Cisco 300-740 ExamGuide, Syllabus and Questions

www.NWExam.com
Get complete detail on 300-740 exam guide to crack Cisco Designing and
Implementing Secure Cloud Access for Users and Endpoints. You can collect all
information on 300-740 tutorial, practice test, books, study material, exam
questions, and syllabus. Firm your knowledge on Cisco Designing and
Implementing Secure Cloud Access for Users and Endpoints and get ready to
crack 300-740 certification. Explore all information on 300-740 exam with
number of questions, passing percentage and time duration to complete test.

Many candidates do not have actual combat experience, for the qualification examination is the first time to attend, they always feel
aimless and worried about the 300-740 exam very much. But we can help all of these candidates on 300-740 study questions.
Numerous grateful feedbacks form our loyal customers proved that we are the most popular vendor in this field to offer our 300-
740 preparation questions. You can totally relay on us.

Cisco 300-740 Exam Syllabus Topics:

Topic	Details
Topic 1	• SAFE Architectural Framework: This section of the exam measures skills of Security Architects and explains the Cisco SAFE framework, a structured model for building secure networks. It emphasizes the importance of aligning business goals with architectural decisions to enhance protection across the enterprise.
Topic 2	• Threat Response: This section of the exam measures skills of Incident Response Engineers and focuses on responding to threats through automation and data analysis. It covers how to act based on telemetry and audit reports, manage user or application compromises, and implement response steps such as containment, reporting, remediation, and reinstating services securely.

Topic 3	• Network and Cloud Security:This section of the exam measures skills of Network Security Engineers and covers policy design for secure access to cloud and SaaS applications. It outlines techniques like URL filtering, app control, blocking specific protocols, and using firewalls and reverse proxies. The section also addresses security controls for remote users, including VPN-based and application-based access methods, as well as policy enforcement at the network edge.
Topic 4	• SAFE Key Structure: This section of the exam measures skills of Network Security Designers and focuses on the SAFE framework's key structural elements. It includes understanding 'Places in the Network'—the different network zones—and defining 'Secure Domains' to organize security policy implementation effectively.
Topic 5	• Integrated Architecture Use Cases: This section of the exam measures the skills of Cloud Solution Architects and covers key capabilities within an integrated cloud security architecture. It focuses on ensuring common identity across platforms, setting multicloud policies, integrating secure access service edge (SASE), and implementing zero-trust network access models for more resilient cloud environments.
Topic 6	• User and Device Security: This section of the exam measures skills of Identity and Access Management Engineers and deals with authentication and access control for users and devices. It covers how to use identity certificates, enforce multifactor authentication, define endpoint posture policies, and configure single sign-on (SSO) and OIDC protocols. The section also includes the use of SAML to establish trust between devices and applications.
Topic 7	• Cloud Security Architecture: This section of the exam measures the skills of Cloud Security Architects and covers the fundamental components of the Cisco Security Reference Architecture. It introduces the role of threat intelligence in identifying and mitigating risks, the use of security operations tools for monitoring and response, and the mechanisms of user and device protection. It also includes strategies for securing cloud and on-premise networks, as well as safeguarding applications, workloads, and data across environments.

Free PDF 2026 300-740: Latest Reliable Designing and Implementing Secure Cloud Access for Users and Endpoints Study Notes

Our 300-740 study guide in order to allow the user to form a complete system of knowledge structure, the qualification examination of test interpretation and supporting course practice organic reasonable arrangement together, the 300-740 simulating materials let the user after learning the section, and each section between cohesion and is closely linked, for users who use the 300-740 training quiz to build a knowledge of logical framework to create a good condition.

Cisco Designing and Implementing Secure Cloud Access for Users and Endpoints Sample Questions (Q75-Q80):

NEW QUESTION # 75
What is the primary purpose of implementing identity certificates for user and device authentication?

- A. To ensure secure access to resources
- B. To track device locations
- C. To increase network speed
- D. To monitor user activity

Answer: A

NEW QUESTION # 76

```
Ciscoasa# show vpn-sessiondb detail anyconnect
Username   : USER1                    Index       : 1
Assigned IP : 10.1.2.3        Public IP    : 4.5.6.1
Protocol   : AnyConnect-Parent SSL-Tunnel DTLS-Tunnel
License    : AnyConnect Premium
Bytes Tx   : 465106           Bytes Rx     : 395293
Pkts Tx    : 3310             Pkts Rx      : 4115
Group Policy : PolicyAllow    Tunnel Group : Employee
Login Time : 01:41:18 CEST Mon Mar 9 2020
Duration   : 0h:17m:45s
TCP Dst Port : 443            Auth Mode    : userPassword
Idle Time Out: 30 Minutes     Idle TO Left : 12 Minutes

          tunnel-group Employee webvpn-atributes

          pre-fill-username ssl-client
          secondary-pre-fill-username ssl-client
          group-alias Employee enable
```

Refer to the exhibit. An engineer must implement a remote access VPN solution that provides user and device verification. The company uses Active Directory for user authentication and ID certificates for device identity. Users are currently able to connect using only a valid username and password, even if their computer is missing the required certificate.
Which command from the Cisco ASA tunnel-group completes the requirement of verifying device identity in addition to user identity?

- A. authentication aaa certificate
- B. authentication mfa
- C. ldap-attribute-map PolicyAllow
- D. webvpn authorize-device

Answer: A

Explanation:
To enforce both user-based and device-based authentication on Cisco ASA, the tunnel group must include the command: authentication aaa certificate. This configuration requires that both a valid username/password (authenticated via AAA, such as Active Directory) and a trusted certificate (device identity) are present before allowing VPN access. Without this directive, only username/password credentials are validated, which leads to the scenario described in the question.

NEW QUESTION # 77
The use of a reverse proxy in cloud security is important for:

- A. Only logging HTTP/HTTPS traffic
- B. Directly exposing application servers to the internet
- C. Providing an additional layer of abstraction and control to ensure the security of backend servers
- D. Simplifying the network by removing the need for firewalls

Answer: C

NEW QUESTION # 78
What does the term "workload" refer to in the context of cloud security?

- A. The physical servers in a data center
- B. The user's responsibility in managing cloud security
- C. Applications and processes running in cloud environments
- D. The amount of data processed by the cloud

Answer: C

NEW QUESTION # 79

Utilizing response automation can significantly reduce the time to _____ to incidents, thereby minimizing potential damage.

- **A. respond**
- B. contribute
- C. escalate
- D. neglect

Answer: A

NEW QUESTION # 80

......

There are rare products which can rival with our products and enjoy the high recognition and trust by the clients like our products. Our products provide the 300-740 study materials to clients and help they pass the test 300-740 certification which is highly authorized and valuable. Our company is a famous company which bears the world-wide influences and our 300-740 Study Materials are recognized as the most representative and advanced study materials among the same kinds of products. Whether the qualities and functions or the service of our product, are leading and we boost the most professional expert team domestically.
