

Reliable C_IBP_2502 Exam Review, Latest C_IBP_2502 Examprep

BTW, DOWNLOAD part of Easy4Engine C_IBP_2502 dumps from Cloud Storage: <https://drive.google.com/open?id=110QWDwS2SUR-NWB1hI4a5huqUw7eqiE2>

The memory needs clues, but also the effective information is connected to systematic study, in order to deepen the learner's impression, avoid the quick forgetting. Therefore, we can see that in the actual C_IBP_2502 exam questions, how the arrangement plays a crucial role in the teaching effect. The C_IBP_2502 Study Guide in order to allow the user to form a complete system of knowledge structure, the qualification C_IBP_2502 examination of test interpretation and supporting course practice organic reasonable arrangement together.

Easy4Engine insists on providing you with the best and high quality exam dumps, aiming to ensure you 100% pass in the actual test. Being qualified with SAP certification will bring you benefits beyond your expectation. Our SAP C_IBP_2502 practice training material will help you to enhance your specialized knowledge and pass your actual test with ease. C_IBP_2502 Questions are all checked and verified by our professional experts. Besides, the C_IBP_2502 answers are all accurate which ensure the high hit rate.

Quiz Pass-Sure SAP - C_IBP_2502 - Reliable SAP Certified Associate - SAP IBP for Supply Chain Exam Review

Normally a haphazard IT exam will become your power of progress which may change your whole life. As one of SAP important certifications C_IBP_2502 exam is an important exam. Our C_IBP_2502 exam learning materials are updated with latest official exam change, Easy4Engine will release new version of C_IBP_2502 in first time. If you are still hesitating about purchasing exam learning materials, you can consider the free demo materials in our website for your reference.

SAP Certified Associate - SAP IBP for Supply Chain Sample Questions (Q32-Q37):

NEW QUESTION # 32

Which functional capabilities are included in SAP IBP for response and supply? Note: There are 2 correct answers to this question.

- A. Gating Factor
- B. Calculating Buffer Proposals
- C. Detailed Production Scheduling
- D. Analyze Supply Usage

Answer: A,D

Explanation:

SAP IBP for Response and Supply focuses on order-based planning and short-term supply optimization, per its official module documentation.

* Option A: Gating Factor This is correct. Gating factors (e.g., capacity constraints driving supply decisions) are analyzed in response planning to prioritize orders, a key capability, per SAP IBP's documentation.

* Option B: Analyze Supply Usage This is correct. Analyzing supply usage (e.g., allocation of supply to demand) is a core feature in response and supply, supported by tools like the Supply Usage app, per SAP IBP's guides.

* Option C: Detailed Production Scheduling This is incorrect. Detailed scheduling is handled by SAP PP/DS or external systems, not IBP Response and Supply, which focuses on higher-level planning.

* Option D: Calculating Buffer Proposals This is incorrect. Buffer proposals are part of Demand-Driven Replenishment (DDR), a separate IBP feature, not Response and Supply.

Thus, A and B are included capabilities, per SAP IBP's official Response and Supply scope.

NEW QUESTION # 33

You are developing the functionality and appearance of the Excel UI for SAP IBP business users. Which extensibility capabilities for SAP IBP, add-in for Microsoft Excel are provided by Custom VBA coding?

Note: There are 2 correct answers to this question.

- A. SAP IBP ribbon extension
- B. Changing the layout of the master data workbooks
- C. Changing the entries from the Name Manager
- D. Changing the member names

Answer: A,B

Explanation:

Custom VBA (Visual Basic for Applications) coding extends the SAP IBP Excel add-in's functionality and UI, per SAP IBP's extensibility documentation.

* Option A: Changing the member names This is incorrect. Member names (e.g., Product IDs) are master data, not modifiable via VBA in the Excel UI; VBA customizes behavior, not data content.

* Option B: SAP IBP ribbon extension This is correct. VBA can extend the SAP IBP ribbon (toolbar) with custom buttons or commands, enhancing user interaction, a supported extensibility feature, per SAP IBP's guides.

* Option C: Changing the entries from the Name Manager This is incorrect. Name Manager entries (Excel-defined names) are managed by Excel, not directly extensible via SAP IBP VBA for IBP-specific functionality.

* Option D: Changing the layout of the master data workbooks This is correct. VBA can modify the layout (e.g., rearrange columns, add sheets) of master data workbooks in the Excel UI, a common customization, per SAP IBP's documentation.

Thus, B and D are VBA extensibility capabilities, per SAP IBP's official Excel add-in features.

NEW QUESTION # 34

For which of the following application jobs can you enter planning filters as parameters? Note: There are 2 correct answers to this question.

- A. Purge Key Figure Data
- B. Purge Non-Conforming Data
- C. Create Time Periods for Time Profiles
- D. Purge Master Data

Answer: A,D

Explanation:

Application jobs in SAP IBP (via the Application Jobs app) automate tasks, and some allow planning filters to limit their scope.

* Option A: Purge Master Data This is correct. The Purge Master Data job accepts planning filters (e.g., specific Products or Locations) to selectively delete master data, per SAP IBP's job documentation.

* Option B: Purge Key Figure Data This is correct. The Purge Key Figure Data job uses planning filters to target specific keyfigure data (e.g., by Region), a standard feature, per SAP IBP's data management guides.

* Option C: Purge Non-Conforming Data This is incorrect. This job removes inconsistent data (e.g., orphaned records), but it doesn't use planning filters as parameters; it's system-driven.

* Option D: Create Time Periods for Time Profiles This is incorrect. This job generates time periods for a time profile and doesn't involve planning filters, which apply to planning objects, not time setup.

Thus, A and B support planning filters, per SAP IBP's official job capabilities.

NEW QUESTION # 35

Which of the following are features of lag-based snapshots? Note: There are 2 correct answers to this question.

- A. Lag-based snapshots are created in the Configuration app for a fixed time range
- B. The number of lag-based snapshots are limited to nine levels
- C. Target key figures for these snapshots are exposed to the user in planning view
- D. Target key figures for these snapshots must have lag as a root attribute in the base planning level

Answer: C,D

Explanation:

Lag-based snapshots in SAP IBP capture historical key figure values with a specified time offset (lag), useful for tracking past data (e.g., demand from 3 weeks ago). Their configuration and behavior are defined in SAP IBP's time-series planning framework.

* Option A: The number of lag-based snapshots are limited to nine levels This is incorrect. There's no documented limit of nine snapshots in SAP IBP; the number depends on configuration and performance, not a fixed cap.

* Option B: Lag-based snapshots are created in the Configuration app for a fixed time range This is incorrect. Snapshots are configured in the Planning Areas app (via key figure settings), not a generic "Configuration app," and they dynamically adjust based on lag, not a fixed range.

* Option C: Target key figures for these snapshots are exposed to the user in planning view This is correct. Lag-based snapshot key figures (e.g., SNAPSHOT_LAG1) are visible and usable in planning views (e.g., Excel), allowing users to analyze historical data, per SAP IBP's documentation.

* Option D: Target key figures for these snapshots must have lag as a root attribute in the base planning level This is correct. The lag attribute (e.g., LAG = 1, 2) must be part of the base planning level (e.g., PERPRODLOCLAG) to store snapshot values distinctly, a requirement in SAP IBP's snapshot setup, per official guides.

Thus, C and D are features of lag-based snapshots, per SAP IBP's official functionality.

NEW QUESTION # 36

You are implementing a demand process in SAP IBP for sales and operations, and consider using the standard forecast key figures available in the sample planning area SAPIBP1. What are the first and last key figures in the logical progression of demand in the S&OP process?

- A. Local Demand Plan first and Combined Final Demand last
- B. Statistical Forecast Qty first and Consensus Demand Plan Qty last
- C. Local Demand Plan first and Consensus Demand Plan Qty last
- D. Statistical Forecast Qty first and Global Demand Plan Qty for S&OP last

Answer: B

Explanation:

In SAP IBP for Sales and Operations Planning (S&OP), the demand planning process follows a logical progression of key figures, as exemplified in the sample planning area SAPIBP1. This progression starts with raw forecast data and ends with an agreed-upon demand plan.

* Option A: Local Demand Plan first and Combined Final Demand last "Local Demand Plan" is not a standard key figure in SAPIBP1; it's a vague term. "Combined Final Demand" is also not a recognized key figure. This option misaligns with the S&OP process flow.

* Option B: Statistical Forecast Qty first and Consensus Demand Plan Qty last This is correct. In SAPIBP1, the demand process begins with Statistical Forecast Qty (e.g., generated via statistical models like moving average or exponential smoothing), representing the initial unconstrained forecast.

The process progresses through adjustments (e.g., manual overrides, market inputs) and collaboration, culminating in Consensus Demand Plan Qty, the final agreed-upon demand plan after S&OP meetings.

This reflects SAP IBP's S&OP workflow: forecast generation # review # consensus.

* Option C: Local Demand Plan first and Consensus Demand Plan Qty last As noted, "Local Demand Plan" is not a standard key figure in SAPIBP1 or S&OP terminology, making this incorrect despite the valid end point.

* Option D: Statistical Forecast Qty first and Global Demand Plan Qty for S&OP last While

"Statistical Forecast Qty" is a valid starting point, "Global Demand Plan Qty for S&OP" is not a standard key figure in SAPIBP1. The correct term is "Consensus Demand Plan Qty," which is more specific to the S&OP output.

Thus, B aligns with SAP IBP's S&OP demand planning progression per SAPIBP1's standard key figures and official S&OP

process documentation.

NEW QUESTION # 37

.....

With the help of the C_IBP_2502 practice exam questions and preparation material offered by Easy4Engine, you can pass any C_IBP_2502 certifications exam in the first attempt. You don't have to face any trouble, and you can simply choose to do a selective C_IBP_2502 brain dumps to pass the exam. We offer guaranteed success with C_IBP_2502 Questions on the first attempt, and you will be able to pass the C_IBP_2502 exam in short time. You can always consult our C_IBP_2502 certified professional support if you are facing any problems.

Latest C_IBP_2502 Examprep: https://www.easy4engine.com/C_IBP_2502-test-engine.html

SAP Reliable C_IBP_2502 Exam Review Remember to check your mailbox please, Our system will automatically send the Latest C_IBP_2502 Examprep - SAP Certified Associate - SAP IBP for Supply Chain questions & answers to you, then you can check your email to download the latest torrent for practice, We will provide the free update of our C_IBP_2502 study engine until you pass your exam successfully, The three versions of our C_IBP_2502 exam questions are PDF & Software & APP version for your information.

Now is not the time to be afraid to take any more difficult SAP Certified Associate - SAP IBP for Supply Chain C_IBP_2502 certification exams, You can, however, change the News Feed to display your friends' most recent posts.

Remember to check your mailbox please, Our system will automatically C_IBP_2502 send the SAP Certified Associate - SAP IBP for Supply Chain questions & answers to you, then you can check your email to download the latest torrent for practice.

Reliable C_IBP_2502 Exam Review - Realistic 2025 SAP Latest SAP Certified Associate - SAP IBP for Supply Chain Examprep Pass Guaranteed

We will provide the free update of our C_IBP_2502 study engine until you pass your exam successfully, The three versions of our C_IBP_2502 exam questions are PDF & Software & APP version for your information.

In addition, you will have access to the updates of C_IBP_2502 study material for one year after the purchase date.
