Salesforce Certified Field Service Consultant Sample Questions (Q131-Q136):

NEW QUESTION # 131

Service appointments in a "cannot complete" status may indicate that an additional part or expert assistance is needed to complete the work. Universal containers defined that service appointments in a "cannot complete" status are unable to be rescheduled or unscheduled for history tracking purposes.

Which two items should the consultant recommend to meet the requirement?

Choose 2 answers

- A. Ensure that status transition are configured to allow the status update from "cannot complete" to "scheduled".
- **B. Define "cannot complete" as a pinned status for scheduling and optimization services.**
- C. Define "cannot complete" as a pinned status for auto-dispatch services.
- **D. Ensure that status transitions are configured to prevent the update from "cannot complete" to "none".**

Answer: B,D

Explanation:

Explanation

Pinned statuses prevent service appointments from being rescheduled or unscheduled by scheduling and optimization services³.

Status transitions define the valid status changes for service appointments based on business rules. References: 3

NEW QUESTION # 132

Service resources at universal container UC frequently work in more than one serviceterritory the current scheduling policy looks only at primary territory while we still want to optimize to use the service resource primary when scheduling. UC also wants the scheduling policy to look at the resources secondary services territory Which two scheduling policy changes should a consultant recommend?

Choose 2 answers

- **A. Deselect workinglocation primary on the working territories work rule**
- B. Remove the match territory work rule
- **C. Includes the match territory work rule**
- D. Select working location enable primary on the working territories work rule

Answer: A,C

Explanation:

The match territorywork rule is used to match service appointments to service resources based on their assigned territories.

Deselecting working location primary on the working territories work rule allows considering secondary territories as well as primary territories when matching service appointments to service resources. Removing the match territory work rule would ignore territories when scheduling service appointments. Selecting working location enable primary on the working territories work rule would only consider primary territories when matching service appointments to service resources.
