

Reliable CCM Exam Blueprint - CCM New Study Questions

CCM Exam Study Questions with 100% Correct Answers 2023

The most effective cost containment strategy used in pharmacy benefits management is:

- A) Volume purchase discounts.
- B) Use of mail order pharmacies.
- C) Use of a preferred drug list.
- D) Use of generic drugs. - Correct Answer-Answer: D) Use of generic drugs.

Rationale: While all of these strategies are used to contain costs in pharmacy benefits management, the most cost effective strategy is to use generic medications in lieu of name brand drugs.

Case management facilitates the achievement of client wellness and autonomy through advocacy, assessment, planning, communication, education, resource management, and service facilitation.

The case manager's primary function is:

- A) Care coordination
- B) Cost containment
- C) Outcomes management
- D) Education - Correct Answer-Answer: A) Care coordination

The case manager links clients with appropriate providers and resources throughout the continuum of health and human services and care settings, while ensuring that the care provided is safe, effective, client-centered, timely, efficient, and equitable. This approach achieves optimum value and desirable outcomes for all—the clients, their support systems, the providers, and the payers. All four are case management functions, but the primary function the case manager is coordination of care.

Case managers facilitate client autonomy and wellness through:

- A) Persuasion, financial incentives, and communication.
- B) Assessing, goal setting, and service facilitation.
- C) Caregiver education and resource management.
- D) Advocacy, communication, and education. - Correct Answer-Answer D) Advocacy, communication, and education.

CCM New Study Questions - Valuable CCM Feedback

The clients can try out and download our CCM study materials before their purchase. They can immediately use our CCM training

guide after they pay successfully. Our expert team will update the study materials periodically to make sure that our worthy customers can always have the latest and valid information. And if the clients encounter the problems in the course of using our CCM Learning Engine, our online customer service staff will enthusiastically solve their problems.

Medical Professional Certified Case Manager Certification Exam (CCM) Sample Questions (Q16-Q21):

NEW QUESTION # 16

In case a Variation is initiated by the Engineer for prompt implementation [FIDIC Red, and Yellow Books, 2017 Editions]
Choose all of the correct answers (multiple possibilities).

- A. ... the Contractor is required to commence implementing the varied works even if it would pose immediate hazard to the safety of public areas surrounding the Site
- B. ... the Contractor is required to commence implementing the varied works and take records of all the details (... regarding the details of the varied works executed, expenditures incurred, and impact on progress etc.)
- C. ... the Contractor within 28 days after receiving such instruction shall submit to the Engineer a description of the varied work, a programme for its execution and a proposal for adjustment of the Contract Price.
- D. ... the Contractor is not bound to start implementing the varied works right up until the price for the varied works is fully agreed (or determined)
- E. ... the Contractor may send a Notice to the Engineer, that the subject of the Variation was Unforeseeable (having regard to the scope and nature of the Works), hence, the Contractor is not to start implementing the varied work promptly.

Answer: B,C

Explanation:

Comprehensive and Detailed Explanation:

Option B is correct: When instructed to implement a Variation promptly, the Contractor must commence work and keep detailed records for subsequent valuation and impact assessment.

Option D is correct: The Contractor is required to submit, within 28 days, a description, programme, and price proposal relating to the Variation as part of contract procedures.

Option A is incorrect: The Contractor generally must proceed promptly regardless of dispute about foreseeability but may reserve rights via notices.

Option C is incorrect: Safety cannot be compromised; the Contractor should not undertake hazardous work without mitigation.

Option E is incorrect: The Contractor is generally bound to start work upon instruction even if the price is not yet agreed.

NEW QUESTION # 17

Under the FIDIC Red and Yellow Books (edition 1999): if the Engineer gives an instruction which requires the Employer's prior approval, the Contractor is required to verify whether the Engineer has obtained the Employer's prior approval or not. Is this statement true or false?

- A. True
- B. False

Answer: B

Explanation:

Under the FIDIC Red and Yellow Books 1999 editions, the Engineer acts as the Employer's representative with authority delegated under the contract. When an instruction requires the Employer's prior approval, it is primarily the Engineer's responsibility to obtain that approval before issuing the instruction to the Contractor.

The Contractor is not contractually required to verify whether the Engineer has obtained the Employer's approval. The Contractor is generally entitled to rely on the Engineer's instructions as valid and binding unless there is clear evidence to the contrary.

This principle avoids placing an undue administrative burden on the Contractor and maintains the hierarchical contract administration structure, where the Engineer is the primary point of contact and decision-maker.

NEW QUESTION # 18

You are the Contract Manager of the Engineer for a contract using FIDIC Yellow Book (edition 2017). You are drafting a notice holding the Commencement Date. Which one of the following approaches has the most clear and unambiguous drafting?

- A. The commencement date of this project under Sub-Clause 8.1 of the Conditions of Contract will be 10 days from 7 April 2023.
- B. The Contractor is kindly notified that the project shall be started by 17 April 2023.
- C. I hereby give notice, in accordance with Sub-Clause 8.1 of the Conditions of Contract, the Commencement Date shall be 17 April 2023.
- D. I hereby give notice, in accordance with Sub-Clause 1.1.84 and 8.2 of the Conditions of Contract, that the Time for Completion shall commence from 17 April 2023.

Answer: C

Explanation:

Option A provides the clearest and most unambiguous notice because:

It explicitly references the relevant Sub-Clause (8.1) that governs Commencement Date notification.

It uses precise language "I hereby give notice" indicating formal notification.

It clearly states the Commencement Date with a specific date (17 April 2023).

Options B and C are less formal or ambiguous and do not refer to the proper contract clause, which could lead to disputes. Option

D incorrectly refers to the Time for Completion start rather than the Commencement Date specifically.

Clear and formal notices help prevent contractual disputes by explicitly identifying the contractual clause and key date.

NEW QUESTION # 19

Which one statement is correct regarding the FIDIC Red Book (edition 2017)?

- A. Instructions to Tenderers are part of the Employer's Requirements.
- B. Instructions to Tenderers may require the tenderer to provide information on matters in Sub-Clause 4.3 on Contractor's Representative and Sub-Clause 6.12 on Key Personnel.
- C. No Data other than required by the General Conditions of Contract may be entered in the Contract Data.
- D. General Conditions of Contract cannot be amended as it may imbalance the obligations and rights of the Parties.

Answer: B

Explanation:

Comprehensive and Detailed Explanation:

In the FIDIC Red Book 2017, Instructions to Tenderers are part of the tender documents but are distinct from the Employer's Requirements. They guide tenderers on how to prepare and submit their tenders. Specifically, Instructions to Tenderers may require tenderers to provide detailed information about their organization, key personnel, and the Contractor's Representative (see Sub-Clause 4.3 on Contractor's Representative and Sub-Clause 6.12 on Key Personnel), which is essential for evaluating the capability and resources of the tenderer.

Option A is incorrect because Instructions to Tenderers are separate from Employer's Requirements; the latter define the scope and technical needs of the project.

Option B is incorrect; Contract Data may include specific data relevant to the particular project beyond just the General Conditions, including amendments and project-specific information.

Option D is incorrect because the General Conditions can be amended through the Particular Conditions (within limits), provided the amendments are balanced and agreed upon by both Parties.

NEW QUESTION # 20

Both FIDIC Silver Book (SB) and Yellow Book (YB) (edition 1999) mention the Contractor scrutinising the Employer's Requirements. Which statement is correct?

- A. Scrutinising in FIDIC Yellow Book 1999 means that the Contractor has the opportunity after contract close to report on any errors, mistakes or conflicts in the Employer's Requirements. In the FIDIC Silver Book 1999 scrutinising provides that obligation during the tender period; Contractor has the opportunity to report on any errors, mistakes or conflicts in the Employer's Requirements and for Employer to change it; for after contract closes this is not a duty anymore of Employer.
- B. Scrutinising in FIDIC Yellow Book 1999 means the same as in FIDIC Silver Book 1999. In both models it means that after the contract closes and before starting the actual making of the design, the Contractor has to read the Employer's Requirements very thoroughly and check on any errors, omissions or conflicts.
- C. Scrutinising in FIDIC Silver Book 1999 means that the Contractor should read the Employer's Requirements very thoroughly after the contract closes and see if the Employer's Requirements is complete or if something is missing.
- D. Scrutinising in FIDIC Yellow Book 1999 and Silver Book 1999 means that the Contractor must ask the Employer to check the Employer's Requirements very well to see if the Works can be built on that location according to the Employer's Requirements.

Answer: A

Explanation:

Comprehensive and Detailed Explanation:

Option D correctly captures the difference between Yellow and Silver Books (1999):

In the Yellow Book, the Contractor may raise concerns after contract close.

In the Silver Book, the Contractor must scrutinize and report on Employer's Requirements during the tender period, and after contract close this duty lapses.

Other options misunderstand timing or scope of scrutiny.
