The website pages list the important information about our FCSS_EFW_AD-7.4 real quiz, the exam name and code, the updated time, the total quantity of the questions and answers, the characteristics and merits of the product, the price, the discounts to the client, the details and the guarantee of our FCSS_EFW_AD-7.4 Training Materials, the contact methods, the evaluations of the client on our product and the related exams. You can analyze the information the website pages provide carefully before you decide to buy our FCSS_EFW_AD-7.4 real quiz

Fortinet FCSS_EFW_AD-7.4 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Security Profiles: This section of the exam measures the skills of Network Security Engineers and focuses on managing security inspection profiles, including SSL and SSH inspections. Candidates will learn to apply a combination of web filtering, application control, and Internet Service Database (ISDB) to enhance network security. The section also covers integrating Intrusion Prevention Systems (IPS) to monitor and mitigate threats within enterprise networks.

Topic 2	<ul style="list-style-type: none"> • VPN: This section of the exam measures the skills of Network Security Engineers and covers the implementation of secure communication tunnels for enterprise environments. Candidates will learn to configure IPsec VPN with IKE version 2 to establish encrypted connections. The section also includes the implementation of ADVPN to enable on-demand VPN tunnels between different sites, ensuring secure and dynamic connectivity.
Topic 3	<ul style="list-style-type: none"> • Central Management: This section of the exam measures the skills of Security Administrators and focuses on implementing central management for Fortinet security solutions. It includes configuring and managing devices centrally to streamline network security operations. Candidates will understand how to maintain consistency in security policies and automate deployments for efficient management of large-scale enterprise environments.
Topic 4	<ul style="list-style-type: none"> • Routing: This section of the exam measures the skills of Security Administrators and covers the implementation of advanced routing protocols to manage enterprise traffic effectively. Candidates will gain expertise in configuring Open Shortest Path First (OSPF) for dynamic routing and Border Gateway Protocol (BGP) to facilitate communication between different networks, ensuring efficient traffic flow across enterprise environments.
Topic 5	<ul style="list-style-type: none"> • System Configuration: This section of the exam measures the skills of Network Security Engineers and covers the implementation of the Fortinet Security Fabric, ensuring seamless integration across security solutions. It also includes configuring hardware acceleration on FortiGate devices to optimize performance. Candidates will learn to set up different operation modes for high-availability clusters and implement enterprise networks using VLANs and VDOMs. Additionally, it covers various use case scenarios that demonstrate how Fortinet solutions contribute to secure network environments.

Valid Dumps FCSS_EFW_AD-7.4 Ppt - FCSS_EFW_AD-7.4 Related Certifications

Obtaining the FCSS_EFW_AD-7.4 certificate will make your colleagues and supervisors stand out for you, because it represents your professional skills. At the same time, it will also give you more opportunities for promotion and job-hopping. The FCSS_EFW_AD-7.4 latest exam dumps have different classifications for different qualification examinations, which can enable students to choose their own learning mode for themselves according to the actual needs of users. On buses or subways, you can use fractional time to test your learning outcomes with FCSS_EFW_AD-7.4 Test Torrent, which will greatly increase your professional efficiency.

Fortinet FCSS - Enterprise Firewall 7.4 Administrator Sample Questions (Q49-Q54):

NEW QUESTION # 49

What is the diagnose test application ipsmonitor 99 command used for?

- A. To restart all IPS engines and monitors
- B. To provide information regarding IPS sessions
- C. To enable IPS bypass mode
- D. To disable the IPS engine

Answer: A

NEW QUESTION # 50

Which two configurations are mandatory for an auto-discovery VPN (ADVPN) implementation on a hub? (Choose two.)

- A. The remote-ip must be on a different IP address from the overlay subnet.
- B. set net-device must be disabled to avoid dynamic interface creation.

- C. An overlay IP address with a mask of /32 must be assigned to the IPsec virtual interface.
- D. set add-route must be enabled to add routes.

Answer: B,C

NEW QUESTION # 51

An administrator applied a block-all IPS profile for client and server targets to secure the server, but the database team reported the application stopped working immediately after.

How can an administrator apply IPS in a way that ensures it does not disrupt existing applications in the network?

- A. Select flow mode in the IPS profile to accurately analyze application patterns.
- B. Set the IPS profile signature action to default to discard all possible false positives.
- C. Use an IPS profile with all signatures in monitor mode and verify patterns before blocking.
- D. Limit the IPS profile to server targets only to avoid blocking connections from the server to clients.

Answer: C

Explanation:

Applying an aggressive IPS profile without prior testing can disrupt legitimate applications by incorrectly identifying normal traffic as malicious. To prevent disruptions while still monitoring for threats:

Enable IPS in "Monitor Mode" first:

This allows FortiGate to log and analyze potential threats without actively blocking traffic.

Administrators can review logs and fine-tune IPS signatures to minimize false positives before switching to blocking mode.

Verify and adjust signature patterns:

Some signatures might trigger unnecessary blocks for legitimate application traffic.

By analyzing logs, administrators can disable or modify specific rules causing false positives.

NEW QUESTION # 52

Refer to the exhibit, which shows partial outputs from two routing debug commands.

```
FortiGate # get router info kernel
tab=254 vf=0 scope=0 type=1 proto=11 prio=0 0.0.0.0/0.0.0.0/0->0.0.0.0/0 pref=0.0.0.0 gwy=100.64.1.254 dev=3(port1)
tab=254 vf=0 scope=0 type=1 proto=11 prio=10 0.0.0.0/0.0.0.0/0->0.0.0.0/0 pref=0.0.0.0 gwy=100.64.2.254 dev=6(port2)
tab=254 vf=0 scope=253 type=1 proto=2 prio=0 0.0.0.0/0.0.0.0/0->10.1.0.0/24 pref=10.1.0.254 gwy=0.0.0.0 dev=9(port3)

FortiGate # get router info routing-table all

Routing table for VRF=0
S* 0.0.0.0/0 [10/0] via 100.64.1.254, port1
   [10/0] via 100.64.2.254, port2, [10/0]
C 10.1.0.0/24 is directly connected, port3
S 10.1.10.0/24 [10/0] via 10.1.1.1, port3
C 100.64.1.0/24 is directly connected, port1
C 100.64.2.0/24 is directly connected, port2
```

Which change must an administrator make on FortiGate to route web traffic from internal users to the internet, using ECMP?

- A. Set preserve-session-route to enable.
- B. Set the priority of the static default route using port1 to 10.
- C. Set the priority of the static default route using port2 to 1.
- D. Set snat-route-change to enable.

Answer: B

NEW QUESTION # 53

Refer to the exhibits.

Network topology

Output from the command config system ha

```
FortiGate_A # config system ha
FortiGate_A # show
config system ha
    set group-name "Fortinet"
    set mode a-p
    set password ENC ltj/cXx5WiX6
    set hbdev "port3" 0
    set session-pickup enable
    set override disable
    set priority 200
    set pingserver-monitor-interface "port4"
end
```

A network diagram and the output from the command config system ha are shown. The administrator has configured the cluster with the commands shown in the exhibit. Why is the HA cluster not forming?

- A. The administrator must reconfigure the cluster in FGSP mode.
- **B. The administrator must reconfigure the heartbeat interface.**
- C. The administrator must reconfigure the monitor interface.
- D. The administrator must reconfigure the cluster in active-active mode.

Answer: B

NEW QUESTION # 54
