

# Reliable JN0-232 Test Voucher | JN0-232 Pass Test

We provide 3 versions of our Security, Associate (JNCIA-SEC) exam torrent and they include PDF version, PC version, APP online version. Each version's functions and using method are different and you can choose the most convenient version which is suitable for your practical situation. For example, the PDF version is convenient for you to download and print our JN0-232 test torrent and is suitable for browsing learning. If you use the PDF version you can print our JN0-232 Guide Torrent on the papers and it is convenient for you to take notes. You learn our JN0-232 test torrent at any time and place. The PC version can stimulate the real exam's environment, is stalled on the Windows operating system and runs on the Java environment. You can use it at any time to test your own exam stimulation tests scores and whether you have mastered our JN0-232 guide torrent or not.

We promise you will pass the exam and obtain the Security, Associate (JNCIA-SEC) certificate successfully with our help of JN0-232 exam questions. According to recent survey of our previous customers, 99% of them can achieve their goals, so believe that we can be the helping hand to help you achieve your ultimate goal. Besides we have high-quality JN0-232 test guide for managing the development of new knowledge, thus ensuring you will grasp every study points in a well-rounded way. On the other hand, if you fail to pass the exam with our JN0-232 Exam Questions unfortunately, you can receive a full refund only by presenting your transcript. At the same time, if you want to continue learning, our JN0-232 test guide will still provide free updates to you and you can have a discount more than one year. Finally our refund process is very simple. If you have any question about Security, Associate (JNCIA-SEC) study question, please contact us immediately.

## Pass Guaranteed JN0-232 - Security, Associate (JNCIA-SEC) Pass-Sure Reliable Test Voucher

The PrepAwayTest wants to win the trust of Juniper JN0-232 exam candidates at any cost. To fulfill this objective the PrepAwayTest is offering top-rated and real JN0-232 exam practice test in three different formats. These JN0-232 exam question formats are PDF dumps, web-based practice test software, and web-based practice test software. All these three JN0-232 Exam Question formats contain the real, updated, and error-free JN0-232 exam practice test.

## Juniper Security, Associate (JNCIA-SEC) Sample Questions (Q21-Q26):

### NEW QUESTION # 21

Which two statements are correct about security zones and functional zones? (Choose two.)

- A. Traffic entering an interface in a functional zone can exit any other transit interface.
- B. Traffic entering transit interfaces can exit an interface in a functional zone.
- C. Traffic entering an interface in a functional zone cannot exit any other transit interface.
- D. Traffic entering transit interfaces cannot exit an interface in a functional zone.

**Answer: C,D**

Explanation:

\* Functional zones(e.g., junos-host, management, null) are not used for forwarding transit traffic. They are used to manage traffic destined to or from the SRX device itself.

\* Option A:Correct. If traffic enters through a functional zone interface, it is meant for the SRX, not for transit, so it cannot exit another interface.

\* Option D:Correct. Transit interfaces handle forwarding traffic, but they cannot send that traffic out through a functional zone interface.

\* Option B and C:Incorrect, because functional zones are strictly control-plane, not transit forwarding zones.

Correct Statements:A and D

Reference:Juniper Networks -Security Zones vs. Functional Zones, Junos OS Security Fundamentals.

### NEW QUESTION # 22

You want to confirm that your SRX Series Firewall is connected to the SBL server.

Which operational mode command would you use in this scenario?

- A. show security utm anti-spam status
- B. show security utm anti-virus status
- C. show security utm content-filtering statistics
- D. show security web filtering status

**Answer: D**

Explanation:

TheSBL (SurfControl Web Filtering)server integration is part of UTM web filtering on SRX. To confirm that the firewall is properly connected and communicating with the SBL server, the command used is:

show security web filtering status

This command displays connectivity information with the SBL server, license status, and filtering operations.

Other options:

\* Anti-virus (Option A) checks antivirus engine status.

\* Content-filtering statistics (Option C) shows local content filtering counters.

\* Anti-spam status (Option D) checks spam engine connectivity.

Correct Command:show security web filtering status

Reference:Juniper Networks -UTM Web Filtering Operational Commands, Junos OS Security Fundamentals.

### NEW QUESTION # 23

You are not able to ping an interface on an SRX Series Firewall.

Which two actions should you take to solve this issue? (Choose two.)

- A. Configure the ICMP protocol for host-inbound-traffic.
- B. Create a security policy to allow ping traffic.
- C. Assign the interface to a security zone.
- D. Assign the interface to the null zone.

