NEW QUESTION # 60
Which of the following is a key characteristic of the Agile project approach?

- A. Frequent quality gates
- B. Iterative build with frequent inspections
- C. Formal and detailed documentation
- D. Frequent and detailed project scheduling

Answer: B

Explanation:
* C is correct because Iterative build with frequent inspections is a key characteristic of the Agile project approach. The Agile project approach follows an iterative and incremental development process, where the solution is built and delivered in small increments called sprints. Each sprint consists of planning, designing, building, testing, and reviewing activities, where the team inspects the solution and adapts to changing requirements and feedback. Verified References:
