Exam Microsoft GH-300 Exercise | GH-300 Authentic Exam Questions

We are leading company and innovator in this GH-300 exam area. We are grinely determined and confident in helping you pass the GH-300 exam. With professional experts and brilliant teamwork, our GH-300 exam dumps have helped exam candidates succeed since the beginning. To make our GH-300 Practice Engine more precise, we do not mind splurge heavy money and effort to invite the most professional teams into our group. They are the core value and truly helpful with the greatest skills.

Microsoft GH-300 Exam Syllabus Topics:

Topic	Details
Topic 1	Privacy Fundamentals and Context Exclusions: This domain focuses on Security Engineers and Compliance Officers and addresses improving code quality with Copilot's test suggestions and security optimizations. It covers identification of security vulnerabilities, performance enhancements, and privacy features like content exclusions at repository and organization levels with explanation of their limitations. Candidates learn about safeguarding mechanisms such as duplication detection, contractual protections, security checks, and troubleshooting guide for common Copilot issues including context exclusions and suggestion gaps.
Topic 2	Responsible :This section of the exam measures skills of AI Ethics Officers and Risk Managers and covers the responsible and ethical usage of AI technologies. It explains the risks and limitations associated with generative AI tools, including biases in training data and the need to validate AI outputs. Candidates learn how to operate AI responsibly by identifying potential harms such as bias, fairness, privacy concerns, and mitigating these harms by applying ethical AI principles.
Topic 3	How GitHub Copilot Works and Handles Data: Designed for Machine Learning Engineers and Data Privacy Specialists, this section covers the data lifecycle and processing behind Copilot's code suggestions. It explains how context is gathered, prompts constructed, responses generated, and post-processed through proxy services. Candidates understand Copilot's data policies, handling of inputs, and limitations such as context window size and data age influencing suggestion relevance.
Topic 4	Developer Use Cases for AI: Targeting Software Engineers and Technical Leads, this domain elaborates on how AI improves developer productivity across common tasks like learning new languages, translation, documentation, debugging, data science, and refactoring. It discusses Copilot's support in software development lifecycle management and highlights its limitations. Use of the productivity API to track Copilot's impact is also included.

Microsoft GitHub Copilot Sample Questions (Q97-Q102):

NEW QUESTION # 97

How can you improve the context used by GitHub Copilot? (Each correct answer presents part of the solution. Choose two.)

- A. By adding the full file paths to your prompt of important files
- B. By adding the important files to your .gitconfig
- C. By opening the relevant tabs in your IDE
- D. By adding relevant code snippets to your prompt

Answer: C,D

Explanation:

Improving the context for GitHub Copilot involves opening relevant files in your IDE to provide immediate context and adding relevant code snippets directly to your prompts to give Copilot specific examples and information.

NEW QUESTION # 98

What are the effects of content exclusions? (Each correct answer presents part of the solution. Choose two.)

- A. GitHub Copilot suggestions are no longer available in the excluded files.
- B. The excluded content is not directly available to GitHub Copilot to use as context.
- C. The excluded content is no longer used while debugging the code.
- D. The IDE will not count coding suggestions in the excluded content.

Answer: A,B

Explanation:

Content exclusions prevent GitHub Copilot from using the excluded content as context and stop suggestions from being generated in those files.

Reference: GitHub Copilot content exclusion documentation.

NEW QUESTION # 99

A team is using GitHub Copilot Individual in their daily development activities. They need to exclude specific files from being used to inform code completion suggestions. How can they achieve this?

- A. Add a .gitignore file to the repo
- **B. Upgrade to Copilot Business**
- C. Have a repo administrator configure content exclusions
- D. Use the #file Chat variable to exclude the files
- E. Have an organization owner configure content exclusions

Answer: B

Explanation:

"Content exclusions are available only with GitHub Copilot Business and Enterprise. Copilot Individual users cannot configure exclusions." This confirms that the only way for the team to achieve exclusions is by upgrading to Copilot Business.

References: GitHub Copilot content exclusions documentation.

NEW QUESTION # 100

What kind of insights can the GitHub Copilot usage metrics API provide to help evaluate the effectiveness of GitHub Copilot? (Each correct answer presents part of the solution. Choose two.)

- A. The API can refactor your code to improve productivity.
- **B. The API can provide Copilot Chat specific suggestions acceptance metrics.**
- C. The API can generate detailed reports on code quality improvements made by GitHub Copilot.
- **D. The API can track the number of code suggestions accepted and used in the organization.**
- E. The API can provide feedback on coding style and standards compliance.

Answer: B,D

Explanation:

Exact extracts:

* "The Copilot usage metrics API allows organizations to track the number of suggestions shown and accepted by members."

References: GitHub Copilot metrics API documentation.

NEW QUESTION # 101

Which of the following describes role prompting?

- A. Tell GitHub Copilot in what tone of voice it should respond
- **B. Describing in your prompt what your role is to get a better suggestion**
- C. Prompt GitHub Copilot to explain what was the role of a suggestion
- D. Giving GitHub Copilot multiple examples of the form of the data you want to use

Answer: B

Explanation:

Role prompting involves explicitly stating your role or the persona you want GitHub Copilot to adopt within your prompt. This helps Copilot provide more contextually relevant and accurate suggestions. By defining your role (e.g., "As a senior software engineer," "As a technical writer"), you guide Copilot to tailor its responses to align with the expertise and perspective associated with that role. This improves the quality and relevance of the generated code and explanations.

Reference: GitHub Copilot documentation on prompt engineering and best practices.

NEW QUESTION # 102

.....

The GH-300 dumps of ExamsTorrent include valid GitHub Copilot (GH-300) questions PDF and customizable GH-300 practice tests. Our 24/7 customer support provides assistance to help GH-300 Dumps users solve their technical hitches during their test

preparation. The GH-300 exam questions of ExamsTorrent come with up to 365 days of free updates and a free demo.
