They provide strong backing to the compiling of the L6M7 Exam Questions and reliable exam materials resources. They compile each answer and question carefully. Each question presents the key information to the learners and each answer provides the detailed explanation and verification by the senior experts. The success of our L6M7 latest exam file cannot be separated from their painstaking efforts.

CIPS Commercial Data Management Sample Questions (Q63-Q68):

NEW QUESTION # 63
What is the purpose of a 'Logic Gate'?

- A. To display data in different formats, e.g., videos
- B. To take input from two transistors and convert it to one output
- C. To assist in the analysis of large data sets
- D. To increase the operating speed of a computer

Answer: B

Explanation:
Logic Gates take inputs and convert them to outputs. They perform mathematical calculations, count, compare numbers, and remember data. (P.4)

NEW QUESTION # 64
Which of the following is an example of a Black Box problem where Deep Learning could be used?

- A. The decision of what sentence to give a newly convicted criminal
- B. Choosing the correct supplier to award a contract to
- C. Knowing when cakes are correctly baked and need to come out of the oven
- D. Deciding between transporting cargo by rail or ship

Answer: A

Explanation:
Black Box problems involve input data, but the decision-making process is unknown. Sentencing a criminal involves ethics and morality, which are hard to quantify. (P.38)

NEW QUESTION # 65
Fluffy Pillows Ltd has recently expanded its operations and has hired more staff. These staff will work remotely and because of this Fluffy Pillows Ltd is in need of buying and upgrading their IT systems. The CEO of Fluffy Pillows is examining the security of

currently held data in preparation for the expansion and has recently completed a document which looks into what data is stored where and what the consequences would be if this data were to be stolen or corrupted. In his research he has found multiple data entries for the same information, which he believes could lead to inaccuracies in data reporting. He is also concerned that the data isn't being stored securely and is unsure whether he should retain some of the confidential personal details on employees who have left the business. He has decided that along with the introduction of new systems it is important that all members of staff at Fluffy Pillows are aware of the responsibilities of storing data correctly and the risks of cyber attacks.

What should the CEO do with his wider team?

- A. Ensure all staff members complete basic Cyber Security Training
- B. Ensure that all new staff members have the correct IT equipment they need before they start
- C. Convert all staff to homeworking arrangements so everyone has equal rights
- D. Install malware on all their computers

Answer: A

Explanation:
All staff should get Cyber Security Training. This relates to the last sentence in the case study, which talks about ensuring people store data correctly and know about cyber attacks.

NEW QUESTION # 66
Wiggles Ltd works closely with a supplier called Waggles Incorporated. They are considering a merger but this is not yet public knowledge. The CEOs of each organisation have acknowledged the risk of cyber security in relation to the negotiation and have decided to restrict communications between the organisations on the matter to only a few select individuals. What form of cyber threat does this reduce?

- A. Installation of malware on hardware devices
- B. Social engineering and phishing
- C. Spreading of rumours
- D. Denial of service

Answer: B

Explanation:
If most employees at Wiggles and Waggles don't know the information, they are pointless targets for social engineering. You can only get information from someone who knows something. Option C is incorrect-although restricting information will reduce rumours, this isn't a cyber threat. P.170 Domain: 3.1

NEW QUESTION # 67
In order to increase security at the Local Council building, the Local Council has decided to implement biometrics. What employee information would be required for this to be implemented?

- A. Their council ID number
- B. Their fingerprint
- C. Their logging on password
- D. Their home address

Answer: B

Explanation:
Biometrics uses unique personal details, such as fingerprints, for authentication. This is a more secure method than passwords or ID numbers, as physical attributes are harder to replicate or steal. (P.185)

NEW QUESTION # 68
......

As one of the leading brand in the market, our L6M7 practice materials can be obtained on our website within five minutes. That is the expression of their efficiency.