**Answer: A,C**

Explanation:

For an SRX firewall interface to respond to management traffic such as ICMP pings:

\* The interface must be assigned to a security zone (Option A). If an interface is not part of any zone, it is placed into the null zone, which drops all traffic.

\* Additionally, the zone must be configured to allow management traffic types as host-inbound-traffic (Option D). For ICMP, the protocol must be explicitly allowed under host-inbound-traffic for that zone.

Other options:

\* Security policies (Option B) control traffic traversing the firewall, not traffic destined to the SRX device itself.

\* Assigning the interface to the null zone (Option C) prevents any communication, including management.

Correct Actions: Assign the interface to a zone and configure ICMP under host-inbound-traffic.

Reference: Juniper Networks - Host Inbound Traffic and Zone Configuration, Junos OS Security Fundamentals.

## NEW QUESTION # 24

When does screening occur in the flow module?

- A. after session lookup
- **B. before session lookup**
- C. during route lookup
- D. during policy lookup

**Answer: B**

Explanation:

In Juniper SRX flow-based packet processing, the flow module is responsible for security functions such as screening, session management, NAT, and policy enforcement. The processing order is critical:

\* Screens are applied before any session lookup. This ensures that packets are inspected for anomalies, floods, or protocol violations before consuming resources for session management. Examples of these screens include TCP SYN flood protection, ICMP flood protection, and port scanning protection.

\* After screening, the session lookup occurs. At this point, the firewall checks whether the packet belongs to an existing session in the session table. If a matching session is found, the packet bypasses policy evaluation and is forwarded according to the session state.

\* If no existing session is found, the packet continues through route lookup, NAT processing, and security policy evaluation before a new session is created.

Thus, screening occurs before the session lookup, protecting the system early in the flow process. This design ensures efficiency by dropping malicious or malformed traffic before allocating session resources.

## NEW QUESTION # 25

Which two statements are true about the NextGen Web Filtering (NGWF) feature on an SRX Series device? (Choose two.)

- A. The NGWF feature consults the Juniper cloud before consulting your local lists.
- B. The NGWF feature does not require a license.
- **C. The NGWF feature consults your local lists before consulting the Juniper cloud.**
- **D. The NGWF feature requires a license.**

**Answer: C,D**

Explanation:

\* License Requirement (Option B): NextGen Web Filtering (NGWF) is a licensed feature on SRX devices. Without a license, the service cannot operate.

\* Local vs. Cloud Lists (Option C): NGWF checks local block/allow lists first. If the URL does not match locally, the request is then checked against the Juniper cloud database.

\* Option A: Incorrect, since the cloud is only consulted if the URL is not in the local list.

\* Option D: Incorrect, as NGWF requires a valid subscription/license.

Correct Statements: NGWF requires a license, and it checks local lists before cloud lookup.

Reference: Juniper Networks - UTM Web Filtering Types (NextGen Web Filtering), Junos OS Security Fundamentals.

## NEW QUESTION # 26

PrepAwayTest expect to design such an efficient study plan to help you build a high efficient learning attitude for your further development. Our JN0-232 study torrent are cater every candidate no matter you are a student or office worker, a green hand or a staff member of many years' experience. Therefore, you have no need to worry about whether you can pass the JN0-232 Exam, because we guarantee you to succeed with our technology strength. The language of our JN0-232 exam questions are easy to follow and the pass rate of our JN0-232 learning guide is as high as 99% to 100%.

With so many excellent functions and trustworthy benefits, JN0-232 Pass Test - Security, Associate (JNCIA-SEC) exam training will make a big difference in your coming JN0-232 Pass Test - Security, Associate (JNCIA-SEC) exam test, We promise that we will full refund if our JN0-232 latest dumps have any problems or you failed the exam with our JN0-232 real dumps, We have one-year service warranty that our customers will receive the update JN0-232 exam preparation within one year.

With so many excellent functions and trustworthy JN0-232 benefits, Security, Associate (JNCIA-SEC) exam training will make a big difference in your coming Security, Associate (JNCIA-SEC) exam test, We promise that we will full refund if our JN0-232 latest dumps have any problems or you failed the exam with our JN0-232 real dumps.

We have one-year service warranty that our customers will receive the update JN0-232 exam preparation within one year, We have many old customers recommend JN0-232 dumps pdf to their classmate and friends as they think it is good value.
