936 exam materials, and the update version will be sent to your email automatically.

In cyber age, it's essential to pass the API-936 exam to prove ability especially for lots of office workers. Our company, with a history of ten years, has been committed to making efforts on developing API-936 exam guides in this field. We have won wonderful feedback from customers and ceaseless business and continuously worked on developing our API-936 Exam prepare to make it more received. Moreover, our understanding of the importance of information technology has reached a new level. Efforts have been made in our experts to help our candidates successfully pass API-936 exam.

Accurate API-936 Prep Material | Trustworthy API-936 Source

Lead1Pass is a convenient website to provide service for many of the candidates participating in the IT certification exams. A lot of candidates who choose to use the Lead1Pass's product have passed IT certification exams for only one time. And from the feedback of them, helps from Lead1Pass are proved to be effective. Lead1Pass's expert team is a large team composed of senior IT professionals. And they take advantage of their expertise and abundant experience to come up with the useful training materials about API-936 Certification Exam. Lead1Pass's simulation test software and related questions of API-936 certification exam are produced by the analysis of API-936 exam outline, and they can definitely help you pass your first time to participate in API-936 certification exam.

API 936 exam covers a wide range of topics related to refractory materials and their applications. API-936 exam includes questions on topics such as refractory properties and behavior, installation techniques, inspection and testing methods, and repair and maintenance procedures. API-936 exam also covers safety considerations, including the use of personal protective equipment and the safe handling and disposal of refractory materials.

API 936 exam covers a range of topics related to refractory materials, including their properties, installation procedures, inspection techniques, and repair methods. API-936 Exam consists of 120 multiple-choice questions and is administered over a four-hour period. Candidates must achieve a score of at least 70% to pass the exam and earn the API 936 certification. Refractory Personnel certification is widely recognized in the industry and can help refractory personnel demonstrate their expertise and enhance their career opportunities.

API Refractory Personnel Sample Questions (Q55-Q60):

NEW QUESTION # 55

Gunning test panels are constructed with removable backs as required for

- A. None of the above
- B. physical property test
- C. laboratory test
- D. visual inspection of the castable

Answer: D

NEW QUESTION # 56

Size distribution of aggregate particles is determined by:

- A. rebound.
- B. screen analysis.
- C. expansion allowance.
- D. porosity.

Answer: B

Explanation:

The correct method for determining the size distribution of aggregate particles used in refractory castables is screen analysis. This is a standardized technique for analyzing particle size distribution by passing material through a series of sieves with progressively smaller openings.

As specified in API 936 and related technical literature such as API TR 978 and API TR 980, aggregate grading and size distribution directly affect the packing density and therefore the performance of monolithic refractories. The screen analysis is fundamental in determining if aggregates fall within the prescribed grading ranges, which is critical for workability, density, and mechanical strength.

Reference: API TR 978 - Monolithic Refractories: Manufacture, Properties, and Selection, Section on "Aggregate Grading" API Std 936 (Installation Quality Control of Monolithic Refractories) - ASTM C136 /C136M referenced in material property section.

NEW QUESTION # 57

When performing the ASTM C704 and ASTM C133 refractory tests, the specimen should be fired to what temperature?

- A. 1000°F (540°C)

- B. 2730°F (1500°C)
- C. 815°F (435°C)
- **D. 1500°F (815°C)**

Answer: D

Explanation:

As per the testing procedures outlined in API 936:

"All specimens used in ASTM C704 and ASTM C133 tests shall be dried and fired to 1500°F (815°C) prior to testing."

- API Std 936, Section 6.3.1

Firing to 1500°F ensures proper evaluation of the refractory's behavior under service conditions.

NEW QUESTION # 58

Refractory abrasion is defined as the wearing away of the surface by:

- A. high-velocity gases.
- B. coke buildup.
- C. high-velocity hydrocarbons.
- **D. the scouring action of moving solids.**

Answer: D

Explanation:

API TR 977 defines refractory abrasion in the context of erosion resistance testing:

"Abrasion is the wearing away of the surface by the mechanical scouring action of solids moving across the surface."

- API TR 977, Section 2

This distinguishes abrasion from gas or chemical attack and aligns with ASTM C704 test context.

NEW QUESTION # 59

A combination of refractory grain and suitable bonding agent that, after the addition of a proper liquid, is generally poured into place to form a refractory shape or structure which becomes rigid because of chemical action is called

- **A. castable**
- B. all of the above
- C. ceramic modules
- D. mortar

Answer: A

NEW QUESTION # 60

.....

This Refractory Personnel (API-936) software has a simple-to-use interface. By using the API-936 practice exam software, you can evaluate your mistakes at the end of every take and overcome them. Our software helps you to get familiar with the format of the original API-936 test. Software lets you customize your API API-936 Practice Exam's duration and question numbers as per your practice needs. You just need an active internet connection to confirm the license of your product. All Windows-based computers support this API-936 practice exam software.
