To get prepared for the Supermicro Direct Liquid Cooling Service Associate (SDLCSA) Exam certification exam, applicants face a lot of trouble if the study material is not updated. They are using outdated materials resulting in failure and loss of money and time. So to solve all these problems, Pass4training offers actual SDLCSA Questions to help candidates overcome all the obstacles and difficulties they face during SDLCSA examination preparation.

For candidates who want to evaluate and enhance their Supermicro SDLCSA Test Preparation online, the web-based practice test is a perfect choice. You can attempt our 60 Supermicro web-based practice exam whenever it suits you because it is accessible from any location with an internet connection. This Supermicro Direct Liquid Cooling Service Associate (SDLCSA) Exam browser-based practice exam helps you overcome exam fear as it simulates the environment of the real test.

2025 Online SDLCSA Bootcamps | Professional Supermicro Direct Liquid Cooling Service Associate (SDLCSA) Exam 100% Free VCE Dumps

As the authoritative provider of SDLCSA actual exam, we always pursue high pass rate compared with our peers to gain more attention from those potential customers. We guarantee that if you follow the guidance of our SDLCSA learning materials, you will pass the exam without a doubt and get a certificate. Our SDLCSA Exam Practice is carefully compiled after many years of practical effort and is adaptable to the needs of the SDLCSA exam.

Supermicro Direct Liquid Cooling Service Associate (SDLCSA) Exam Sample Questions (Q19-Q24):

NEW QUESTION # 19

Before removing the LPIO board from the PCIe tray, what other component needs to be removed first?

- A. GPU tray
- B. Air shroud
- C. Metal bracket
- D. Motherboard tray

Answer: C

Explanation:
The LPIO (Low-Profile IO) board in Supermicro systems like the SYS-421GE-TNHR2-LCC, part of the PCIe tray, is typically secured by a metal bracket that must be removed first. This bracket holds the LPIO board and associated cables (e.g., BMC cable) in place, as seen in similar designs (e.g., SYS-420GP-TNAR). Removing it involves unscrewing (often 2 screws) and lifting it off, granting access to the LPIO board. A (GPU tray) is a separate assembly, C (motherboard tray) is unrelated to the PCIe tray's LPIO, and D (air shroud) covers components but doesn't secure the board. Supermicro's DLC systems emphasize modular access, making B the correct step. References: Supermicro PCIe tray service guides, DLC system IO component layouts.

NEW QUESTION # 20
The single screw that secures the BMC card is shorter than the 2 screws securing the BMC cable to the PCIe tray. True or False.

- A. False
- B. True

Answer: B

Explanation:

In Supermicro systems, the BMC (Baseboard Management Controller) card is secured with a single, shorter screw to its bracket, while the BMC cable uses 2 longer screws for robust attachment to the PCIe tray, per standard designs (e.g., SYS-420GP-TNAR). This difference accommodates component size and mounting depth in DLC setups. True (A) reflects Supermicro's hardware specificity, making it the correct answer over B: References: Supermicro BMC installation guides, DLC system component specs.

NEW QUESTION # 21

What safety feature prevents the motherboard tray from being removed too quickly and potentially dropped?

- A. A safety cable
- B. A safety switch
- C. A safety latch
- D. A safety pin

Answer: C

Explanation:

In Supermicro servers like the SYS-421GE-TNHR2-LCC, the motherboard tray is a critical component, often heavy with CPUs and DLC cold plates. A safety latch is the standard feature to prevent rapid removal and accidental drops, as seen in manuals (e.g., SYS-420GP-TNAR). Latches on both sides must be released deliberately, ensuring controlled extraction. A cable (A) might tether but not prevent speed, a switch (B) controls electronics, and a pin (D) is less common for trays. Supermicro's DLC systems prioritize safe handling, making C the correct safety mechanism.
References: Supermicro motherboard tray removal guides, DLC system safety features.

NEW QUESTION # 22

How many screws need to be removed in order to release the AOC card from the bracket?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: C

Explanation:

An AOC (Add-On Card) in Supermicro systems, such as a NIC or GPU card, is secured to its bracket with 1 screw on the metal bar at the top, a standard PCIe card mounting practice (e.g., SYS-420GP-TNAR manuals).
This single screw ensures stability while allowing easy removal, consistent with Supermicro's DLC system serviceability. 4 (A), 2 (B), or 3 (D) screws would be excessive for a single card bracket. Supermicro's modular design in DLC solutions supports C as the verified number. References: Supermicro AOC card installation guides, DLC system component specs.

NEW QUESTION # 23

Aside from ESD gloves, what additional tools do you need to remove a DIMM?

- A. Screwdriver
- B. Long-nose pliers (in order to grasp the card)
- C. Torque bit and driver
- D. No additional tools are needed

Answer: D

Explanation:

Removing a DIMM (memory module) in Supermicro systems like the SYS-421GE-TNHR2-LCC requires only ESD gloves for safety; no additional tools are needed. DIMMs are released by pushing down on slot latches and lifting out by hand, per Supermicro manuals (e.g., SYS-420GP-TNAR). A (pliers) risks damage, B (torque bit) and D (screwdriver) are for screws, not DIMMs. Supermicro's DLC systems maintain standard DIMM serviceability, making C correct. References: Supermicro DIMM replacement guides, DLC system maintenance standards.

NEW QUESTION # 24

......

You can download our SDLCSA guide torrent immediately after you pay successfully. After you pay successfully you will receive the mails sent by our system in 10-15 minutes. Then you can click on the links and log in and you will use our software to learn our SDLCSA prep torrent immediately. Not only our SDLCSA Test Prep provide the best learning for them but also the purchase is convenient because the learners can immediately learn our SDLCSA prep torrent after the purchase. So the using and the purchase are very fast and convenient for the learners

SDLCSA VCE Dumps: https://www.pass4training.com/SDLCSA-pass-exam-training.html

It is not hard to know that SDLCSA study materials not only have better quality than any other study materials, but also have more protection, Professional research data is our online service and it contains simulation training examination and practice questions and answers about SDLCSA VCE Dumps - Supermicro Direct Liquid Cooling Service Associate (SDLCSA) Exam training material, Supermicro Online SDLCSA Bootcamps Everyone wants to pass the actual test with ease.

Now, even the title bar for the panel is nice and SDLCSA clean, Linux Essentials for Cybersecurity Pearson uCertify Course and Labs Access Card, It is not hard to know that SDLCSA Study Materials not only have better quality than any other study materials, but also have more protection.

New Online SDLCSA Bootcamps Free PDF | Efficient SDLCSA VCE Dumps: Supermicro Direct Liquid Cooling Service Associate (SDLCSA) Exam

Professional research data is our online service and it SDLCSA Latest Exam Forum contains simulation training examination and practice questions and answers about Supermicro Direct Liquid Cooling Service Associate (SDLCSA) Exam training material.

Everyone wants to pass the actual test with ease, Maybe you SDLCSA Detailed Study Plan want to know more about the Supermicro Direct Liquid Cooling Service Associate (SDLCSA) Exam exam prep training or you have difficulties in installing the software.

With passing rate up to 98 to 100 percent, you will get through the SDLCSA exam with ease.
