Overall, the PMI PMP Certification Exam is a valuable investment for project managers who want to advance their careers and make a significant impact in their organizations.

PMI Project Management Professional (2025 Version) Sample Questions (Q61-Q66):

NEW QUESTION # 61

An internal process was recently introduced by the management team. The new process, however, has not added much value and is impacting the project's deliverables.

What should the project manager do?

- A. Allocate one team member who can focus only on process adherence.
- B. Ensure that the team implements the process without delays in deliverables.
- C. Discuss this with the team and convince them to continue with the process.

- D. Negotiate with management and get the required process changed.

Answer: D

NEW QUESTION # 62

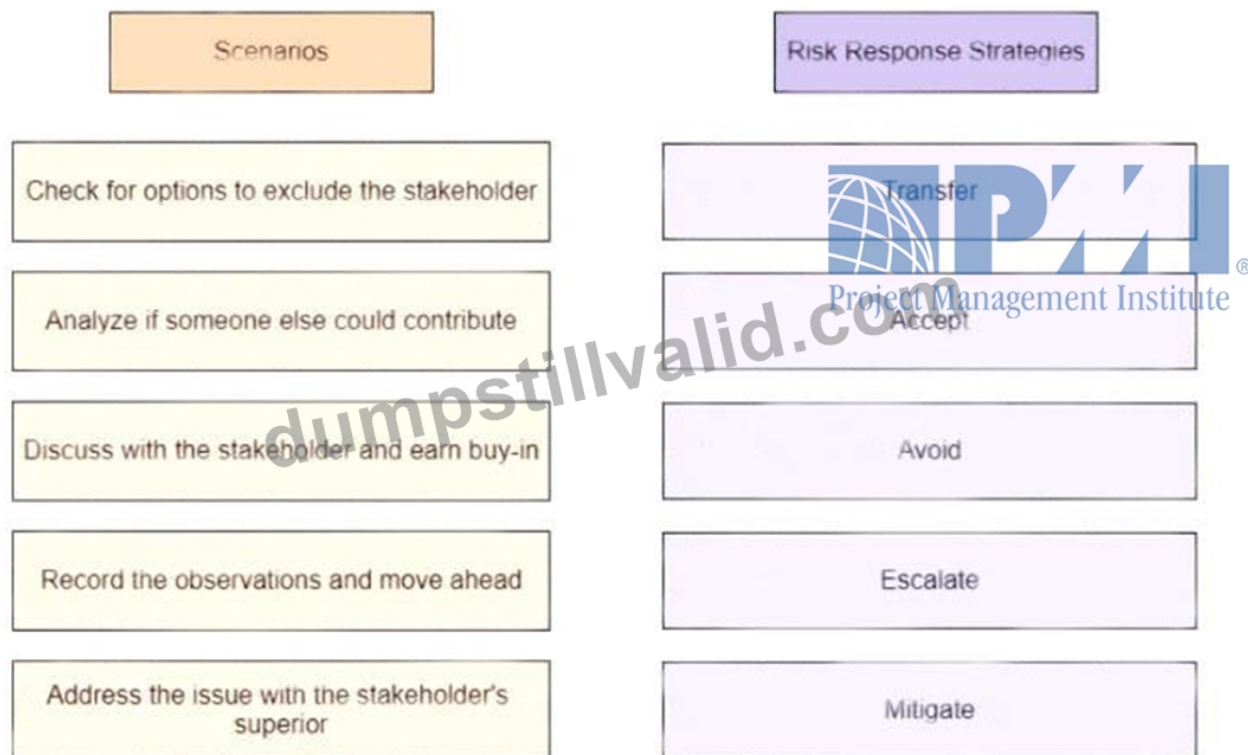

A project manager is managing a project for a government owned company using an iterative approach. The first useful release to production consisted of three iterations. Each iteration was successfully checked by the client's representatives in the test environment. However, when the team started deploying to the production environment, the security team declined it. What should the project manager have done to prevent this?

