## Fortinet FCP—FortiClient EMS 7.2 Administrator Sample Questions (Q64-Q69):

### NEW QUESTION # 64

Refer to the exhibit.

**Compliance Profile**

### Zero Trust Tagging Rule Set

Name: Sales Department Compliance

Tag Endpoint As: Sales Department Compliance

Enabled: ☒

Comments: Optional

| Type                              | Value            |
|-----------------------------------|------------------|
| Windows (2)                       |                  |
| Vulnerable Devices Severity Level | Medium or higher |
| Running Process                   | Calculator.exe   |

Buttons: Save, Cancel

Based on the settings shown in the exhibit, which two actions must the administrator take to make the endpoint compliant? (Choose two.)

- A. Enable the web filter profile.
- B. Run Calculator application on the endpoint.
- C. Integrate FortiSandbox for infected file analysis
- D. Patch applications that have vulnerability rated as high or above.

**Answer: B,D**

Explanation:

- \* Observation of Compliance Profile:
  - \* The compliance profile shown in the exhibit includes rules for vulnerability severity level and running process (Calculator.exe).
  - \* Evaluating Actions for Compliance:
  - \* To make the endpoint compliant, the administrator needs to ensure that the vulnerability severity level is medium or higher is patched (D).
  - \* Additionally, the Calculator.exe application must be running on the endpoint (B).
  - \* Eliminating Incorrect Options:
  - \* Enabling the web filter profile (A) is not related to the compliance rules shown.
  - \* Integrating FortiSandbox (C) is not a requirement in the given compliance profile.
  - \* Conclusion:
  - \* The correct actions are to run the Calculator application on the endpoint (B) and patch applications with vulnerabilities rated as high or above (D).
- References:
- \* FortiClient EMS compliance profile configuration documentation from the study guides.

#### NEW QUESTION # 65

What is the function of the quick scan option on FortiClient?

- A. It scans programs and drivers that are currently running, for threats
- B. It performs a full system scan including all files, executable files, DLLs, and drivers for threats.
- **C. It scans executable files, DLLs, and drivers that are currently running, for threats.**
- D. It allows users to select a specific file folder on their local hard disk drive (HDD), to scan for threats.

**Answer: C**

Explanation:

Understanding Quick Scan Function:

The quick scan option on FortiClient is designed to scan certain elements of the system quickly for threats.

Evaluating Scan Scope:

The quick scan specifically targets executable files, DLLs, and drivers that are currently running, providing a rapid assessment of the active components of the system.

Conclusion:

The correct answer is C, as it accurately describes the function of the quick scan option on FortiClient.

Reference:

FortiClient scanning options documentation from the study guides.

#### NEW QUESTION # 66

Which FortiClient feature is required, to block access to malicious websites?

- A. Sandbox integration
- **B. Web filtering**
- C. Antiexploit
- D. Application firewall

**Answer: B**

#### NEW QUESTION # 67

Refer to the exhibit, which shows multiple endpoint policies on FortiClient EMS.

Which policy is applied to the endpoint in the AD group trainingAD?

Log - Provisioning

| Endpoint Policies |                                       |                                        |                     |          |         |  | + Add | Change Priority | Refresh | Clear Filters |  |
|-------------------|---------------------------------------|----------------------------------------|---------------------|----------|---------|--|-------|-----------------|---------|---------------|--|
| Name              | Assigned Groups                       | Profile                                | Policy Components   | Priority | Enabled |  |       |                 |         |               |  |

|                   |                                       |                                        | 100% ✓              |          |         |  |       |                 |         |               |  |
| Default           |                                       | PROFILE Training<br>OFF-FABRIC Default | On-Fabric On-Fabric | 3        |         |  |       |                 |         |               |  |
|                   |                                       |                                        | 100% ✓              |          |         |  |       |                 |         |               |  |

FORTINET

- A. The Training policy
- B. Both the Sales and Training policies because their priority is higher than the Default policy
- C. The sales policy
- D. The Default policy because it has the highest priority

**Answer: A**

Explanation:

Observation of Endpoint Policies:

The exhibit shows multiple endpoint policies with their assigned groups, priority levels, and enabled status.

Evaluating Policy Assignment:

The Training policy is specifically assigned to the "trainingAD.training.lab" group, with a higher priority than the Default policy.

Conclusion:

The correct policy applied to the endpoint in the AD group "trainingAD" is the Training policy (A).

#### NEW QUESTION # 68

Which security fabric component sends a notification to quarantine an endpoint after IOC detection in the automation process?

- A. FortiAnalyzer
- B. FortiClient
- C. FortiGate
- D. FortiClient EMS

**Answer: D**

Explanation:

\* Understanding the Automation Process:

\* In the Security Fabric, automation processes can include actions such as quarantining an endpoint after an IOC (Indicator of Compromise) detection.

\* Evaluating Responsibilities:

\* FortiClient EMS plays a crucial role in endpoint management and can send notifications to quarantine endpoints.

\* Conclusion:

\* The correct security fabric component that sends a notification to quarantine an endpoint after IOC detection is FortiClient EMS.

References:

\* FortiClient EMS and automation process documentation from the study guides.

#### NEW QUESTION # 69

.....

In traditional views, the FCP\_FCT\_AD-7.2 practice materials need you to spare a large amount of time on them to accumulate the useful knowledge may appearing in the real FCP\_FCT\_AD-7.2 exam. However, our FCP\_FCT\_AD-7.2 learning questions are not doing that way. According to data from former exam candidates, the passing rate of our FCP\_FCT\_AD-7.2 learning material has up to 98 to 100 percent. There are adequate content to help you pass the exam with least time and money.