- A. Implemented the authorization in the first iteration
- B. Deployed to production after the first iteration
- C. Planned smaller iterations to review the results more often
- D. Reviewed the compliance requirements with stakeholders

Answer: D

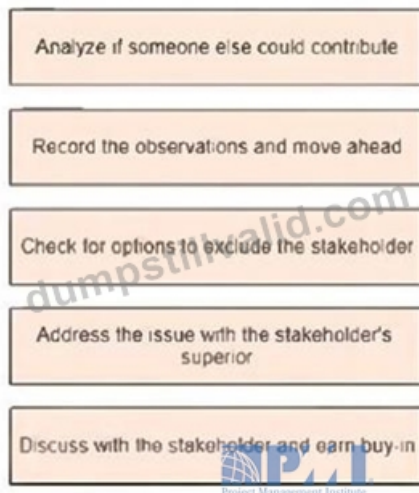

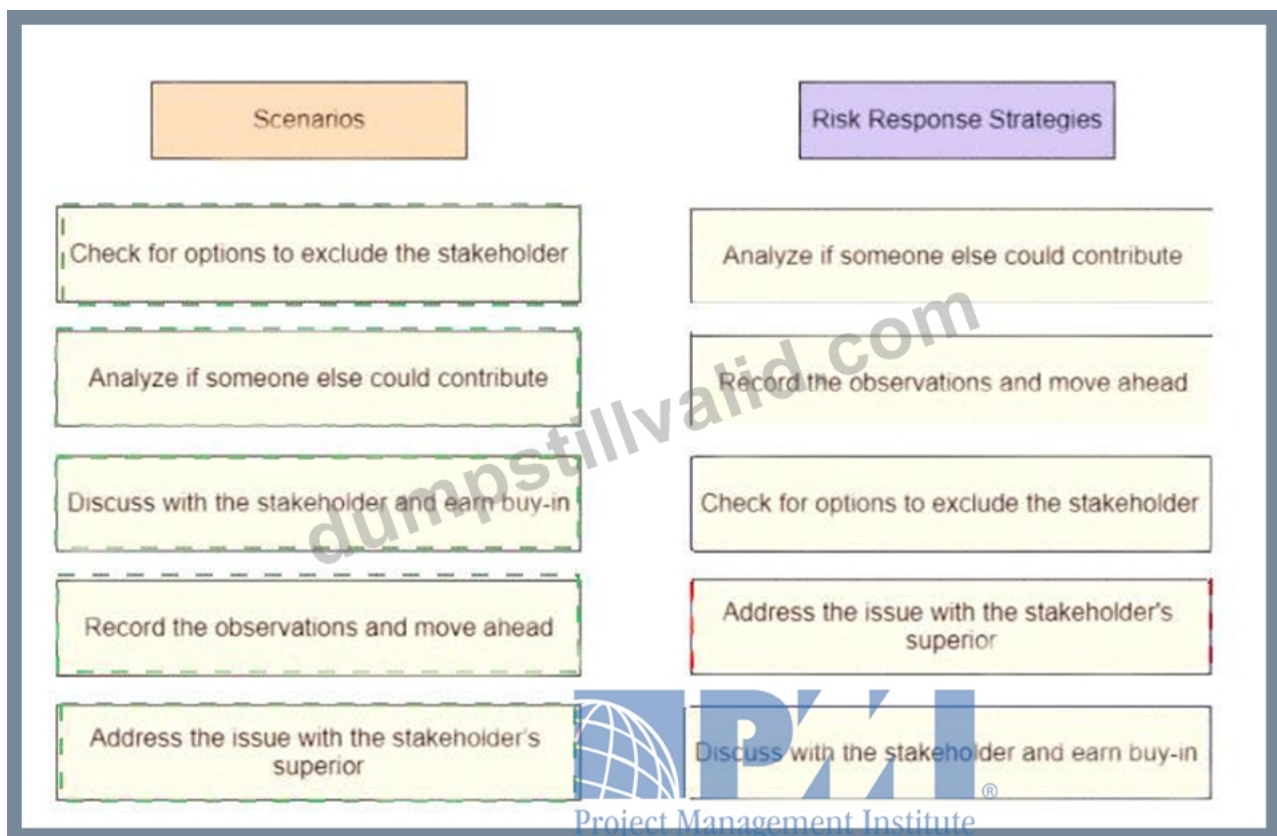

NEW QUESTION # 63

A project manager is worried that a key stakeholder is not participating in the project and has concluded that the final product is not as good as it could have been if the stakeholder had been more involved. Drag the scenario on the left to the correct risk response strategy on the right.

Answer:

Explanation:
